Limited Application				
Program	Funder	Amount	Description	Deadlines
<a href="#">Wildlife Science</a>	Robert J. Kleberg Jr. and Helen C. Kleberg Foundation	\$300,000	<p>For wildlife conservation efforts that fill critical knowledge gaps through applied research or habitat restoration that support native wildlife, primarily in South Texas. Particular interest in: maintaining the integrity of ecosystems; stopover habitats of Nearctic-Neotropical migratory birds; and endangered/sensitive species endemic to South Texas. There are two annual deadlines, but institutions may only apply once per year.</p> <p><b>LIMITED SUBMISSION -- INTERNAL APPLICATION REQUIRED.</b></p> <p>Dartmouth may submit one application. To apply for this opportunity, email the following to <a href="mailto:limitedfunding@dartmouth.edu">limitedfunding@dartmouth.edu</a>: one-page description of your project idea; total amount of your funding request; current CV. Use "Kleberg - Wildlife" as the email subject line.</p>	<p><b>Internal deadline:</b> 2/18/2020</p> <p>External deadline: 3/31/2020</p>

Cross-cutting/Multi-disciplinary				
Program	Funder	Amount	Description	Deadline
<a href="#">Thomas Jefferson Fund</a>	FACE Foundation	\$20,000	For young French and American researchers to collaborate on the most pressing global challenges in the fields of Humanities and Social Sciences; Science, Technology, Engineering and Mathematics; and Science for Society. Eligibility: On the American side, researchers at the post-doctorate level, assistant or associate professors. On the French side, researchers at the post-doctorate level, maîtres de conférences and chargés de recherche. U.S. or French citizenship is not required. Senior researchers may be included as team members but not as project leaders. Ph.D. candidates are not eligible as project leaders.	2/24/2020
<a href="#">Art + Technology Lab</a>	Los Angeles County Museum of Art	\$50,000	For non-traditional projects that explore artistic applications of emerging technologies and ideas related to technology and culture. The program offers artists and artist collectives financial and in-kind support for new projects, with the help of expert partners from the fields of science, technology, and engineering. Open to individuals and collectives located anywhere in the world. Recipients need not be located in or near Los Angeles.	2/25/2020
<a href="#">Artisanal Mining Grand Challenge</a>	Microsoft	\$100,000	For solutions that utilize or deploy artificial intelligence, including machine learning, to address artisanal and small-scale mining (ASM) in any of these sub-challenges: <ul style="list-style-type: none"> <li>- Prevent, Remediate, Restore (impacts on water, hydrology, land, biodiversity, human health, and/or ecosystems)</li> <li>- Reform Supply Chains (of commodities sourced from ASM)</li> <li>- Global Data (measure environmental and social impacts)</li> </ul>	3/1/2020
<a href="#">Library Short-Term Resident Research Fellowships</a>	American Philosophical Society	\$9,000	For short-term residential fellowships for conducting research in the APS Library. APS is a leading international center for research in the history of American science and technology and its European roots, as well as early American history and culture. Stipend is \$3,000 per month for up to three months.	3/6/2020

**Cross-cutting/Multi-disciplinary**

<b>Program</b>	<b>Funder</b>	<b>Amount</b>	<b>Description</b>	<b>Deadline</b>
<a href="#">Grants in chemistry, physics and biology</a>	Eppley Foundation for Research	\$30,000	For novel, even risk-taking, projects aimed at “increasing knowledge in pure or applied science...in chemistry, physics and biology through study, research and publication.” No social sciences, education or computer science, and only rarely for diseases with other funding. Particular areas of interest include innovative medical investigations, climate change, whole ecosystem studies, as well as research on single species if they are of particular significance in their environments, in the U.S. and abroad.	3/15/2020
<a href="#">Research Grants</a>	Human Frontier Science Program	\$1,350,000	For international teams of 2–4 scientists from different disciplines (e.g. biophysics, chemistry, computational biology, computer science, engineering, mathematics, nanoscience or physics) to develop new lines of research in the life sciences. Basic research only. Separate reviews for Program Grants and for Young Investigators. Eligibility for Young Investigators: all team members within five years of first independent position, and no more than ten years from doctoral degree; exceptions considered for various circumstances.	3/19/2020

