DARTMOUTH STUDIES IN TROPICAL ECOLOGY 2006

STUDENT EDITORS: NATHAN H. RAINES, SARAH L. EMEL,
CATRINA A. LINDGREN

STAFF EDITOR: LESLIE L. BARROW

FACULTY EDITOR: DAVID R. PEART

DEPARTMENT OF BIOLOGY
DARTMOUTH COLLEGE
HANOVER, NEW HAMPSHIRE

Members of the Dartmouth Biology Foreign Studies Program 2006

Faculty

David R. Peart
Matthew P. Ayres
John J. Gilbert

Lab Coordinator

Craig D. Layne

Graduate Assistants

Erik E. Stange
Elizabeth M. Wolkovich

Undergraduates

Abigail L. Adams
Katherine R. Amato
Brian D. Bates
Andrew R. Carreras
Sarah L. Emel
Catrina A. Lindgren
Christina H. May
D. Dünya Önen
Nathan H. Raines
Scott W. Schwartz
Paul R. Wright
Kathryn M. Sullan
William F. Stork

TABLE OF CONTENTS

PALO VERDE

A failed mutualism between *Acacia cornigera* and its resident ants p 1
Brian D. Bates, Sarah L. Emel, William F.J. Stork, and Kathryn M. Sullan

Relation between *A. collinsii* nectary density and disturbance-induced activity of *P. spinicola* p 4
Abigail Adams, Paul Wright, Katherine R. Amato, Catrina Lindgren, Marcie Wing

Aggressive responses of *P. spinicola* to numbers of introduced *P. flavicornis* p 7
Scott W. Schwartz, Nathan H. Raines Andrew R. Carreras, Christina H. May, D. Dünya Önen

Comparison of defenses and stem densities of woody plants between cattle-browsed areas and protected areas at Palo Verde National Park p 9
William F.J. Stork , Sarah L. Emel, Andrew R. Carreras, Nathan H. Raines, and Scott W. Schwartz

Density dependence of herbivory on *Ruellia inundata* at small spatial scales p 13
Katherine R. Amato, Brian D. Bates, Catrina A. Lindgren, Paul R. Wright

Effects of litter type and depth on arthropod diversity in a tropical dry forest p 15
Abigail L. Adams, Christina H. May, D. Dünya A. Önen, and Kathryn M. Sullan

Nest, we have a problem: *Nasutitermes* termite's behavioral response to trail damage at varying distances from nest p 18
Andrew R. Carreras and Scott W. Schwartz

Foraging efficiency and group behavior in Northern Jacanas p 21
Paul Wright, Abigail Adams and Sarah Emel

Habitat distribution of Common Pauraques and their prey in an open field at Palo Verde p 23
Brian D. Bates

The effects of cattail management on the aquatic food web of the Palo Verde Wetland p 26
Christina H. May, D. Dünya Önen, and Kathryn M. Sullan

Still life: Great Egret response to encounters with conspecific and heterospecific birds p 29
Catrina A. Lindgren and William F. J. Stork

Effects of large-scale cattail management on local, microhabitat-specific foraging behavior of Great Egrets p 32
Katherine R. Amato and Nathan H. Raines

MONTEVERDE

Stream water quality of Quebrada Máquina at Monteverde, Costa Rica p 36
Nathan H. Raines, Andrew R. Carreras, Scott W. Schwartz, and William F. J. Stork

Differences in moss morphology and community composition between an open and a forest understory habitat p 40
Katherine R. Amato, Brian D. Bates, D. Dünya Önen

Variable sex ratios in the monoecious perennial *Begonia involucrata* p 45
Catrina Lindgren, Sarah Emel, and Abigail Adams

The distribution of *Oreopanax xalapensis* with respect to forest edges p 48
Paul R. Wright, Kathryn M. Sullan, and Christina H. May

CERRO DE LA MUERTE

A possible adaptation in Tipulidae to reduce predation by inhabiting *Chusquea longifolia* nodes p 51
Scott W. Schwartz and Paul R. Wright

Secondary metabolites in plants with known medicinal uses in sun and shade habitats p 54
Christina H. May, Sarah L. Emel, and Kathryn M. Sullan

Nectar availability and flower preferences of high-altitude tropical hummingbirds p 58
D. Dünya Önen, Nathan H. Raines, Abigail L. Adams, Andrew R. Carreras, and Brian D. Bates

Social structure and reproductive success in Passalid beetle colonies p 61
William F. J. Stork and Katherine R. Amato

Living on the edge: Adaptations by epiphytic bromeliads to light intensity and desiccation in exposed canopy habitats p 66
Catrina Lindgren

CORCOVADO

Comparison of foraging behavior between howler monkeys, spider monkeys, and squirrel monkeys p 70
Katherine R. Amato, D. Dünya Önen, Sarah L. Emel, and Christina H. May

Resource preference and foraging efficiency in leaf-cutter (*Atta columbica*) ants p 75
Kathryn M. Sullan, Catrina A. Lindgren, Abigail Adams

Evaluating the Exploitation Ecosystems Hypothesis in a marine-influenced river community p 79
Andrew R. Carreras, Brian D. Bates, Paul R. Wright

Size effects on foraging patterns in *Macrobrachium* shrimp p 83
Scott W. Schwartz

Bat species distribution in primary and secondary forests at Corcovado National Park p 88
Nathan H. Raines and William F.J. Stork

LA SELVA

Vertical distribution and competitive interactions of ant-following birds p 91
Sarah Emel, Andrew Carreras, Scott Schwartz, Catrina Lindgren and Nate Raines

Bottom-up and top-down effects on arthropod communities across a successional gradient p 94
D. Dünya Önen, Kathryn M. Sullan, Katherine R. Amato and Paul R. Wright

Tropical bird community structure in flowering and fruiting trees p 97
Abigail L. Adams, Brian D. Bates, Christina H. May, William F.J. Stork

DISCOVERY BAY

Light avoidance in *Euapta lappa* p 102
Brian D. Bates, Nathan H. Raines, and Andrew R. Carreras

Wear Sunscreen: Differences in covering behavior and covering material preference in *Lytechinus variegatus* and *Tripneustes ventricosus* p 106
Sarah L. Emel, Catrina A. Lindgren, Kathryn M. Sullan, Katherine R. Amato, and Paul R. Wright

Potential benefits of juvenile coloration in damselfish p 111
Christina H. May, Abigail L. Adams, William F. J. Stork, Scott W. Schwartz, and D. Dünya Önen,

Diel zooplankton variation in a Caribbean back-reef p 115
Kathryn M. Sullan, Katherine R. Amato, Brian D. Bates, Scott W. Schwartz, Elizabeth M. Wolkovich and the 2006 FSP class

Distribution and sources of fish species richness in west Discovery Bay p 118
William F.J. Stork, Christina May, Catrina A. Lindgren, Erik E. Stange, and the 2006 FSP class

Seeing red: Examining the possible functions of Apylsia dactylomela ink p 125
Andrew R. Carreras, Brian D. Bates, and Scott W. Schwartz

Mechanisms affecting the colonization of an artificial substrate by marine invertebrates p 130
Kathryn M. Sullan, D. Dünya Önen, and Christina H. May

Factors driving fish community composition on patch reef islands p 136
Paul R. Wright, Sarah L. Emel, Abigail L. Adams, William F. J. Stork, Catrina A. Lindgren

Diadema antillarum's impact on coral cover and juvenile corals along the west fore reef, Discovery Bay, Jamaica: Past and present p 141
Nathan H. Raines and Katherine R. Amato
