BUILD YOUR BRAND ON CAMPUS

Post Enticing Job & Internship Descriptions, Enhance your Career Website Portal
A thorough and appealing job or internship description, worded appropriately for liberal arts students, is critical to attracting the best candidates. Your website is also an important marketing tool. We are happy to review your materials, help you put your best foot forward, and provide constructive feedback.

Hold an Employer Information Session
Schedule a one-hour event, open to all students, during our winter, spring, or summer quarters. Info sessions take place in campus classrooms or in function rooms reserved at the Hanover Inn. Our Center for Professional Development schedules all info sessions so you don’t have to worry about overlap. We help you promote your events effectively.

Note: Sophomores are required to be on campus taking classes during our summer quarter. As such, Summer Information Sessions are ideal for building your image as you promote fall and/or winter internships for rising juniors.

Drive Traffic to your Booth at our Annual Employer Connections Fair
Showcase your organization and your opportunities at our biggest event of the year! This is your only opportunity to engage directly with hundreds of talented candidates. Save the date for our 2015 Employer Connections Fair, September 22 & 23. Registration is now open.

Send Customized E-mail Invitations
Use our customized email invitation service to market your organization, upcoming resume submission deadlines and events. Target Dartmouth students who are interested in your field. Let us show you how and walk you through this simple process.

Participate in On-Campus Interviews
Participate in one of our major resume submission deadlines to maximize your reach, then make your interview decisions online and let us take the work out of scheduling interviews. You can simply arrive on campus and begin meeting with scheduled candidates in our newly renovated CPD interview facility.

Can’t make it to campus? Collaborate with us on a Resume Drop with Follow-Up Phone/Video Interviews
You can still participate in one of our major resume submission deadlines to maximize your yield, and use our system to inform students of your interview decisions. Then schedule interviews directly with students from the comfort of your own office.

Hire Talented Dartmouth Interns Full-Time Each Academic Quarter
Cultivate a steady supply of future entry-level candidates and keep students thinking about your organization every quarter! Hire full-time interns for 8-14 weeks each season of the year. Whether you have a one-time project or an ongoing need, Dartmouth students will make a lasting impact. As your interns return to campus, you’ll reap the cumulative benefits of “word of mouth” advertising. Ask us how!

Gain Visibility by Funding Innovative Resources for Students
Help provide students with Best-In-Class resources. Call us at 603-646-2665 to discuss how your organization can gain recognition as a special friend and supporter of our office.

Dare to be Different
What Makes Dartmouth College Unique

- Dartmouth is the top-ranked Ivy League institution with over 64% of undergraduates studying abroad, according to the Institute of International Education.
- Dartmouth is ranked No. 4 in Undergraduate Teaching, 11th Overall by U.S. News & World Report.
- Business Insider ranked Dartmouth No. 12 on The 50 Best Colleges in America in 2014.
- Dartmouth offers many experiential learning programs in addition to study abroad, such as service experiences and alternative spring break trips run by Dartmouth’s 75+ centers.
- Of Dartmouth’s 50+ majors, the most popular are Economics, Government, Psychological & Brain Sciences, History, Biology, English and Engineering Sciences. New majors include Digital Arts and International Studies.
- The intensive academic calendar challenges students to excel in new classes every 10-12 weeks, four times per year.
- Dartmouth has partnerships with universities worldwide, including the American University of Kuwait and American University in Kosovo.
- Dartmouth’s Class of 2018 has 1,152 students; 90% graduated in the top 10% of their school.
- The middle 50% scored 680-780 on SAT, Math, Writing, and Critical Reading.

What Employers Say about Dartmouth Students

Recent Interview Feedback

- Better than many others—more polished and prepared.
- Met truly excellent candidates today. Resume quality surpassed other colleges.
- Great communication skills overall and all researched our company in advance.
- Really impressed this year. Always very engaged and likable.
- Great passion, critical thinking, overall intelligence, questions.
- Very prepared, clearly researched the role before the interview. Each candidate referenced classes that have been impactful to them, which is nice to hear.

Our Employer Relations Team Offers You

Dartmouth Undergraduate Students...

Future Leaders in the Making

- They thrive in a fast-changing work environment. Our students are already practiced in time and project management, having adapted to an intensive academic calendar every 10-12 weeks.
- Our students demonstrate proficiency and sophistication with technology that applies across industries, thanks to ongoing use of state-of-the-art resources across campus.
- Diversity and cultural awareness are woven into the fabric of Dartmouth. Over 35% of our population are students of color. Additional significant international representation provides unique perspectives. Academic majors include African/African American Studies, Native American Studies, Asian Studies, and Latin American/Caribbean Studies.
- A large majority of our students are fluent in at least two languages and complete at least one internship.
- Nearly a quarter of undergraduates are varsity athletes, and 56% of Dartmouth students work at least part-time during the school year, further enhancing exceptional time management skills.
- Dartmouth students possess incredibly strong critical thinking, research, and analytical skills; have demonstrated leadership ability; commitment to community service and practical work experience.
- Interns are available year-round, each academic quarter, with interests in all geographic regions.

See our Agile Talent in Action! Sponsor a short-term project or assignment. The 6-week break between Thanksgiving and the start of winter term enables students to take on experiential learning projects.

“We love the young men and women we meet when we come recruiting at Dartmouth: whip-smart, pro-active, and confident but also good-humored and not too proud to roll up their sleeves and get going.”

— Rob Bell, Treacy & Co., Nov. 2014

The Digital Arts Leadership and Innovation (DALI) lab is a one-of-a-kind research and development lab in the computer science department. Teams of student designers, developers & project managers collaborate to build technology tools to display data in meaningful ways, and make complex information easy to understand. Projects include building interfaces for medical devices, designing and developing mobile and web applications, dashboards and interactive displays, and robots that can be used for urban planning.
