How do I apply a Permission/Override for a student?

**Step 1:** Access BannerStudent then Faculty and Advisor main menu, and click on Permissions/Overrides.

**Step 2:** Select a Term: [Winter Term 2011]

**Step 3:** Search for Student using either ID or name search fields. Click Submit.

**Step 4:** Select and Verify the Student

**Step 5:** Select the type of permission/override

See details on other side for each type

**Step 6:** Select the Course

*Note:* You will see only the courses for which you are responsible. You may also see the letters "ZZ" in the section number of a course – these are for use during the course election process for multiple section and/or limited enrollment courses.
Applying Permission/Override continued

Step 7: Confirm Permission/Override(s)
Click Submit

Step 8: Confirmation of Permission/Override.

To select another student click on the ID Selection link at the bottom of the page.

Course Registration Schedule Summer 2016

Sample Email to Student

After the permission/override has been applied, the student must then register for the course using BannerStudent. An email to the student is automatically sent notifying them of the need to take action to complete the process. If multiple permissions/overrides have been applied to the same student record, all information will be emailed to the student in a single email.

In person: McNutt Hall, Room 105

Types of Permission/Overrides

- **Instructor Permission**: All students must gain prior approval and this override must be applied to register for the class.
- **Enrollment Limit**: The student has been granted permission to register even though the official enrollment limit has been reached.
- **Prerequisite**: If a student has not taken the required prerequisite, this override will allow them to bypass this requirement.

**NOTE**: Biology, Psychology, Sociology, Economics, Chemistry, Engineering Sciences, French and Italian Languages, and Literatures, Philosophy, Studio Art, Public Policy and Math are using Banner Prerequisite checking.
