

BE A UGA!

CLARK WARTHEN '10

BERRY UGA

So why be a UGA? A thousand bucks and a single? Actually, there's more! In my time as UGA I've acquired unique skills that only a job like this can offer. From program planning to dealing with staff and students, as a UGA you will learn things that will prove invaluable in the rest of your time at Dartmouth, and also in the working world.

But more than anything, I have enjoyed the folks I've worked with. Working on a dynamic staff in the McLaughlin Cluster has been an absolute joy. I've made great friends and had a lot of fun working with other UGAs in my cluster, my Community Director, and even other UGAs and CDs from outside of my staff. It's fun, do it.
