Office Human Resources	<p>Information retrieved by IR from data maintained by the Office of Human Resources, Common Data Reporting View. See definitions in "Faculty-Total Institution" section.</p> <p>New Race/Ethnicity Changes: In 2007, the Federal government issued new requirements on collecting and reporting racial and ethnic data. The change in reporting is effective as of Fall 2009. The new guidelines require that the data are collected in a 2 question format. The first question is whether the respondent is Hispanic/Latino. The second question asks the respondent to select one or more races from the following federally defined races: American Indian or Alaska Native, Asian, Black or African American, Native Hawaiian or Other Pacific Islander, and White.</p> <p>The guidelines also cover reporting of aggregate data to the US Department of Education. Nine race reporting categories are now required. Hispanics of any race are reported as Hispanic. For non-Hispanics, single responses to the race categories are reported as the selected category. Selection of any two or more races is reported as a separate category, "two or more races". The categories of Nonresident aliens (International) and Unknown Race/Ethnicity were retained from previous reporting requirements .</p>
