Cross-cutting/Multi-disciplinary				
Program	Funder	Amount	Description	Deadline
Grawemeyer Award for Ideas Improving World Order	University of Louisville	\$100,000	For views published in 2019 on issues of world importance that could lead to a more just and peaceful world. Submissions will be judged according to originality, feasibility and potential impact, not by the cumulative record of the nominee. For a wide range of global concerns, including: foreign policy and its formation; the conduct of international relations or world politics; global economic issues, such as world trade and investment; resolution of regional, ethnic or racial conflicts; the proliferation of destructive technologies; global cooperation on environmental protection or other important issues; international law and organization; any combination or particular aspects of these, or any other suitable idea which could at least incrementally lead to a more just and peaceful world order.	31-Jan-20
Project Support	Fritz Thyssen Foundation	not available	For projects in the humanities, social science and biomedicine. Areas of interest: 1) History, Language & Culture; 2) the interdisciplinary field "Image and Imagery"; 3) State, Economy and Society; 4) Medicine and the Natural Sciences. Non-Germans may apply as long as planned projects have a clear connection to the German research system—either on a personal level through German scientists working on the project; on an institutional level through non-German scientists being affiliated to German research institutes; or on a substantial level through studies on topics related thematically to German research interests. Conferences and projects may take place outside of Germany.	15-Feb-20

Cross-cutting/Multi-disciplinary				
Program	Funder	Amount	Description	Deadline
Healthy Longevity Global Competition	National Academy of Medicine	\$50,000	<p>For potentially transformative ideas to improve the physical, mental, or social well-being of people as they age, in a measurable and equitable way. In particular, we seek ideas that aim to extend the human healthspan through innovative approaches. Applications may originate from any field or combination of fields (e.g., biology, chemistry, medicine, engineering, infrastructure, behavioral and social sciences, technology, and policy). Ideas may focus on any stage of life, as long as they ultimately promote health as people age.</p> <p>Areas of interest include:</p> <ul style="list-style-type: none"> - Biology of aging and molecular pathways - Physical health (e.g., mobility and functionality) - Built environment and urban planning - Disease prevention, including biomarkers and indicators of disease - Health care delivery - Housing (e.g., smart-enabled homes, intergenerational housing models) - Policy (e.g., economic, health, and science policy) - Behavioral health (e.g., social connectedness, engagement, and well-being) - Technology (e.g., artificial intelligence; robotics; medical, assistive, and information-technology) 	24-Feb-20
Conference Grants	Fritz Thyssen Foundation	not available	<p>For scholarly events, in particular national and international conferences. Areas of interest: History, Language & Culture; the interdisciplinary field “Image-Sound-Language”; State, Economy and Society; Medicine and the Natural Sciences. Non-Germans may apply if projects have a clear connection to the German research system—either through German scientists working on the project; through non-German scientists being affiliated to German research institutes; or through studies on topics related thematically to German research interests. Conferences and projects may take place outside of Germany.</p>	28-Feb-20

Arts & Humanities				
Program	Funder	Amount	Description	Deadline
Publication Subsidies	Chiang Ching-kuo Foundation for International Scholarly Exchange	\$10,000	For the publication of scholarly works on Chinese culture and studies. The publication may be in the form of a book or a monograph. Applications will be accepted for completed book manuscripts, but not for books in a series. Priority will be given to first book projects by junior scholars.	15-Jan-20
Conference/Seminar/Workshop Grants	Chiang Ching-kuo Foundation for International Scholarly Exchange	\$25,000	For research on Chinese Studies in the humanities and social sciences.	15-Jan-20
Gratitude to God	John Templeton Foundation	\$250,000	For empirical and non-empirical projects that address the nature of gratitude to God. There will be 4 separate award competitions: 1) Empirical large grants (up to \$250,000); 2) Empirical early-career grants (up to \$25,000); 3) Non-empirical large grants (up to \$100,000); 4) Non-empirical early career grants (up to \$15,000). Early-career applicants must be either advanced to candidacy for the Ph.D. degree (or appropriate terminal degree) and working on their dissertation, or be no more than five years past terminal degree.	15-Jan-20
Convening Grants for Internationally Collaborative Exhibitions	Terra Foundation for American Art	\$25,000	For pre-exhibition museum convenings. Topic may be any aspect of historical American art except architecture, conservation or film.	17-Jan-20
Curatorial Travel Grants	Terra Foundation for American Art	\$7,000	For international curators to travel to the United States to research and develop specific exhibition ideas about any aspect of historical American art (except architecture, conservation, or film) by visiting public and private art collections, archives and libraries.	17-Jan-20

