Or call 401-863-3337

**Registration fee $75** (Includes course syllabus, continental breakfast, lunch, and refreshment breaks)

Brown Medical School is accredited by the Accreditation Council for Continuing Medical Education (ACCME) to provide continuing medical education for physicians. Brown Medical School designates this educational activity for a maximum of 6 category 1 credits towards the AMA Physician’s Recognition Award. Each physician should claim only those credits that he/she actually spent in the activity.
This conference will provide state-of-the-art education in the arenas of bioterrorism and emerging infectious diseases to healthcare professionals so that they can effectively identify and respond to a terrorist event or natural outbreak of infectious disease. The focus will be on vaccine initiatives, public health policy, terrorist psychology, agents of bioterrorism, disease outbreaks, and emergency preparedness.

Established on September 1, 2001, the Center for Biodefense and Emerging Pathogens (CBEP) was founded with the mission to provide education, training, and consultation to public health entities and healthcare providers throughout the region in the arenas of bioterrorism, chemical and radiological weapons, and naturally-emerging infectious disease threats. Affiliated with Memorial Hospital of Rhode Island, CBEP draws on the expertise of an extensive network of physicians and scientists, each with a specialized interest in biodefense.
