NCAA Banned Substance Documentation Requirements

Dear Health Care Provider,

Your patient, a student at Dartmouth College, plans to or already participates in intercollegiate athletics at our institution. The NCAA has compiled a list of prescribed medications which are composed of substances that are generally purported to be performance enhancing and/or potentially harmful to the health and safety of the student-athlete. These medications are banned for use by NCAA athletes.

The NCAA recognizes that some banned substances are used for legitimate medical purposes and allows exception to be made for those student-athletes with a documented medical history demonstrating the need for treatment with a banned medication. Exceptions may be granted for substances included in the following classes of banned drugs: stimulants, beta blockers, diuretics, anti-estrogens, beta-2 agonists, peptide hormones and anabolic agents.

Student-athletes taking stimulant medication for the treatment of ADD/ADHD must provide specific documentation of diagnosis and treatment to allow for medical exception. The Dartmouth College Health Service requests the information indicated on the enclosed form: Medical Exception Form—ADD/ADHD. This additional documentation is critical for his/her eligibility in athletics.

Use of peptide hormones and anabolic agents must be pre-approved by the NCAA before the student-athlete is allowed to participate in competition while taking these medications. This can be accomplished through the coordination of the prescribing physician and the Head Athletic Trainer.

For all other medications in the banned substance categories listed above, prescribing physicians may submit as documentation: a letter or copies of medical notes documenting how the diagnosis was reached, and that the student-athlete has a medical history demonstrating the need for treatment with the banned medication. The letter should contain information as to the diagnosis (including appropriate verification of the diagnosis), medical history and dosage information.

Documentation of the use of these banned medications is required to be re-submitted annually as long as your patient continues to participate in NCAA athletics. In providing this required documentation, you acknowledge that you have reviewed the patient’s health history and have provided safety information regarding banned substance use as well as misuse guidelines.

Medical Exception Form—ADD/ADHD

Date: _______________  
Student-athlete name: ______________________  Date of birth: _______________

To be completed by student-athlete:

I, ___________________________________________, give ____________________________________ (physician) permission to release all information regarding my treatment for ADHD to The Dartmouth College Health Service and National Collegiate Athletic Association. This authorization will be valid for one calendar year, beginning on the date I sign this authorization. I may revoke this authorization at any time by submitting a letter in writing to the Director of The Dartmouth College Health Service, understanding that all information released prior to my revocation is excluded. My signature below indicates that I have read and understood the above statement.

Signature: ___________________________________________  Date: _______________

Parent/Guardian signature : ___________________________________  Date: _______________
(If student is under 18)

To be completed by Health Care Provider:

Provider: Your patient is a student-athlete participating in intercollegiate athletics. The NCAA bans the use of some stimulant medications and requires that the following documentation is submitted to support a request for a medical exception in the case of a positive drug test for such use. For additional information, please visit the NCAA Health & Safety website:  http://www.ncaa.org/health-and-safety/policy/drug-testing

Date of Clinical Evaluation: _________________________

1.) Required ADHD documentation components:

Attach written report of comprehensive clinical evaluation. Please note that this includes the original clinical notes of the diagnostic evaluation. This evaluation should include individual and family history, address any indication of mood disorders, substance abuse, and previous history of ADHD treatment, and incorporate the DSM criteria to diagnose ADHD. Attach supporting documentation, such as completed ADHD Rating Scale(s) scores. Please also submit copies of test results for inclusion in student-athlete’s College medical record.

The evaluation can and should be completed by a clinician capable of meeting the requirements detailed above.
