Construction Update

for the weeks of:
June 20, 2016 and June 27, 2016

Hood Museum Expansion & Renovation

Early work on the Hood Museum Expansion & Renovation is needed to build utility paths that separate Wilson Hall and Hopkins Center from the Hood Museum.

What is Happening
- Construction of an underground duct bank from behind Black Visual Arts Center into the Maffei Arts Plaza.
- Construction of a new concrete base for the soon-to-be-relocated Shapiro sculpture near the west entrance to the Black Visual Arts Center.
- Construction of underground utility paths from the Heating Plant to Wilson Hall.

What to Expect
- Regular weekday work hours: 7:00 AM – 4:00 PM
- The east doors of the Hood Museum – Wilson Hall Connector will be closed permanently.
- The steps and pathway between Wilson Hall and New Hampshire dormitory to the Heating Plant will be closed until Winter 2018 term.
- Bicycle racks at the northwest corner of Black Visual Arts Center will not be accessible until start of Winter 2018 Term.
- Noise due to excavation and trucking of excavated materials.
- Construction vehicles on-site as required.

**Project Description**
House Center A, located to the west of Davis Varsity on the current 2-court tennis court site, is a 4,750 square foot tensile structure manufactured by Sprung. It is a one level building which includes, a small meeting room, three small study pods and a 35’x70’ flex space complete with a seating wedge element. Primarily used as student hangout space for members of the South and North Park House Communities, it can also function as formal seating for small events. Located outside is a large deck, green space and a small fire pit to allow student activities to spill out in the warmer months.

**What is Happening**
- Ongoing site grading around the building
- Construction of the Sprung Structure
- Pouring of miscellaneous exterior concrete pads
- Connection of building sewer line to main line in Crosby Street
  - This will impact one line of traffic on Crosby Street (exact date TBD)

**What to Expect**
- Regular weekday work hours: 7:00am – 6:00pm
- Some noises due to trucking of excavated materials and other heavy equipment activities
- Handheld electric power tools
- Concrete trucks on site as required

Project Description
House Center B, located immediately south of Gile and Hitchcock residence halls, is a two-story, 6,900 square foot steel and wood-frame building. The first floor includes a c-store and a 36’x48’ flexible space. Used primarily as a hang-out space for members of the School and Allen House Communities, it can also support formal seating for small events. The second floor is similar to the first with a large flexible space and several smaller, more private, alcoves. The exterior spaces include a large deck and green space, allowing student activities to spill outside in the warmer months.

What is Happening
- Topsoil and sod installing around the building
- Interior mechanical, electrical and plumbing rough-in
- Interior drywall installation
- Interior painting
- Exterior furring strips and siding installation
- Exterior deck board installation
- Building electrical tie-in to feed from Hitchcock Hall
  - This work to happen 6/14 and will require the power in Hitchcock to be shut down

What to Expect
The community should expect the following activities in the coming weeks:
- Regular weekday work hours: 9:00 a.m. — 6:00 p.m.
- Some noise due to trucking of excavated materials and other activities
- Handheld electric powered tools, concrete trucks on site as required
- Some noise due to exterior wall framing – saws and nail guns
