

Limited Application				
Program	Funder	Amount	Description	External Deadline
Advancing Public Scholarship on Religion and Theology	Henry Luce Foundation	\$750,000	For projects that: Cross religious, geographic, and academic boundaries; or Advance scholarship that critically examines received assumptions about religion, secularity, and public culture; or Work inventively at the intersections of theological inquiry and the multidisciplinary study of religion. Funded activities include but are not limited to: Publicly engaged humanities and social science research; Support for the next generation of scholars, teachers, and public intellectuals; Creative uses of digital technologies and new publication platforms; Multi-institutional collaborations of various kinds. Engagement with religious, media, policy, activist and/or art communities is particularly encouraged, and special consideration will be given to proposed projects involving partnerships with non-academic organizations. DARTMOUTH MAY SUBMIT ONE EXTERNAL APPLICATION. INTERNAL APPLICATION REQUIRED. To apply for this opportunity, email the following to limitedfunding@dartmouth.edu: one-page description of your project idea; total amount of your funding request; current CV. Use "Luce — Religion" as the email subject line.	Internal deadline: 08/16/2019 External deadline: 10/15/2019

Cross-cutting/Multi-disciplinary				
Program	Funder	Amount	Description	External Deadline
Luce Indigenous Knowledge Fellowship	Henry Luce Foundation, First Nations Development Institute	\$50,000	For outstanding Native Americans engaged in meaningful work that benefits Indigenous people and communities in either reservation and/or urban settings. To support the work of Native knowledge holders and knowledge makers as they significantly advance their work and spark transformative change in their communities. No design or project necessary. May be used for a wide range of costs, including living expenses, tuition, conference registration, equipment, travel and childcare.	09/13/19

Arts & Humanities				
Program	Funder	Amount	Description	External Deadline
David White House Research Residency for Artists	Corning Museum of Glass	n/a	For artists working in glass who want to utilize the Museum's resources. Not a "making" residency; no provisions will be made for artists to create work at the Museum studio. Residencies will be up to three weeks in length. Artists will be provided with transportation, and room and board. Residents will have access to the Rakow Research Library, the collection of The Corning Museum of Glass, and the Museum's staff experts. The residency manager will facilitate meetings with Museum experts and other resources.	08/31/19
Research Initiative	Conference on College Composition and Communication	\$10,000	For proposals to investigate key challenges faced by literacy, communication, rhetoric and writing instructors and administrators in their classrooms and programs. Proposals should directly address the impact that their research might have on disciplinary and public conversations about these topics. They must also convey results in at least two final products: one that is addressed to a scholarly audience of researchers and teachers in the field and one for a clearly specified audience beyond those in the field.	09/01/19
Emergent Researcher Award	Conference on College Composition and Communication	\$10,000	For projects that can contribute to or affect discussions about literacy and writing instruction in and out of formal education. The initiative also asks recipients to clearly address the impact their research might have on these conversations, conveying the implications of their work in at least two final products: one that is addressed to a scholarly audience of researchers and teachers in the field, and one that is addressed to a specifically identified more public audience.	09/01/19

Abe Fellowship	Social Science Research Council	n/a	Full-time support for 3-12 months over two years, with at least one third of the time in residence abroad in Japan or the United States. For research explicitly focused on policy-relevant and contemporary issues with a comparative or transnational perspective that draw the study of the United States and Japan into wider disciplinary or theoretical debates. Topics in the social sciences and related disciplines relevant to any one or any combination of these themes: 1) Threats to Personal, Societal, and International Security; 2) Growth and Sustainable Development.; 3) Social, Scientific, and Cultural Trends and Transformations; 4) Governance, Empowerment, and Participation.	09/01/19
Fellowships in humanities, social sciences and creative arts	Radcliffe Institute for Advanced Study	\$82,500	Residential fellowship at Harvard. Must have received doctorate (or appropriate terminal degree) in the area of proposed project at least two years prior to fellowship start date. Must have published a monograph or at least two articles in refereed journals or edited collections.	09/12/19
Millard Meiss Publication Fund	College Art Association	n/a	To support book-length scholarly manuscripts in the history of art, visual studies, and related subjects that have been accepted by a publisher on their merits, but cannot be published in the most desirable form without a subsidy	09/15/19
Luce Initiative on Southeast Asia	Henry Luce Foundation	n/a	To strengthen the study of Southeast Asia in American higher education by providing resources for the creation of models, strategies and partnerships that not only bolster existing program structures but also take them in new directions, contributing in the process to both institution and field building.	09/27/19
Grants	Americana Foundation	\$50,000	Areas of interest: agriculture and natural resources (includes sustainability and education); American heritage (includes training/staffing for museum curation/conservation). Preference for Michigan applicants, but a few grants are made across the country	10/10/19