Arts & Humanities				
Program	Funder	Amount	Description	Deadline
<a href="#">Creative Capital Awards</a>	Creative Capital	\$50,000	For genre-stretching ideas from artists in all disciplines, to provide early support for projects that initially have challenges receiving funding from other sources. Includes career-development services for artists.  Eligible disciplines: animation; architecture and design; artistic activism; augmented reality; bio art; comedy; craft; cultural organizing; dance; dance film; data visualization; digital media; documentary film; drawing and illustration; ecological art; experimental film; games; graphic novel; hardware; installation; internet art; literary fiction; literary nonfiction; multimedia; multimedia performance; music composition; music performance; musical theater; narrative film; opera; painting; performance art; photography; poetry; public art; puppetry; sculpture; social practice; software; sound art; theater; video art and virtual reality.	2/29/2020
<a href="#">Commissioning of Composers</a>	Koussevitzky Music Foundation	\$20,000	Primarily for commissioning of composers by orchestras and chamber groups. Other types of ensembles with records of excellence in the performance of contemporary music may also be eligible; please inquire with the Foundation.	3/1/2020
<a href="#">Furthermore Publication Grants</a>	J.M. Kaplan Fund	\$15,000	Supports nonfiction book publishing about art, architecture, and design; cultural history, the city, and related public issues; and conservation and preservation. Book projects to which a university press, nonprofit or trade publisher is already committed and for which there is a feasible distribution plan are usually preferred. Applications accepted twice a year: March 1 and September 1.	3/1/2020
<a href="#">National Dance Project Production Grant</a>	New England Foundation for the Arts	\$90,000	NDP Production Grants provide funding to artists/companies to create new dance works and touring subsidies to the U.S. organizations who bring those works to their communities.	3/2/2020

Arts & Humanities				
Program	Funder	Amount	Description	Deadline
<a href="#">Past/Present: An Exhibition Initiative for US Museums</a>	Terra Foundation for American Art	not specified	For museum exhibitions that do all of the following: <ul style="list-style-type: none"> <li>- Focus on an issue of current relevance;</li> <li>- Connect and display pre-1980 art and more recent art;</li> <li>- Offer probing scholarship, with new insights that are addressed within both the exhibition and the catalogue;</li> <li>- Demonstrate originality in approach and presentation, as well as meaningful engagement with intended audiences during exhibition development.</li> </ul>	3/2/2020
<a href="#">Exhibition Grants</a>	Terra Foundation for American Art	\$350,000	For exhibitions that increase the understanding and appreciation of historical American art (circa 1500–1980). Particular interest in exhibitions that add an international dimension or take place in Chicago. Must include: a venue outside the United States; a focused thesis that makes a significant contribution to scholarship on historical American art in an international context; and/or an international curatorial team.	3/2/2020
<a href="#">Digital Humanities Fellowships</a>	American Philosophical Society	\$3,000	One-month fellowships for scholars at all stages of their careers, including graduate students. Areas of interest: 1) utilizing the APS’s Library holdings to advance a digital component of an independent research project, or, 2) applying existing tools and expertise to digital projects developed in collaboration with the Library’s Center for Digital Scholarship.	3/6/2020
<a href="#">National Theater Project Creation &amp; Touring Grant</a>	New England Foundation for the Arts	not specified	Theater artists apply to receive support for both the development and U.S. touring of theater projects devised by U.S.-based ensembles. Grants support the development of the project, costs and incentives needed to establish a plan for touring, and subsidies for presentation of the work.	3/9/2020
<a href="#">Millard Meiss Publication Fund</a>	College Art Association	not specified	To support book-length scholarly manuscripts in the history of art, visual studies, and related subjects that have been accepted by a publisher on their merits, but cannot be published in the most desirable form without a subsidy.	3/15/2020

**Arts & Humanities**

<b>Program</b>	<b>Funder</b>	<b>Amount</b>	<b>Description</b>	<b>Deadline</b>
<a href="#">Academic Workshop &amp; Symposium Grants</a>	Terra Foundation for American Art	\$25,000	For in-person exchanges such as workshops, symposia, and colloquia that advance scholarship in the field of American art (circa 1500–1980) that take place: 1) In Chicago or outside the United States, or; 2) In the United States and examine American art within an international context, with at least half of the participants coming from outside the United States.	3/16/2020