Arts & Humanities				
Program	Funder	Amount	Description	Deadline
Fellowships and Grants for Individuals	Paul Mellon Centre for Studies in British Art	\$52,000	For scholars, curators, and other art professionals working in the field of British art and architectural history from the medieval period to the present. Grant programs include: Senior Fellowship Grants; Mid-Career Fellowships; Junior Fellowships; Postdoctoral Fellowships; Research Support Grants; Educational Programme Grants; Rome Fellowship; Terra-PMC Fellowship; Collaborative Project Grant; Research Collections Fellowship.	31-Jan-20
Event Support Grants	Paul Mellon Centre for Studies in British Art	\$4,000	For hosting lectures, conferences, workshops, symposia and seminars for scholars (or provided at a scholarly level for the general public) in the field of British art or architectural history.	31-Jan-20
Japanese studies grants	Association for Asian Studies Northeast Asia Council	\$5,000	For Japanese studies scholars to: - travel for research within the U.S.A. - make short-term research trips to Japan - sponsor seminars on teaching about Japan - sponsor small scholarly conferences on Japanese studies Must be a member of Association of Asian Studies and either American citizen or permanent US resident.	1-Feb-20
Korean studies grants	Association for Asian Studies Northeast Asia Council	\$5,000	For Korean studies scholars (including graduate students) to: - travel for research within the U.S.A. - make short-term research trips outside the U.S.A. - sponsor seminars on teaching about Japan - organize North American conferences on Korea Must be a member of Association of Asian Studies.	1-Feb-20
Raiziss/de Palchi Translation Awards	Academy of American Poets	\$10,000	For the translation into English of a significant work of modern Italian poetry.	15-Feb-20
Fellowships	Jacob Rader Marcus Center	not available	For one-month research and writing residency at the Jacob Rader Marcus Center of the American Jewish Archives, located on the Cincinnati campus of the Hebrew Union College-Jewish Institute of Religion. Research must be in some area relating to the history of North American Jewry.	19-Feb-20

Arts & Humanities

Program	Funder	Amount	Description	Deadline
Grants to organizations	Graham Foundation for Advanced Studies in the Fine Arts	\$30,000	To assist organizations with the production and presentation of significant programs about architecture and the designed environment. These projects include, but are not limited to, publications, exhibitions, installations, films, new media projects, conferences/lectures, and other public programs.	25-Feb-20
Materials-Based Research Grant	Center for Craft	\$15,000	For interdisciplinary teams: collaborations between craft and the fields of science, technology, engineering, and mathematics. Intention is to help contemporary craftspeople explore how their material-specific knowledge, skill, and creativity can apply outside the field of fine art.	1-Mar-20
New England States Touring Grant	New England Foundation for the Arts	\$5,000	NEST (New England States Touring) funds New England-based presenters to bring in performing artists from other New England states. Covers half of the artist's fees, up to \$4,000.	2-Mar-20
Distinguished Speakers Bureau Awards	Association for Asian Studies Northeast Asia Council	not available	For Japanese studies presentations by members of the NEAC Speakers Bureau at institutions with small East Asian studies programs	rolling