Social Sciences & Business/Entrepreneurship				
Program	Funder	Amount	Description	External Deadline
Zaentz Early Education Innovation Challenge	Harvard University	\$15,000	To support the development of promising new ideas that have the potential to transform early education. Applicants are encouraged to submit ideas and approaches that promote positive outcomes at multiple levels of the early education system, including the home, classroom, program and networks, and/or policy.	08/30/19
Building a CommunityDriven Portrait of a High School Graduate	Barr Foundation	\$250,000	For non-profit organizations to work with New England communities that have at least one high school with a minimum of 100 students and is at least 50 percent high-needs students. Barr Foundation will provide funding and technical assistance to build locally-driven portraits of the high school graduates. A portrait of a graduate articulates the community's collective vision of what all high school students will know and be able to do. In order for all students to reach their potential.	08/30/19
Abe Fellowship	Social Science Research Council	n/a	Full-time support for 3-12 months over two years, with at least one third of the time in residence abroad in Japan or the United States. For research explicitly focused on policy-relevant and contemporary issues with a comparative or transnational perspective that draw the study of the United States and Japan into wider disciplinary or theoretical debates. Topics in the social sciences and related disciplines relevant to any one or any combination of these themes: 1) Threats to Personal, Societal, and International Security; 2) Growth and Sustainable Development.; 3) Social, Scientific, and Cultural Trends and Transformations; 4) Governance, Empowerment, and Participation.	09/01/19
Institutional Challenge	William T. Grant Foundation	\$650,000	To build sustained research-practice partnerships with public agencies or nonprofit organizations in order to reduce inequality in youth outcomes. Areas of interest include education, justice, child welfare, mental health, immigration, and workforce development. Proposals with minority leadership encouraged.	09/06/19

Corporate and Foundation Relations Office
Dartmouth College
New funding opportunities as of 7/26/19

Fellowships in humanities, social sciences and creative arts	Radcliffe Institute for Advanced Study	\$82,500	Residential fellowship at Harvard. Must have received doctorate (or appropriate terminal degree) in the area of proposed project at least two years prior to fellowship start date. Must have published a monograph or at least two articles in refereed journals or edited collections.	09/12/19
Luce Initiative on Southeast Asia	Henry Luce Foundation	na/	To strengthen the study of Southeast Asia in American higher education by providing resources for the creation of models, strategies and partnerships that not only bolster existing program structures but also take them in new directions, contributing in the process to both institution and field building.	09/27/19
International Affairs Fellowship	Council on Foreign Relations	\$100,000	For mid-career faculty to work for one year in public-service and policy-oriented settings. Candidates must have a firm grounding in foreign policy. Proposals must focus on solutions to identified problems in U.S. foreign policy.	10/31/19
Nuclear Challenges Grant	John D. and Catherine T. MacArthur Foundation	\$500,000	For proposals to reduce the nuclear threat, particularly by decreasing the availability of and reliance on weapons-useable nuclear material and by protecting and strengthening the overarching nuclear regime. Particular interest in these areas: 1) a new nuclear policy vision; 2) the state of U.S. alliance relationships and implications for proliferation; and 3) the impasse between countries that possess nuclear weapons and those that do not.	rolling
Governance, norms and values - research on the future Internet	Knight Foundation	n/a	For research – both theoretical and empirical – on topics related to governance and the rights and responsibilities of individuals, commercial interests, non-governmental organizations and government in the digital era. Topics of interest include, but are not limited to: Content; Market; and Regulation. Will consider proposals to support research and pedagogy, faculty and fellowships.	rolling

