

Draft of PBS Course Offerings 2009-10

Note that sign-up for laboratory (60s) and seminar (80s) courses for 2009-10 will begin May 1, 2009 and will be handled via the PBS web page. Instructions on the sign-up procedures will be posted on <http://www.dartmouth.edu/~psych/undergrad/permission.html> and on PBS blitz bulletins.

Summer Term 2009

- 10. Experimental Design, Methodology, and Data Analysis Procedures. Hull, 10.
- 11. Laboratory in Psychological Science. Bucci, 11.
- 25. Developmental Psychology. Scheiner, 10A.
- 45. Behavioral Neuroscience. Robinson, 9L. (Pending COI Approval)

Fall Term 2009

- 1. Introductory Psychology. Staff, 10.
- 21. Perception. Tse, 11.
- 24. Abnormal Psychology. Funnell, 9L.
- 40. Introduction to Computational Neuroscience. Granger, 2A.
- 50. Issues in Neuroscience: Neurobiology of Learning and Memory. Taube, 10A.
- 51. Issues in Information Processing: History of Psychology. Hughes and Whalen, 2.
- 52. Issues in Learning and Development: Developmental Psychopathology. Scheiner, 9L.
- 53. Issues in Social Psychology: Stereotypes, Prejudice and Discrimination. Norris, 2A.
- 63. Experimental Study of Social Behavior. Norris 11.
- 65. Systems Physiology with Laboratory. Staff, 10. (Pending COI Approval, formerly called Physiology of Behavior with laboratory).
- 80. Face Perception: Cognitive, Neural, Computational, and Social Perspectives. Haxby, 2A.
- 81. The Self. Heatherton, 2A.
- 87. Nature and Nurture. Cramer, 10A.
- 88. Independent Research.
- 89. Honors Research.
- 90. Independent Neuroscience Research.
- 91. Honors Neuroscience Research.

Winter Term 2010

- 1. Introductory Psychology. Staff, 10.
- 6. Introduction to Neuroscience. Bucci, 2.
- 11. Laboratory in Psychological Science. Whalen, 2.
- 23. Social Psychology. Hull, 11.
- 26. Physiological Psychology. Cramer, 12.
- 50.1 Issues in Neuroscience: Exotic Sensory Systems. Hughes, 11.
- 50.2 Issues in Neuroscience: Evolutionary Psychology. Kralik, 10.
- 53. Issues in Social Psychology: Interpersonal Relationships. Heatherton, 2A.
- 60. Principles of Human Brain Mapping with fMRI. Kelley, 2A.
- 64. Sensory Psychology with Laboratory. Tse, 11.
- 81. Perceptual Development. Meng, 2A.
- 83. Non-Verbal Aspects of Social Interaction. Kleck, 10A.
- 84. Psychology and Law, Elliott, 2A.
- 88. Independent Research.
- 89. Honors Research.

- 90. Independent Neuroscience Research.
- 91. Honors Neuroscience Research.

Spring Term 2010

- 1. Introductory Psychology. Staff, 10.
- 10. Experimental Design, Methodology, and Data Analysis Procedures. Pfister, 9L.
- 11. Laboratory in Psychological Science. Meng, 12.
- 21. Perception. Hughes, 11.
- 28. Cognition (cross-listed with COGS 2). Kelley, 2.
- 43. Emotion. Whalen, 10A. (Pending COI approval)
- 46. Cellular and Molecular Neuroscience. Maue, 11.
- 50. Issues in Neuroscience: Sleep and Sleep Disorders. Sateia, 2A.
- 51. Issues in Information Processing: Attention. Shim, 12.
- 53. Issues in Social Psychology: Psychology of Decision Making. Wolford, 10A.
- 65. Systems Neuroscience with Laboratory. Taube, 10. (Pending COI Approval, formerly called Physiology of Behavior with laboratory).
- 83. Attitudes and Persuasion. Norris, 2A.
- 84. Neural Basis of Volition and Mental Causation. Tse, 2A.
- 86. Prefrontal Cortex and Executive Control. Kralik, 10A.
- 88. Independent Research.
- 89. Honors Research.
- 90. Independent Neuroscience Research.
- 91. Honors Neuroscience Research.
