Trans is used to denote any individual who has shifted away from their assigned sex or gender. It is generally considered a more inclusive term than transgender, transsexual, or genderqueer.

Is gender identity and expression a protected category at Dartmouth?

Yes, Dartmouth College includes gender identity and expression in its discrimination and sexual harassment policies. Additionally, the Athletics department has adopted the *NCAA Policy on Transgender Student-Athlete Participation* allowing participation in any varsity sport. Trans and Gender Nonconforming students are also protected by Title IX, a federal law protecting sex discrimination in educational institutions.

What can I do if I experience or witness bias or discrimination?

Report any form of bias or discrimination to a Dean in OPAL or the Undergraduate Deans Office. You can also file an electronic Bias Impact Report. Information reported on this form may be submitted anonymously and is considered confidential to the extent permitted by law and/or consistent with the mission of the College and its Standards of Conduct.