Physical Sciences, Mathematics & Engineering				
Program	Funder	Amount	Description	External Deadline
Sloan Research Fellowships	Alfred P. Sloan Foundation	\$75,000	For early-career scientists and scholars in these or related fields: chemistry, computer science, economics, mathematics, molecular biology, neuroscience, ocean sciences, physics. Tenure-track but untenured as of 9/16/19. Faculty position must carry a regular teaching obligation. Each department may nominate up to three candidates.	09/16/19
Targeted Grants to Institutes	Simons Foundation	\$1,000,000	To support established institutes or centers in the mathematics and physical sciences through funding to help strengthen contacts within the international scientific community. To enable institutes to extend and enhance their missions; this program will not provide primary support for operating or establishing an institute.	09/25/19
Simons Fellows in Theoretical Physics	Simons Foundation	\$110,000	To make sabbatical research leaves more productive by extending them to a full academic year. Must have a teaching or administrative tenured position within the physics or related department at the time of application, throughout the course of the sabbatical research leave and in the term following the leave.	09/26/19
Simons Fellows in Mathematics copy	Simons Foundation	\$120,000	To make sabbatical leaves more productive by extending them to a full academic year. Must have a teaching or administrative tenured position within the mathematics department at the time of application, throughout the course of the sabbatical research leave and in the term following the leave.	09/26/19
Arts grants	GKV Foundation	\$50,000	To support individual development and related community impact through the use of a range of artistic media such as the visual arts, music, and dance. The targeted programs will be on the wish lists of established not-for-profits; big ideas with great potential but as of yet, unfunded and, by consequence, untested. The goal is that with GKV first-year funding enough measurable results will be achieved to attract sustaining funding from other sources.	10/01/19

Corporate and Foundation Relations Office
Dartmouth College
New funding opportunities as of 7/26/19

Simons Collaborations in Mathematics and the Physical Sciences	Simons Foundation	\$14,000,000	To stimulate progress on fundamental scientific questions of major importance in mathematics, theoretical physics and theoretical computer science. Collaborations should address a mathematical or theoretical topic of fundamental scientific importance, where a significant, new development creates a novel area for exploration or provides a new direction for progress in an established field. The questions addressed by the collaboration may be concrete or conceptual, but there should be little doubt that answering them would constitute a major scientific milestone. New applicants and their development staff are strongly encouraged to start the online registration process by at least September 5.	10/03/19
Fellowships in science, engineering and mathematics	Radcliffe Institute for Advanced Study	\$82,500	Residential fellowship at Harvard. Not intended as a postdoctoral fellowship. For people with a strong body of independent research and writing. Must have received doctorate at least two years prior to fellowship start date. Must have published at least five articles in refereed journals.	10/03/19
Amazon Research Awards	Amazon	\$80,000	Details will be posted online July 15.	10/04/19
Petroleum Research Fund -- New Directions Grants	American Chemical Society	\$110,000	To stimulate a new direction in fundamental research in the petroleum field for established faculty, and to support the careers of their student scientists and engineers. Eligible fields of inquiry: 1) Synthetic Organic Chemistry; 2) Geochemistry; 3) Inorganic Chemistry; 4) Physical Organic Chemistry; 5) Surface Science; 6) Chemical Physics/Physical Chemistry; 7) Polymer Science; 8) Geology and Geophysics; 9) Chemical and Petroleum Engineering; 10) Materials Science. Topics currently excluded: Alternative Energy, Biosystems and Biochemistry, Environmental Remediation or Pollution, Non-Petroleum Topics, and Applied Research Topics.	10/18/19
Petroleum Research Fund -- Doctoral New Investigator	American Chemical Society	\$110,000	To support young faculty working in the petroleum field, and to enhance the career opportunities of their undergraduate/ graduate students, and postdoctoral associates through the research experience. Must be within the first three years of first academic appointment at the level of Assistant Professor or the equivalent.	10/18/19

