

## APPLICATION FOR PRE-MATRICULATION CREDIT AND/OR EXEMPTION

In order to receive credit for work done at another college or university prior to entering Dartmouth, it will be necessary for you to complete this form and take it to the appropriate chairperson in each department, along with an official transcript. You may be required to provide the course catalog description and syllabus, as well as any other available evidence such as examination papers, compositions, etc.

Pre-matriculation transfer credit may be granted *only* for courses taken at an accredited four-year university or college; credit for courses taken at a community or junior college is not allowable.

Credit will be counted toward the maximum of four transfer credits allowed overall toward the Dartmouth degree.

Pre-matriculation credits do not count toward general education requirements (Distributive, World Culture).
