

**SECTION 33 34 00**

**ONSITE WASTEWATER DISPOSAL**

**PART 1 - DESIGN DIRECTIVES**

- 1.1 Onsite wastewater disposal systems must comply with the design requirements of the state in which the system is to be constructed.
- 1.2 The CONTRACTOR or DESIGNER must provide the OWNER with a schematic design for the proposed onsite wastewater disposal system prior to initiating final design(s). The OWNER will have the right to reject any design if it is determined by the OWNER to have potential issues relating to construction, operation or environmental impact.

**PART 2 - PRODUCTS**

- 2.1 No special requirements

**PART 3 - EXECUTION**

- 3.1 No special requirements

**END OF SECTION 33 34 00**