Faculty Fellowship	Microsoft	\$200,000	See "Research areas" tab on web site. Must have received terminal degree in August 2014 or later. Must be nominated by either the department chair or a Microsoft researcher. A maximum of two nominations per university will be accepted; if more than one is nominated, then at least one nominee should be a woman, African American, Black, Hispanic, Latinx, American Indian, Alaska Native, Native Hawaiian, Pacific Islander, and/or person with a disability.	11/01/19
Targeted Grants in Mathematical and Physical Sciences	Simons Foundation	n/a	For high-risk theoretical mathematics, physics and computer science projects of exceptional promise and scientific importance on a case-by-case basis. Up to five years of funding. The funding level and duration is flexible and should be appropriate based on the type of support requested in the proposal. There is no recommended or assumed funding level for this program. Must be tenure-track or tenured.	rolling
Governance, norms and values - research on the future Internet	Knight Foundation	n/a	For research – both theoretical and empirical – on topics related to governance and the rights and responsibilities of individuals, commercial interests, non-governmental organizations and government in the digital era. Topics of interest include, but are not limited to: Content; Market; and Regulation. Will consider proposals to support research and pedagogy, faculty and fellowships.	rolling

Biological Sciences, Medicine & Engineering				
Program	Funder	Amount	Description	External Deadline
Natural Climate Solutions Accelerator Grant	Nature Conservancy	\$250,000	For innovative and scalable approaches to capturing greenhouse gas emissions by using natural and working lands in the United States	08/16/19
Building Capacity to Reduce Tobacco Inequities in the South and Midwest	Robert Wood Johnson Foundation	\$1,500,000	To support and engage black community members, persons of lower socioeconomic status, and rural residents in the South and Midwest in order to increase their ability to advocate for stronger, locally or regionally driven tobacco-control and prevention policies and practices.	08/29/19
Farmers Advocating For Organic	Organic Valley	\$50,000	For research, education and advocacy projects that advance FAFO's mission: to protect and promote the organic industry and the livelihood of organic farmers. Currently prioritizing projects that focus on: 1) Projects that result in broader consumer and public understanding of the benefits of organic food and farming; and 2) Projects that strengthen the CROPP Cooperative by building community amongst and between farmers and employees.	09/01/19
Blood Cancer Discoveries	Leukemia & Lymphoma Society, Paul G. Allen Frontiers Group, Mark Foundation for Cancer Research	\$750,000	For research that is discovery oriented and concerned with understanding blood cancer properties and vulnerabilities and aimed toward advancing treatments for blood cancers.	09/03/19
Research Grants	Amyloidosis Foundation	\$50,000	For junior research scientists whose research targets the challenges in the field of amyloidosis. Must be within 10 years of completion of post-doctoral studies or clinical fellowship.	09/13/19

Corporate and Foundation Relations Office
Dartmouth College
New funding opportunities as of 7/26/19

