Here is a fall or winter internship offered by a Dartmouth alum that some Nathan Smith Society students might be interested in.

—Lee

Intern fall or winter in San Francisco!

Work closely with Bret Field, a Dartmouth ’89 at...

**Bozicevic, Field & Francis**
East Palo Alto, CA
[www.bozpat.com](http://www.bozpat.com)

Become a paid Technical Specialist Intern for a 50-person law firm that obtains patents for clients in the life sciences technology area.

Participate substantively in the patent procurement process:

- perform legal and scientific research to support the preparation of patent applications
- construct concise and persuasive writing of office action responses
- benefit from close attorney/patent agent mentorship

Candidates should have, at a minimum, introductory coursework in the life sciences (biology, chemistry, biomedical engineering). Be prepared to research scientific articles, e.g., as found in PUBMED, and critically assess such articles for use in persuasive writing.

**Apply by April 30!** Send resume, cover letter, and unofficial transcript to Shirley Laboy (Executive Director) at [laboy@bozpat.com](mailto:laboy@bozpat.com). In your brief cover letter, specify which term(s) you are available to work.
