- Notes:
1. Data indicate concentrations of 1,4-dioxane in micrograms per liter.
  2. "<" indicates that 1,4-dioxane was not detected above the referenced reporting limit.
  3. "/" indicates results of labeled and blind duplicate sample, respectively.
  4. "-" indicates sampling location not included in respective sampling round.

- Notes:
5. "dry" indicates no water in monitoring well at the time of the respective sampling round.
  6. "Value/Value"" indicates analysis for 1,4-dioxane performed using EPA Method 8260B and 8260B SIM, respectively.
  7. Shaded cells indicate well location was not installed at the time of the referenced sampling round.
