

## Web Sources of CATs and Information about CATs

CATMAKER – from the Global Medical Knowledge Database (GMKD)

<http://emcats.dyndns.org/>

Free software that allows you to create CATs online, share them with others (if you so choose), and read the CATs others have created.

What is a CAT? from Oxford University

[http://www.cebm.net/cat\\_about.asp](http://www.cebm.net/cat_about.asp)

QUEST: Question, Evaluate, and Synthesize

<http://psychiatry.mc.duke.edu/Residents/Quest.html>

An extensive list of CATs completed by psychiatry residents at Duke University.

The CATbank – from Oxford University

<http://www.minervation.com/cebm2/cats/allcats.html>

BestBETs (Best Evidence Topics)

<http://www.bestbets.org/>

“BETs were developed in the Emergency Department of Manchester Royal Infirmary, UK, to provide rapid evidence-based answers to real-life clinical questions, using a systematic approach to reviewing the literature.”

Evidence-Based On Call

<http://www.eboncall.org/>

Includes evidence-based summaries of 38 on-call medical conditions (not mental health)

The CAT-Crawler

[http://www.bii.a-star.edu.sg/research/mig/cat\\_search.asp](http://www.bii.a-star.edu.sg/research/mig/cat_search.asp)

This is a one-stop downloading site that searches popular online CAT libraries and provides relevant CATs to a particular clinical topic.

CATs from the University of Michigan Dept. of Pediatrics

<http://www.med.umich.edu/pediatrics/ebm/Cat.htm>

Pediatric topics – includes a few re. mental health issues.
