

SECTION 10100

VISUAL DISPLAY BOARDS

PART 1 – GENERAL

1.1 QUALITY ASSURANCE

- A. Installer Qualifications: Engage an experienced installer with a minimum of 5 years experience who is an authorized representative of the chalkboard manufacturer for both installation and maintenance of the type of sliding boards used for the project.
- B. The width of the movable boards must be carefully considered in regards to deflection during use.
- C. Dartmouth College FOM or FPO must be shown a recent installation of the specified chalkboard before approval of the project specification.
- D. The chalkboards must be mechanically fastened.

PART 2 – PRODUCT

- 2.1 The white or black boards shall be equipped with full length lighting. The design of this lighting package must be reviewed with the college FPO and FOM representatives for conformance to the most current Audio/Visual department's advice.
