

A Simple Book Repair Manual: Corner Consolidation

See video of repair: dartgo.org/sbr-17

Suggested Equipment & Supplies

- Microspatula
- Wax paper
- Small pieces of book board
- Bull dog clips
- Adhesive (PVA)

Procedure:

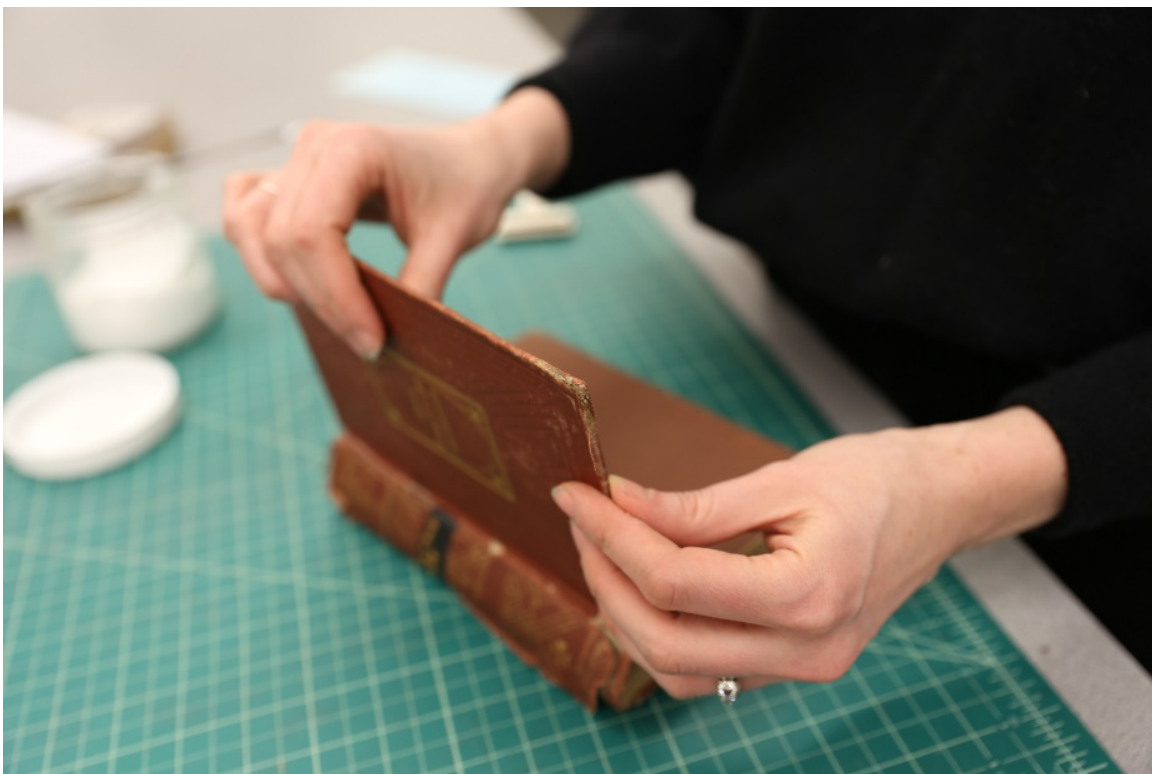

1. Fan out layers of the board with the microspatula.

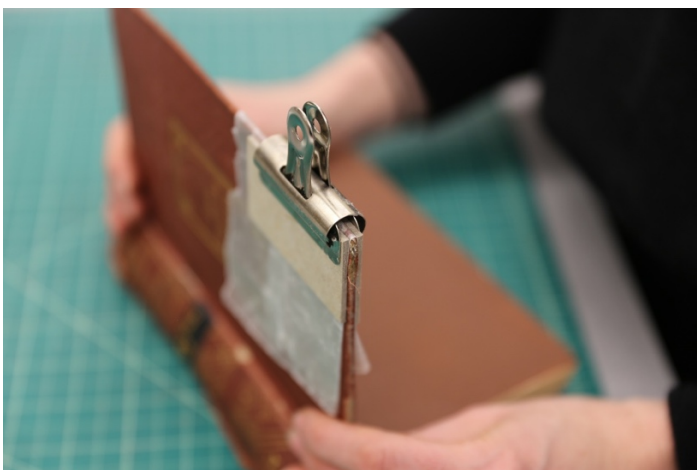

2. Using the microspatula as a brush apply adhesive between the layers of exposed board.

3. Push the layers back together and mold the corner back into shape. Wipe excess glue away immediately.

4. Wrap wax paper around the board edge and sandwich the corner in between two pieces of board. Hold in place with the bull dog clips.

5. Let dry completely.