Social Sciences & Business/Entrepreneurship				
Program	Funder	Amount	Description	Deadline
Publication Subsidies	Chiang Ching-kuo Foundation for International Scholarly Exchange	\$10,000	For the publication of scholarly works on Chinese culture and studies. The publication may be in the form of a book or a monograph. Applications will be accepted for completed book manuscripts, but not for books in a series. Priority will be given to first book projects by junior scholars.	15-Jan-20
Conference/Seminar/Workshop Grants	Chiang Ching-kuo Foundation for International Scholarly Exchange	\$25,000	For research on Chinese Studies in the humanities and social sciences.	15-Jan-20
Gratitude to God	John Templeton Foundation	\$250,000	For empirical and non-empirical projects that address the nature of gratitude to God. There will be 4 separate award competitions: 1) Empirical large grants (up to \$250,000); 2) Empirical early-career grants (up to \$25,000); 3) Non-empirical large grants (up to \$100,000); 4) Non-empirical early career grants (up to \$15,000). Early-career applicants must be either advanced to candidacy for the Ph.D. degree (or appropriate terminal degree) and working on their dissertation, or be no more than five years past terminal degree.	15-Jan-20
Food System Vision Prize	Rockefeller Foundation	\$200,000	For organizations to develop a vision of the regenerative and nourishing food system that they aspire to create by the year 2050.	31-Jan-20

Social Sciences & Business/Entrepreneurship				
Program	Funder	Amount	Description	Deadline
Korean studies grants	Association for Asian Studies Northeast Asia Council	\$5,000	For Korean studies scholars (including graduate students) to: - travel for research within the U.S.A. - make short-term research trips outside the U.S.A. - sponsor seminars on teaching about Japan - organize North American conferences on Korea Must be a member of Association of Asian Studies.	1-Feb-20
Azrieli Global Scholars	Canadian Institute for Advanced Research	\$75,000	Unrestricted research support for researchers within five years of their first academic appointment. Must have an independent research program and be supervising/teaching graduate or postdoctoral trainees. Research must be aligned with a CIFAR research program: 1) Child & Brain Development 2) Learning in Machines & Brains 3) Quantum Information Science 4) Quantum Materials	5-Feb-20
Summer Institutes	Russell Sage Foundation	not available	Intensive, one-to-two-week summer institutes for doctoral students and early-career scholars. February 10 deadline: Migration Research Methods. February 25 deadline: Behavioral Economics, Computational Social Science, Proposal Development.	10-Feb-20
Klingenstein-Simons Fellowship in Neuroscience	Esther A. & Joseph Klingenstein Fund	\$225,000	For young investigators engaged in basic or clinical research that may lead to a better understanding of neurological and psychiatric disorders. Areas of interest: cellular and molecular neuroscience; neural systems; clinical research. Tenure-track Ph.D. and/or M.D.; within four years of completing postdoctoral training and the start of appointment (between July 1, 2016 and July 1, 2020).	15-Feb-20

Social Sciences & Business/Entrepreneurship				
Program	Funder	Amount	Description	Deadline
Fellowships	Jacob Rader Marcus Center	not available	For one-month research and writing residency at the Jacob Rader Marcus Center of the American Jewish Archives, located on the Cincinnati campus of the Hebrew Union College-Jewish Institute of Religion. Research must be in some area relating to the history of North American Jewry.	19-Feb-20
Concept Grants	SAGE Ocean	\$20,000	For innovative software ideas that support social-science researchers to work with big data and new technologies. Areas of interest: Support social scientists to develop new computational skills - Enable social scientists who do not have programming skills to analyze data at scale; - Enable interdisciplinary research collaborations; - Help researchers to get credit for software development; - Open up access to vast data sets.	23-Feb-20
Information Controls Fellowship	Open Technology Fund	\$55,400	Supports examination into how governments in countries, regions, or areas of OTF's core focus are restricting the free flow of information, cutting access to the open internet, and implementing censorship mechanisms, thereby threatening the ability of global citizens to exercise basic human rights and democracy; work focused on mitigation of such threats is also supported. Eligibility: postdocs, doctoral students, and experienced researchers. Typical fields of grantees: computer science, engineering, information security research, software development, social sciences, law, and data visualization.	24-Feb-20

