Viewing Account Activity for Students and Parents/Other Payers

Last updated: June 12, 2017
Step 1: Click on the “View Activity” button.
Step 1 (alternative method): Click on “My Activity” and then click on “Current Activity.”
Step 2: You will first see the current undergraduate term. For graduate and professional school students, this may not be your current term. You may also have payments and charges in terms in which you have no classes. Use the drop-down menu to select a term and then click on the “Select” button.
Success! In this example, the summer term is now displayed. Please note that you may view recent activity since the last billing statement by clicking on “My Account” and then by clicking on “Statements.”
