Viewing Account Activity for Students and Parents/Other Payers

Last updated: November 7, 2017
Step 1: Click on the “View Activity” button.
Step 1 (alternative method): Click on “My Activity” and then click on “Current Activity.”
Step 2: You will see a “tree” view of the terms in which you have transactions. Click on a particular term to see the account activity in that term. Click on the “Expand All” button to show all the term. Please keep in mind that you may have “new” charges in an “old” term. For some graduate students, payments may be posted in prior terms, including terms in which you were not enrolled.

Hint: While you may view all activity on this page, it is always a good idea to start by looking at the statement. It has the amount due and the due date. More importantly, the statement includes all account activity (including all terms). Click on “My Account” and then click on “Statements.”
Success! This is an example of showing the current activity with all of the terms expanded. Note the options for printing and exporting the data by term. A future upgrade will permit these actions to be taken on the account as a whole.