Social Sciences & Business/Entrepreneurship				
Program	Funder	Amount	Description	Deadline
Grawemeyer Award in Psychology	University of Louisville	\$100,000	For original and creative ideas that substantially impact the field of psychology. The award is designed to recognize a specific idea, rather than a lifetime of accomplishment.	28-Feb-20
Domestic Public Policy	Smith Richardson Foundation	not available	<p>For projects that will help the public and policy makers understand and address critical challenges facing the United States. To that end, the Foundation supports research on and evaluation of existing public policies and programs, as well as projects that inject new ideas into public debates. Areas of interest:</p> <ol style="list-style-type: none"> 1) The challenges of identifying mechanisms that can inform thinking on fiscal practices at the national, state, and municipal levels. 2) Work to identify how schools can become more productive by, for example, increasing the quality of the teacher workforce or adopting more effective curricula. 3) Education and training beyond high school. 4) Examining whether costs of the criminal justice system can be lowered while still protecting public safety. 	rolling

Physical Sciences, Mathematics & Engineering				
Program	Funder	Amount	Description	Deadline
Internet Freedom Fund	Open Technology Fund	\$900,000	For open and accessible technology-centric projects that promote human rights, internet freedom, open societies, and help advance inclusive and safe access to global communications networks for at-risk users including journalists, human rights defenders, civil society activists, and every-day people living within repressive environments who wish to speak freely online. Submissions are accepted on a rolling basis and reviewed every two months.	1-Mar-20
Empower Feature Phone Users with Digital Payment Solutions	Bill & Melinda Gates Foundation	\$50,000	For new digital payment solutions that make transactions easy and secure for feature phone users in India.	12-Jan-20
Identify Wildlife on the Serengeti	Microsoft	\$20,000	For data scientists, researchers, and developers to build the best algorithms for wildlife detection. Competition to predict the presence and species of wildlife in new camera trap data from the Snapshot Serengeti project, with over 3 million images.	22-Jan-20
Grants	Motorola Solutions Foundation	\$50,000	Areas of interest: 1) STEM education, specifically focused on technology and engineering; 2) Public safety education; 3) Blended public safety and technology, and engineering education programs. Deadline for letter of inquiry is Feb. 3, 2020.	3-Feb-20

Physical Sciences, Mathematics & Engineering				
Program	Funder	Amount	Description	Deadline
Azrieli Global Scholars	Canadian Institute for Advanced Research	\$75,000	Unrestricted research support for researchers within five years of their first academic appointment. Must have an independent research program and be supervising/teaching graduate or postdoctoral trainees. Research must be aligned with a CIFAR research program: 1) Child & Brain Development 2) Learning in Machines & Brains 3) Quantum Information Science 4) Quantum Materials	5-Feb-20
Collaborative Research Travel Grants	Burroughs Wellcome Fund	\$15,000	For faculty scientists and postdocs to travel to another lab to learn new research techniques, or begin or continue a collaboration to address biomedical questions. For cross-disciplinary collaboration between biology on one hand, and mathematics, physics, chemistry, computer science, statistics, or engineering on the other.	20-Feb-20
Concept Grants	SAGE Ocean	\$20,000	For innovative software ideas that support social-science researchers to work with big data and new technologies. Areas of interest: Support social scientists to develop new computational skills - Enable social scientists who do not have programming skills to analyze data at scale; - Enable interdisciplinary research collaborations; - Help researchers to get credit for software development; - Open up access to vast data sets.	23-Feb-20

Physical Sciences, Mathematics & Engineering				
Program	Funder	Amount	Description	Deadline
Information Controls Fellowship	Open Technology Fund	\$55,400	Supports examination into how governments in countries, regions, or areas of OTF's core focus are restricting the free flow of information, cutting access to the open internet, and implementing censorship mechanisms, thereby threatening the ability of global citizens to exercise basic human rights and democracy; work focused on mitigation of such threats is also supported. Eligibility: postdocs, doctoral students, and experienced researchers. Typical fields of grantees: computer science, engineering, information security research, software development, social sciences, law, and data visualization.	24-Feb-20
Materials-Based Research Grant	Center for Craft	\$15,000	For interdisciplinary teams: collaborations between craft and the fields of science, technology, engineering, and mathematics. Intention is to help contemporary craftspeople explore how their material-specific knowledge, skill, and creativity can apply outside the field of fine art.	1-Mar-20

