Sander Duncan '09

Big Brother Big Sister

Sander has been a mentor with Big Brother Big Sister since his sophomore year. He has gone above and beyond the expectations of a mentor and consistently receives rave reviews from both his sibling and the parents of his little sib. This past year, Sander also "adopted" his match's real life little brother, when another match did not work out. His enthusiasm, dedication and strong commitment to the program and to the children he works with is inspiring.