Winter 2020 Pilot Award copy	Simons Foundation Autism Research Initiative (SFARI)	\$300,000	For exploratory ideas to improve the understanding, diagnosis and treatment of autism spectrum disorders (ASD), particularly those with novel hypotheses. Appropriate projects for this mechanism include those considered higher risk but with the potential for transformative results. Research to link genetic or other ASD risk factors to molecular, cellular, circuit or behavioral mechanisms of ASD particularly encouraged.	09/13/19
Synergy Award	Kenneth Rainin Foundation	\$300,000	For collaborations in the field of Inflammatory Bowel Disease	09/16/19
Bats for the Future Fund	National Fish and Wildlife Foundation	\$250,000	For proposals to slow or halt the spread of white-nose syndrome disease (WNS) in North America and promote the survival and recovery of WNS-affected bat populations and species. Grants will be awarded preferentially for projects that focus on development and deployment of field treatments, management tools and conservation strategies within the WNS established area (the northeastern U.S.) and on the leading edge of its spread .	09/19/19
Research Grants	Whitehall Foundation	\$225,000	For basic research in neurobiology, defined as follows: Invertebrate and vertebrate (excluding clinical) neurobiology, specifically investigations of neural mechanisms involved in sensory, motor, and other complex functions of the whole organism as these relate to behavior. The overall goal should be to better understand behavioral output or brain mechanisms of behavior. Assistant professor or higher. Need not be tenure-track but must be an independent researcher. Not for investigators who have substantial existing or potential support.	10/01/19
Grants-in-Aid	Whitehall Foundation	\$30,000	For basic research in neurobiology, defined as follows: Invertebrate and vertebrate (excluding clinical) neurobiology, specifically investigations of neural mechanisms involved in sensory, motor, and other complex functions of the whole organism as these relate to behavior. The overall goal should be to better understand behavioral output or brain mechanisms of behavior. Grants-in-Aid are for assistant professors who experience difficulty in competing for research funds because they have not yet become firmly established. Grants-in-Aid can also be made to senior scientists.	10/01/19

Crazy 8 Initiative Award Program	Alex's Lemonade Stand Foundation	\$5,000,000	For research into innovative and rigorous approaches that directly address the most intractable issues in pediatric cancer research today. Designed to coalesce cross-disciplinary cores of scientists working collaboratively in order to accelerate the pace of new cure discovery. The proposal should address a topic that is responsive to at least one of these four pediatric cancer research themes: 1. Developmental Origins of Pediatric Cancers; 2. Drugging Currently Undruggable Pediatric Cancer Drivers; 3. Developing Novel Immunotherapies; 4. Discovery and Development of Novel Pediatric Cancer Drug Targets.	10/01/19
Fellowships in science, engineering and mathematics	Radcliffe Institute for Advanced Study	\$82,500	Residential fellowship at Harvard. Not intended as a postdoctoral fellowship. For people with a strong body of independent research and writing. Must have received doctorate at least two years prior to fellowship start date. Must have published at least five articles in refereed journals.	10/03/19
Gund-Harrington Scholar Program	Harrington Discovery Institute, Foundation Fighting Blindness	\$900,000	For accelerating the translation of research findings in retinal degenerative diseases with the ultimate goal of developing new therapies to improve and/or restore vision.	10/03/19
Grants	Americana Foundation	\$50,000	Areas of interest: agriculture and natural resources (includes sustainability and education); American heritage (includes training/staffing for museum curation/conservation). Preference for Michigan applicants, but a few grants are made across the country	10/10/19
Program to Accelerate Clinical Trials	Alzheimer's Drug Discovery Foundation	\$5,000,000	For innovative pharmacologic interventions tested in clinical studies for Alzheimer's disease and related dementias. Clinical trials, experimental medicine, and regulatory studies for novel drugs (small molecules and biologics including antibodies, peptides, gene therapies), repurposed drugs (existing drugs that are approved for other diseases and conditions), repositioned drugs (existing drugs that have entered clinical trials for other indications and have not yet been approved), and natural products. Current target areas of interest include, but are not limited to: Neuroprotection; Inflammation; Vascular function; Mitochondria & metabolic function; Proteostasis; ApoE; Epigenetics; Synaptic activity and neurotransmitters; Other aging targets (e.g. senescent cells).	10/11/19

