

**DIVISION 4**

**MASONRY**

**1.1 DESIGN CRITERIA**

- A. Comply with the Dartmouth Design and Construction Guidelines as established in this Section and through consultation with the Dartmouth Project Manager.

**1.2 GUIDELINES**

**A. Section 04 20 00 - Masonry**

1. Dartmouth Blend: Standard modular waterstruck brick by Morin Brick Company with Flemish Bond. Consult with the Dartmouth PM to determine if the blend is appropriate for the project.
2. Masonry Mock-Ups: Exterior freestanding mockup required for visual review; if colored mortar is used, allow 10 days cure prior to approval.
3. Efflorescence: Require manufacturer to provide testing to demonstrate low efflorescence performance.
4. Mortar Joints: Natural or colored mortar as appropriate for the project.
5. Sealant Joints: Preferred for stone masonry, including both horizontal and near ground stone.

**END OF DIVISION**