Biological Sciences, Medicine & Engineering				
Program	Funder	Amount	Description	Deadline
Female Reproductive Longevity	Buck Institute	\$800,000	For two-year projects focused broadly on understanding female reproductive aging. Applicants are encouraged in the basic biological sciences relevant to understanding mechanisms of female reproductive aging from development through menopause. Funding mechanisms include Senior Faculty Awards (\$400,000/yr.); Junior Faculty Awards (\$250,000/yr.); Pilot Awards (\$100,000/yr.); Postdoctoral Fellowships (\$100,000/yr.). Deadline has only been advertised as "January 2020." Contact Buck Institute for a specific deadline.	1-Jan-20
Prevention Beyond the Pipeline - clinical trials	Alzheimer's Drug Discovery Foundation	\$3,000,000	For comparative effectiveness research, prevention clinical trials, and epidemiological studies that probe whether the use or choice of drugs alters the risk for dementia or cognitive decline. Up to \$100,000 for epidemiological analyses and \$3 million for clinical trials.	17-Jan-20

Biological Sciences, Medicine & Engineering				
Program	Funder	Amount	Description	Deadline
Core RFPs	Alzheimer's Drug Discovery Foundation	\$5,000,000	For Alzheimer's drug discovery and preclinical development, clinical trials, and biomarker development research. Core programs: 1) Program to Accelerate Clinical Trials (\$5,000,000); 2) Neuroimaging and CSF Biomarker Development (\$600,000; more for PET ligand development for regulatory or clinical work); 3) Prevention Beyond the Pipeline (\$100,000 for epidemiological analyses; \$3,000,000 for clinical trials); 4) Drug Discovery (\$600,000)	17-Jan-20
Identify Wildlife on the Serengeti	Microsoft	\$20,000	For data scientists, researchers, and developers to build the best algorithms for wildlife detection. Competition to predict the presence and species of wildlife in new camera trap data from the Snapshot Serengeti project, with over 3 million images.	22-Jan-20
Food System Vision Prize	Rockefeller Foundation	\$200,000	For organizations to develop a vision of the regenerative and nourishing food system that they aspire to create by the year 2050.	31-Jan-20
Community Grants	Parkinson's Foundation	\$25,000	For health care facilities to carry out community-based education and outreach programs that address unmet needs in the Parkinson's community.	31-Jan-20
Research Professor Award	American Cancer Society	\$400,000	For investigators who have had the rank of full professor for 15 years or less and made seminal contributions that have changed the direction of basic cancer research.	1-Feb-20
Grants	Motorola Solutions Foundation	\$50,000	Areas of interest: 1) STEM education, specifically focused on technology and engineering; 2) Public safety education; 3) Blended public safety and technology, and engineering education programs. Deadline for letter of inquiry is Feb. 3, 2020.	3-Feb-20