Neuroimaging and CSF Biomarker Development copy	Alzheimer's Drug Discovery Foundation	\$600,000	For the development of cerebrospinal fluid and neuroimaging biomarkers for Alzheimer's disease and related dementias, for multiple contexts of use including but not limited to: Clearly demonstrating target engagement for novel therapeutics; Detecting signs of disease earlier and monitoring progression; More accurately diagnosing and distinguishing between dementia subtypes.	10/11/19
Prevention Beyond the Pipeline - clinical trials	Alzheimer's Drug Discovery Foundation	\$3,000,000	For comparative effectiveness research, prevention clinical trials, and epidemiological studies that probe whether the use or choice of drugs alters the risk for dementia or cognitive decline.	10/11/19
Prevention Beyond the Pipeline - epidemiological analyses	Alzheimer's Drug Discovery Foundation	\$100,000	For comparative effectiveness research, prevention clinical trials, and epidemiological studies that probe whether the use or choice of drugs alters the risk for dementia or cognitive decline.	10/11/19
Drug Discovery Program	Alzheimer's Drug Discovery Foundation	\$600,000	For bridging the translational funding gap between early-stage drug discovery and clinical development for Alzheimer's disease, related dementias, and cognitive aging by supporting promising therapeutic approaches.	10/11/19
Alzheimer's Research Grant	IDS Foundation (Infectious Diseases Society of America)	\$100,000	For research narrowly focused on identifying the possible role of an infectious agent or agents in causing Alzheimer's disease. Awards will support innovative research, including basic, clinical and/or non-traditional approaches.	11/30/19
Epidemiology Grants	Alex's Lemonade Stand Foundation	\$200,000	For research on the epidemiology of childhood cancer, early detection of childhood cancer, or the prevention of childhood cancer.	12/16/19
Young Investigator	Alex's Lemonade Stand Foundation	\$150,000	To support scientists during their fellowship training or early in their research careers. Commitment to pediatric cancer investigation required.	12/16/19

Graduate/Postdoctoral				
Program	Funder	Amount	Description	External Deadline
Arnold O. Beckman Postdoctoral Fellowship	Arnold and Mabel Beckman Foundation	\$180,000	For advanced research by postdoctoral scholars within the core areas of fundamental chemistry or the development and build of chemical instrumentation; research must be innovative in method, speed or process, or represent new instrument technology. PhD in the chemical sciences to be conferred by May 1, 2020; or current PhD with no more than 12 months cumulative postdoctoral research experience. Two tracks;; 1) Chemical Sciences: chemical physics, chemical engineering, and chemistry of materials research; 2) Chemical Instrumentation: to conceptualize, develop and build instrumentation suitable to advanced research in chemistry, chemical physics, chemical engineering, and chemistry of materials science.	09/06/19
Nedra Gillette Endowed Research Fellowship	American Occupational Therapy Foundation	\$5,000	For a postdoctoral researcher's foundational occupational therapy study into the human condition.	10/01/19
Postdoctoral Fellowship	Cancer Research Institute	\$172,500	Must be working in areas directly related to immunology or cancer immunology. An eligible project must fall into the broad field of immunology with relevance to solving the cancer problem. Applicants must have a doctoral degree by the date of award activation. Must have less than five years of relevant postdoctoral experience except for M.D.s, who should not include years of residency.	10/01/19

Fellowship Program	Facebook	\$147,000	For minority doctoral students in areas related to computer science and engineering. Topics: Applied Statistics; AR/VR Photonics and Optics; AR/VR Privacy and Ethics; Computational Social Science; Computer Graphics; Computer Vision; Compute Storage and Efficiency; Distributed Systems; Economics and Computation; Instagram/Facebook App Well-being and Safety; Machine Learning; Natural Language Processing; Networking and Connectivity; Privacy and Data Use; Programming Languages; Security/Privacy; Social and Economic Policy; Spoken Language Processing and Audio Classification; Structured Data Stores; Systems for Machine Learning. Eligibility: Black or African American; Hispanic or Latino; Native American or Alaskan Native; Native Hawaiian or Pacific Islander. Tuition plus \$37,000 stipend for two years; \$5,000 in travel funds.	10/04/19
------------------------------------	----------	-----------	--	----------
