

KRESGE PHYSICAL SCIENCES LIBRARY & COOK MATHEMATICS COLLECTION

AN INTRODUCTION FOR LIBRARY USERS IN ASTRONOMY, CHEMISTRY, COMPUTER SCIENCE, EARTH SCIENCES, ENVIRONMENTAL STUDIES, MATHEMATICS, AND PHYSICS

HOURS

Regular Session [Fall, Winter & Spring Terms]

Monday - Thursday	8 am - 12 midnight
Friday	8 am - 8 pm
Saturday	11 am - 8 pm
Sunday	11 am - 12 midnight

Check the web for holiday, intersession, and summer hours.
The Cook Mathematics Collection hours are the same as Baker-Berry.

PEOPLE

Jane Quigley	Head, Kresge Library	603-646-3564
Ann Perbohner	Physical Sciences Librarian	603-646-3845
Karen MacPhee	Library Supervisor	603-646-3840
Lisa Ladd	Collections Specialist	603-646-3566
Marcia Pirone	Document/Technology Specialist	603-646-3567

3rd Floor Fairchild Hall

603- 646- 3563
Kresge.Library@dartmouth.edu

About the Library

Kresge Physical Sciences Library provides collections and information services that support research, teaching and learning in astronomy & physics, chemistry, earth sciences, environmental studies, and physical geography. Kresge also supports the Cook Mathematics Collection, located on the third floor of Berry Library.

Cook Mathematics Collection

The Cook Mathematics Collection is where you will find the majority of the mathematics and computer science print collection in the Dartmouth Libraries; it is located on Berry Level 3. You will find the journals here as well as the circulating Cook print collection. Most math and CS items starting with the letters QA will be here. Additional math, CS and reference titles are shelved in Kresge Library and throughout the library system depending on their topic focus.

KRESGE PHYSICAL SCIENCES LIBRARY & COOK MATHEMATICS COLLECTION

Photocopying, Scanning & GreenPrint

Kresge has a color scanner with monitor that allows you to create high-quality scans from articles and chapters, and send the files to your email account at no charge. A GreenPrint printer/scanner/ copier is also available in Kresge for your use. Students receive an allocation of \$20 per term of free printing, with a double-sided page costing 8.5¢. GreenPrint printers as well as photocopiers and more scanners are also available in Berry Library.

Research Assistance

Subject specialist librarians and reference staff are available to help you locate information and materials regardless of format or location, find answers to factual questions, help you explore a research topic, and do comprehensive literature searches. Requests for assistance can be sent via email to any Kresge librarian or to kresge.library@dartmouth.edu. You can also phone or drop by librarians' offices in Kresge.

Course Reserves

Kresge Library offers access to a variety of print and online materials as part of our course reserve service. Course reserve items can be checked out for either 2 or 24 hours, depending on the course. Baker Reserves handles reserves for math and computer science courses. To search for your course reserve items, whether print or online, follow the course reserves link from the library catalog.

Off-Campus Access to Library Resources

Online information resources are licensed by the Dartmouth College Library for affiliated users. Authentication is generally tied to your computer's IP (network) address. The best solution for off-campus users is a Virtual Private Network (VPN), which creates a secure network connection between your computer and the Dartmouth or DHMC network. For more information, follow the "Off-Campus Access" link from the Library's website.

DartDoc: Document Delivery/Interlibrary Loan (ILL)

Books and articles that are not available at Dartmouth can be requested through the library's DartDoc service.

There is generally no charge for this service for Dartmouth users. Borrow Direct is another (sometimes faster) option for obtaining books from a regional network of cooperating university libraries.

Group Study Space

Kresge's newly renovated Learning Center, equipped with a projector and whiteboard, is available for use as a group study room. You can call or come in to reserve the room up to one week in advance.

Workshops & Guides

Workshops on a variety of research-related topics take place throughout the year. Take advantage of opportunities to explore new databases and information discovery tools, or to brush up on your research strategies.

Prefer the self-guided approach? Use the "Research Guides" links on the Kresge front page to find recommended resources in astronomy & physics, chemistry, earth sciences, environmental studies, math and computer science.

Loan Periods & Circulation Policies

The loan period for graduate students is 120 days for books and other circulating items and 28 days for undergraduates, with up to three renewals. Faculty may borrow books for one year. Bound journals circulate for one week in Kresge and in the Cook Collection in Berry Library; unbound journals and reference materials do not circulate.

Most items can be renewed up to 3 times; you can renew items online through the Library Catalog. You need to create a PIN to renew online. Additionally, renewals can be requested by email, by phone, or in person.