Biological Sciences, Medicine & Engineering				
Program	Funder	Amount	Description	Deadline
Research Grants	National Multiple Sclerosis Society	\$1,000,000	For studies with high relevance to multiple sclerosis and the Society's research priorities. Fundamental as well as applied studies, nonclinical or clinical in nature, including projects in patient management, care and rehabilitation.	5-Feb-20
ACS/SVS Foundation/NIH Research Career Development Award	American College of Surgeons	not available	Supplemental funding for surgeon-scientists who receive a National Institutes of Health (NIH) Mentored Clinical Scientist Research Career Development Award (K08) or a Mentored Patient-Oriented Research Career Development Award (K23). Must be tenure-track assistant professor or higher by award activation.	12-Feb-20
Klingenstein-Simons Fellowship in Neuroscience	Esther A. & Joseph Klingenstein Fund	\$225,000	For young investigators engaged in basic or clinical research that may lead to a better understanding of neurological and psychiatric disorders. Areas of interest: cellular and molecular neuroscience; neural systems; clinical research. Tenure-track Ph.D. and/or M.D.; within four years of completing postdoctoral training and the start of appointment (between July 1, 2016 and July 1, 2020).	15-Feb-20
Patient Education	BioGen	not available	Funding to an eligible institution or organization to support independent educational activities for patients or caregivers across a variety of disease areas, including: Amyotrophic Lateral Sclerosis, Multiple Sclerosis, Ophthalmology, Parkinson's Disease, Progressive Supranuclear Palsy and Spinal Muscular Atrophy.	15-Feb-20
Medical Education	BioGen	not available	For institutions to support independent medical educational activities for healthcare professionals and researchers. Disease and focus areas include, but are not limited to: Amyotrophic Lateral Sclerosis, Multiple Sclerosis, Ophthalmology, Parkinson's Disease, Progressive Supranuclear Palsy, Spinal Muscular Atrophy and Stroke.	15-Feb-20

Biological Sciences, Medicine & Engineering				
Program	Funder	Amount	Description	Deadline
Scientific Product Grant	Wildlife Acoustics	\$5,000	For research in animal biology and conservation	15-Feb-20
Small Research Grant Program for the Next Generation of Researchers in Alzheimer's Disease	American Federation for Aging Research	\$200,000	For investigation to improve the prevention, diagnosis, treatment and care for Alzheimer's disease and related dementias.	16-Feb-20
Emerging Leader Award	Bay Area Lyme Foundation	\$100,000	For new approaches and creative thinking to the field of Lyme disease. Applications must include a viable proposal for a proof-of-concept.	17-Feb-20
Innovator Awards	Kenneth Rainin Foundation	\$200,000	For research that is potentially transformative to diagnosing, treating and curing inflammatory bowel disease.	18-Feb-20
Rita Allen Foundation Award in Pain	American Pain Society	\$150,000	For research on the molecular biology of pain and/or basic science topics related to the development of new analgesics for the management of pain due to terminal illness. Should be in the first three years of their appointment to a tenure track or equivalent position, but not have received tenure at the time of application. Senior postdocs and Associate Professors not eligible.	19-Feb-20
Neuroscience Investigator Award	New York Stem Cell Foundation	\$1,500,000	For truly bold, innovative scientists with the potential to transform the field of neuroscience. Applicants are encouraged in all areas of neuroscience, and NYSCF is committed to supporting the field as broadly as possible through these awards. Applicants need not be working in areas related to stem cells or related areas. Must be within 5 years of starting a faculty (professorship) or comparable position on June 1, 2020.	19-Feb-20

Biological Sciences, Medicine & Engineering				
Program	Funder	Amount	Description	Deadline
Stem Cell Investigator Awards	New York Stem Cell Foundation	\$1,500,000	For exploring the basic biology and translational potential of stem cells. Must be within 5 years of starting a faculty (professorship) or comparable position on June 1, 2020.	19-Feb-20
Collaborative Research Travel Grants	Burroughs Wellcome Fund	\$15,000	For faculty scientists and postdocs to travel to another lab to learn new research techniques, or begin or continue a collaboration to address biomedical questions. For cross-disciplinary collaboration between biology on one hand, and mathematics, physics, chemistry, computer science, statistics, or engineering on the other.	20-Feb-20
Joan L. and Julius H. Jacobson II Promising Investigator Award	American College of Surgeons	\$30,000	To recognize outstanding surgeons engaging in research, advancing the art and science of surgery, and demonstrating early promise of significant contribution to the practice of surgery and the safety of surgical patients. Candidate must be board certified in a surgical specialty and must have completed surgical training, including fellowship, in the last six years. This does not include military, medical, or family leave.	21-Feb-20
Musculoskeletal Transplant Foundation Research Grant	Orthopaedic Research and Education Foundation	\$98,000	For research in the science of biologic allografts (reconstruction, bone regeneration, transplantation), including stem cells for graft transplantation. PI can be orthopaedic surgeon or Ph.D. Must be new investigator (no R01 NIH grant or equivalent).	21-Feb-20
Impact of Regulatory Policies on the Patient-Physician Relationship Research Grant	Orthopaedic Research and Education Foundation	\$75,000	For exploring the impact of regulatory practices on the patient-physician relationship. The proposal should examine how and to what extent the burden of additional required documentation impacts the amount and quality of time a physician has available to focus on direct patient care. PI must be a new investigator (no R01 NIH grant or equivalent).	21-Feb-20

