Off Campus Internships

- Dartmouth encourages you to spend one or more of your Leave Terms doing work which will enhance your personal and academic goals. Grant ceilings vary but may be up to \$2500 for international placements/projects and \$2000 for domestic. Students on Dartmouth financial aid may be eligible for additional funding based on current need. If your proposal is accepted by more than one department or program, you will be required to choose only one grant. Every

student's financial situation is unique. We encourage all financial aid recipients considering an internship to talk with the program coordinators and his/her financial aid officer. Your financial aid officer can help you to explore alternative ways of covering your leave term earnings expectation.

Students must apply for these funds through the Student Employment Office; they are not automatically included in your financial aid award. <http://www.dartmouth.edu/~seo/student/wsleave.html>
- The Federal Work-Study Program (FWSP) is a federally funded program and was established by Congress through the Higher Education Act of 1965 to assist needy students earn money to meet educational costs. Participation in the program is determined by the student's financial need and is awarded as part of the financial aid package. Earnings are not applied directly to the tuition bill, but are used by the student to cover costs such as books, personal items, and transportation. FWSP funds may only be used on campus with on-campus employers or with approved off-campus community service employers.
