What does EHS do?  

...And who are they?

Environmental Health and Safety (EHS) is a multi-function department which provides a number services across the entire Dartmouth Community.

Below are many of the subjects we manage, support, guide and advise on.

All members of EHS cross disciplines, and are integral in multiple categories.

**Occupational Safety**
- Hazard Prevention and Control
- Powered Industrial Equipment
- Hazard Communication
- Respiratory Protection
- Hearing Conservation
- Cutting and Welding
- Workplace Analysis
- Lock Out Tag Out
- Electrical Safety
- Confined Space
- Consultations
- Training
- OSHA

**Environmental Protection**
- Exposure/Industrial Monitoring
- Industrial Discharge Permits
- Fuel Storage/Management
- Asbestos, Lead, PCB’s
- Construction Safety
- OSHA Regulations
- Indoor Air Quality
- EPA Regulations
- Training
EHS strives to help students, staff, faculty and visitors by managing a wide range of regulatory obligations, and health and safety concerns.

Please feel free to contact EHS with questions on any of these topics by stopping by, calling or sending us a message.