Biological Sciences, Medicine & Engineering				
Program	Funder	Amount	Description	Deadline
Orthopaedic Health Disparities Research Grant	Orthopaedic Research and Education Foundation	\$20,000	Areas of research focus include the following, although other areas of disparity in orthopaedic practice will be considered: 1) Strategies to reduce racial/ethnic inequities in Orthopaedic treatment; 2) Disproportionate outcomes/access to care for minority Orthopaedic patients; 3) Diversity in Orthopaedic Surgical Training.	21-Feb-20
Materials-Based Research Grant	Center for Craft	\$15,000	For interdisciplinary teams: collaborations between craft and the fields of science, technology, engineering, and mathematics. Intention is to help contemporary craftspeople explore how their material-specific knowledge, skill, and creativity can apply outside the field of fine art.	1-Mar-20
Young Investigator Research Team Award to Advance the Field of Translational Immuno-Oncology	Melanoma Research Foundation	\$300,000	To support the next generation of melanoma scientists in either improving clinical outcomes for patients with melanoma being treated with immuno-oncology agents, or advancing the scientific understanding of immuno-oncology and the role of the immune system in melanoma. Must involve collaborations from at least two different institutions. PI and co-PIs must be either: 1) a postdoctoral fellow with less than five years of postdoctoral experience at the time the grant will be awarded, or; 2) have a title equivalent to a research associate/scientist, instructor, or assistant professor at the time of the grant submission. Although the PI and the co-PIs must be junior faculty, additional members of the research team may be senior faculty members.	2-Mar-20

Biological Sciences, Medicine & Engineering				
Program	Funder	Amount	Description	Deadline
Opportunity Grants	Endowment for Health	\$20,000	For projects (including technical assistance) that address urgent needs and emerging opportunities, innovative projects, and/ or projects that build and disseminate knowledge to improve the health of New Hampshire's people.	rolling
Research Consortia and Collaborative Research Projects	Tourette Association of America	\$160,000	Seed funding to research consortia working on large issues relevant to Tourette's Syndrome, that cross over different scientific and medical disciplines and that encourage collaboration among researchers and institutions. Funding may be requested for planning meetings and/or project support. Applications accepted on a rolling basis.	rolling
Investigator Studies Program	Merck	not available	Current supported areas: Endocrinology; Infectious Disease; Non-Alcoholic SteatoHepatitis; Neuroscience; Oncology; Patient Engagement, Diversity and Health Literacy; Respiratory; Surgery; Vaccines; Women's Health.	rolling
Research Grants	Acumed	not available	For collaboration with Acumed on non-clinical and clinical research projects in orthopaedics and other related medical specialties.	rolling

