Department Source:	Document/Data Source:
<p>Information retrieved by IR from data maintained by the Office of Human Resources, Common Data Reporting View</p>	<p>Based on Fall IPEDS Count as of 11/1 in given year. Includes faculty under contract in Fall, (permanent, visiting, or adjunct), and faculty on sabbatical or other leave who are on payroll.</p> <p>PRIMARY ASSIGNMENT Primary assignment is determined by various assignment attributes in the following order of precedence: highest FTE, assignment status, DND flag, and greatest assignment end date. The assignment statuses considered, in order of precedence, are: Positional, Sabbatical, FRO, Military Leave and Short Term Disability.</p> <p>TEMPORARY FACULTY Temporary faculty are assignments in the Faculty people group, with employment category classified as temporary (i.e. Temporary Full-time, Temporary Part-time).</p> <p>APPOINTMENT STATUS (FULL-TIME VS PART-TIME) An employee is classified as full-time if the total FTE across all active assignments is greater than or equal to one. If total FTE is less than one, the employee is considered part-time.</p> <p>ACADEMIC RANK For faculty staff, faculty status comes from the faculty SIT. For employees with multiple records, the record with the highest tenure status, followed by rank is used. Tenure status = T -> tenured Tenure status = TT -> tenure-track Other tenure status -> non tenure-track All other employees are classified as non-faculty.</p> <p>FACULTY VS NON-FACULTY If the EEO category on the primary assignment is 02, the employee is counted as faculty. Faculty members are further divided into the following groups – those with titles of Research Faculty are classified as ‘primarily research’, all others are classified as ‘instruction combined with research and/or public service’. The exception to this rule is temporary faculty who have no job record. If an employee’s primary assignment is a temporary faculty assignment, then the employee is counted under ‘instruction combined with research and/or public service.’</p>
