#3 Pharmacyclics 2015 Summer Internship Program

Pharmacyclics is a fully integrated biopharmaceutical company committed to developing and commercializing novel therapies to treat cancer and immune-mediated diseases that are intended to improve quality of life, increase duration of life and resolve serious unmet medical healthcare needs. We strive to identify and control promising product candidates based on scientific and administrative expertise and develop them in a rapid, cost-efficient manner, pursuing partners when appropriate. Pharmacyclics markets one approved product, IMBRUVICA® (ibrutinib) that treats several blood cancers. The company also has other product candidates in clinical development and several preclinical molecules in lead optimization.

They are looking for summer interns (cross-discipline) who have completed at least their freshman year of college (graduate level students are welcome for some functions) and are looking to work on rigorous and meaningful projects that are business-critical. Summer interns will also have the opportunity to interact with senior management during weekly lunch and learns. More details are included below.

The summer internship program will take place from June 15-August 21, 2015 at their corporate headquarters in Sunnyvale, California. The internships are paid positions for the summer. In many cases interns have secured jobs at the end of summer. Pharmacyclics is hiring. Executives at the company have worked at most of the major biotech/pharmaceutical companies including: Roche/Genentech, Amgen/Onyx, Johnson & Johnson, Celgene, GSK, etc.

All prospective interns should submit their resume to Autry Liggettt (aliggett@pcyc.com).

**Program Highlights**
- Chance to work on rigorous and meaningful business-critical projects
- Leadership Insights Series: Introduction to Pharmacyclics
Senior Management during a weekly lunch and learning setting

- Social events, such as professional sporting events, intern lunches & dinners, and group outings
- Present end of summer findings to Executive Management

**Internship Details**

Pharmacyslics internships take place at our headquarters in Sunnyvale, CA. All internships are paid positions and those who show exceptional work ethic, interest, and productivity may be offered a full-time position upon completion of the program.

**Requirements**

All summer interns at Pharmacyslics will need to have completed their freshman year of college. Internships are 8-12 weeks depending on the department and its needs. Pharmacyslics recruits interns for groups across the company, including but not limited to:

- Accounting
- Biostatistics
- Corporate Communications
- Finance
- Human Resources
- Investor Relations
- Marketing
- Research