Graduate/Postdoctoral				
Program	Funder	Amount	Description	Deadline
Postdoctoral Scholars	Mortimer B. Zuckerman STEM Leadership Program	\$104,000	For high-achieving postdoctoral scholars from premier universities in the United States to do research at one of seven Israeli universities. Must have Ph.D. or submit Ph.D. thesis before Oct. 1, 2020. There will be a second round immediately following this one, with an application deadline of March 15, 2020.	15-Jan-20
Gratitude to God	John Templeton Foundation	\$250,000	For empirical and non-empirical projects that address the nature of gratitude to God. There will be 4 separate award competitions: 1) Empirical large grants (up to \$250,000); 2) Empirical early-career grants (up to \$25,000); 3) Non-empirical large grants (up to \$100,000); 4) Non-empirical early career grants (up to \$15,000). Early-career applicants must be either advanced to candidacy for the Ph.D. degree (or appropriate terminal degree) and working on their dissertation, or be no more than five years past terminal degree.	15-Jan-20
Postdoctoral Fellowships in Aging Research	American Federation for Aging Research	\$60,000	For postdoctoral fellows conducting research in the basic biology of aging, as well as translating advances in basic research from the laboratory to the clinic.	22-Jan-20
Fellowships and Grants for Individuals	Paul Mellon Centre for Studies in British Art	\$52,000	For scholars, curators, and other art professionals working in the field of British art and architectural history from the medieval period to the present. Grant programs include: Senior Fellowship Grants; Mid-Career Fellowships; Junior Fellowships; Postdoctoral Fellowships; Research Support Grants; Educational Programme Grants; Rome Fellowship; Terra-PMC Fellowship; Collaborative Project Grant; Research Collections Fellowship.	31-Jan-20

Graduate/Postdoctoral				
Program	Funder	Amount	Description	Deadline
USA For Women In Science	L'Oreal	\$60,000	For female postdoctoral researchers conducting basic research in: life sciences; physical/material sciences; engineering; technology; computer science or mathematics. U.S. citizen or permanent resident. Must have postdoctoral research appointment by February 1, 2020.	31-Jan-20
Korean studies grants	Association for Asian Studies Northeast Asia Council	\$5,000	For Korean studies scholars (including graduate students) to: - travel for research within the U.S.A. - make short-term research trips outside the U.S.A. - sponsor seminars on teaching about Japan - organize North American conferences on Korea Must be a member of Association of Asian Studies.	1-Feb-20
National Research Council Research Associateship Programs	National Academies of Sciences Engineering and Medicine	\$80,000	Scientific and technological research. Graduate, postdoctoral (<5 years), and senior-level (>5 years) residential research opportunities at sponsoring federal laboratories and affiliated institutions.	1-Feb-20
Summer Institutes	Russell Sage Foundation	not available	Intensive, one- to two-week summer institutes for doctoral students and early-career scholars. February 10 deadline: Migration Research Methods. February 25 deadline: Behavioral Economics, Computational Social Science, Proposal Development.	10-Feb-20
Lewis and Clark Fund for Exploration and Field Research in Astrobiology	American Philosophical Society	\$5,000	For graduate students and postdocs to conduct field studies in any area of interest to astrobiology, including: astronomy; chemistry; evolutionary biology; field and population biology; geology; microbiology; molecular biology; oceanography; paleontology; planetary science.	17-Feb-20

Graduate/Postdoctoral				
Program	Funder	Amount	Description	Deadline
Collaborative Research Travel Grants	Burroughs Wellcome Fund	\$15,000	For faculty scientists and postdocs to travel to another lab to learn new research techniques, or begin or continue a collaboration to address biomedical questions. For cross-disciplinary collaboration between biology on one hand, and mathematics, physics, chemistry, computer science, statistics, or engineering on the other.	20-Feb-20
Resident Clinician Scientist Training Grant	Orthopaedic Research and Education Foundation	\$20,000	To prepare orthopaedic surgery residents or fellows for careers with research as a major component.	21-Feb-20
Information Controls Fellowship	Open Technology Fund	\$55,400	Supports examination into how governments in countries, regions, or areas of OTF's core focus are restricting the free flow of information, cutting access to the open internet, and implementing censorship mechanisms, thereby threatening the ability of global citizens to exercise basic human rights and democracy; work focused on mitigation of such threats is also supported. Eligibility: postdocs, doctoral students, and experienced researchers. Typical fields of grantees: computer science, engineering, information security research, software development, social sciences, law, and data visualization.	24-Feb-20
Early Career Awards	Thrasher Research Fund	\$25,000	To encourage the development of medical research in child health by awarding small grants to new researchers. Eligibility: physicians in residency/fellowship training, or completed program within one year of submission; post-doctoral researchers who received the doctoral level degree no more than three years prior to submission.	28-Feb-20
