

Checklist for designing a psychology minor & filing minor cards

please print your name

date checklist & materials submitted

This checklist will guide you in preparing a successful request for approval of your minor plan. It is intended to help you plan, but should not replace your seeking advice from the Chair of the Undergraduate Committee or any other faculty member for assistance in thinking about how to design an effective and satisfying minor.

- I have fulfilled the PSYC 1 prerequisite by taking the course, or by receiving Advanced Placement exemption at matriculation or by approved transfer.

Planned courses recorded on the minor card:

- I have at least two courses numbered 50 or higher.
- All courses numbered 50 or higher will be taken at Dartmouth.
No transfer courses may be used for this requirement.
- I have sufficient additional courses numbered 10 or higher to bring my total to 5 planned courses.
- All of the minor courses are listed as Psychology courses, including any cross-listed courses.
- No more than two of these planned courses numbered below 50 will be taken elsewhere than Dartmouth.
- No more than one of these planned courses will be taken NR, and that course will not be taken during my last three terms before graduation.
- I have completed all sections on three minor cards in ink.
These sections include courses and terms, title of minor, dept, type of minor, and the information on the reverse side.
- I understand that no course approved for this minor can be used for another major or minor.

Bring the Checklist and completed major cards to your meeting with the Chair of the Undergraduate Committee or drop the Checklist and cards in the Undergraduate Advising Box in the Psychology Department main office, Room 103 Moore Hall (which is open during normal business hours).
