## **The Ins and Outs of Stormwater Management An In-House Training Session**

Please join us on Thursday, November 1st from 9:30 am to  
1:30 pm at Kemeny/Haldeman, Conference Room 041

### *Tentative Agenda*

- 9:30 am **Dr. Robert Rosen, Director of the UNH Center for Stormwater Technology Evaluation and Verification.** Dr. Rosen will speak about innovative stormwater management. What does the research tell us? What are the challenges for implementing “cutting edge” at Dartmouth? (cold, lousy soils to name a couple!)
- 11 am **Joseph Ducharme, PE, President of TTG Environmental Consultants & colleague James Spaulding, PE, CPESC** will discuss regulatory issues and what to expect in the not-so-distant future.
- 11:30 am Walkabout campus – what is Dartmouth doing with its stormwater?
- 12:30 to 1:30 pm Lunch & Roundtable Discussion - What’s next for Dartmouth?

This workshop has been developed to provide information about innovative stormwater management and regulatory issues from researchers and designers in the field. Lunch will be provided. For more information, contact Joanna Whitcomb at PDC (646-9852 or [Joanna.Whitcomb@dartmouth.edu](mailto:Joanna.Whitcomb@dartmouth.edu)).
