The Prematriculation Credits and Exemptions portion of the DegreeWorks record appears as the first block of course information on an entering student’s record. It displays all the types of credit on entrance that apply to a student’s record. No prematriculation credit on entrance reduces the credits required for graduation, but may serve as prerequisites for higher-level courses.

Credit on Entrance: The grade of CR indicates that the student may take a higher-level course for which the ECON 001 is a prerequisite. No course credit is granted for a CR.

The student is Exempt from FREN 003, and may take higher-level courses for which FREN 003 is a prerequisite.

Credit on entrance grade code definitions:
- CR: Credit on entrance; carries no course credit, and does not count towards graduation requirements. Serves as a prerequisite for higher-level courses.
- EX: Exemption; carries no course credit, and serves as a prerequisite for higher-level courses.
- PLC: Placement; a grade of PLC indicates that this is the course(s) a department/program suggests a student may take.
- SU: Superseded; indicates a credit/exemption where another test score grants the student more credit on entrance or placement.

Please note: all test scores recorded are processed nightly, so a score received or entered one day will not appear in DegreeWorks until the following day.