## Social Sciences & Business/Entrepreneurship

Program	Funder	Amount	Description	Deadline
<a href="#">Esther Katz Rosen Fund Grants</a>	American Psychological Foundation	\$50,000	For innovative psychological research to advance knowledge about gifted and talented children and adolescents. Graduate students and early career psychologists (10 years or less postdoctoral) are encouraged to apply.	3/1/2020
<a href="#">Phillips Fund for Native American Research</a>	American Philosophical Society	\$3,500	For research in Native American linguistics, ethnohistory, and the history of studies of Native Americans, in the continental United States and Canada. Eligibility: preference for younger scholars who have received the doctorate, and graduate students doing dissertation research.	3/2/2020
<a href="#">Small Research Grants on Education</a>	Spencer Foundation	\$50,000	For research that is relevant to the most pressing questions and compelling opportunities in education. Proposals accepted from multiple disciplinary and methodological perspectives. Proposals may span a wide range of topics and disciplines that innovatively investigate questions central to education, including but not limited to: education, anthropology, philosophy, psychology, sociology, law, economics, history or neuroscience.	3/3/2020
<a href="#">Digital Humanities Fellowships</a>	American Philosophical Society	\$3,000	One-month fellowships for scholars at all stages of their careers, including graduate students. Areas of interest: 1) utilizing the APS's Library holdings to advance a digital component of an independent research project, or, 2) applying existing tools and expertise to digital projects developed in collaboration with the Library's Center for Digital Scholarship.	3/6/2020
<a href="#">Unsolicited proposals</a>	Rita Allen Foundation	not specified	For highly innovative work related to the field of civic science, which seeks to promote broad engagement with science and evidence to help inform solutions to society's most pressing problems. Submissions might draw on the fields of science communication, public support for science, effective science policy, misinformation, institutional trust, deliberative democracy, and related fields.	3/6/2020

Social Sciences & Business/Entrepreneurship				
Program	Funder	Amount	Description	Deadline
<a href="#">The Andrew W. Mellon Foundation Native American Scholars Initiative Digital Knowledge Sharing Fellowship</a>	American Philosophical Society	\$3,000	For digital projects that connect archives and Indigenous communities. Open to scholars at all stages of their careers, especially Native American scholars in training, tribal college and university faculty members, and other scholars working closely with Indigenous communities on projects in Native American and Indigenous Studies and related fields. Past projects have focused on materials housed at the APS as well as collections held at other archives and libraries. The fellowship stipend is \$3,000 plus the costs associated with visiting the APS for the summer workshop with other DKS fellows.	3/6/2020
<a href="#">Measuring Economic Impact in the Digital Economy</a>	Facebook	\$100,000	For measuring the value of economic impact in the digital economy. Topics of interest include, but are not limited to the following: <ul style="list-style-type: none"> <li>- A taxonomy of the digital economy, including sub-sectors within the digital economy;</li> <li>- Theoretical models of economic impact of the digital economy;</li> <li>- Empirical application of theoretical models of causal economic impact.</li> </ul>	3/9/2020
<a href="#">Esther Katz Rosen Pre-college Psychology Grant Program</a>	American Psychological Foundation	\$15,000	For efforts aimed at improving the quality of education in psychological science and its application in the secondary schools for high ability students. Proposals must focus on supplying education for gifted and talented high school students.	3/15/2020
<a href="#">John and Polly Sparks Early Career Grant Program</a>	American Psychological Foundation	\$20,000	For research in the area of early intervention and treatment for serious emotional disturbance in children. Eligibility: early career psychologist (no more than 10 years post-doctoral).	3/15/2020

<b>Social Sciences &amp; Business/Entrepreneurship</b>				
<b>Program</b>	<b>Funder</b>	<b>Amount</b>	<b>Description</b>	<b>Deadline</b>
<a href="#">Small Grants: Computational Social Science</a>	Russell Sage Foundation	\$10,000	For social-science research that utilizes new data and methods to understand social, psychological, political and economic outcomes. Proposals should relate to Russell Sage’s core programs: Social Inequality; Behavioral Economics; Future of Work; Race, Ethnicity and Immigration.	3/17/2020
<a href="#">Yidan Prize</a>	Yidan Prize Foundation	\$3,900,000	One prize for education research and one for education development. Self-nomination is allowed only in exceptional cases.	3/31/2020

Physical Sciences, Mathematics & Engineering				
Program	Funder	Amount	Description	Deadline
<a href="#">Role of Applied Cryptography in a Privacy-Focused Advertising Ecosystem</a>	Facebook	\$60,000	For privacy-enhancing solutions to multiparty statistical analyses and machine learning problems within advertising. Particular interest in the following topics: <ul style="list-style-type: none"> <li>- Differential privacy</li> <li>- Secure multiparty computation</li> <li>- Homomorphic encryption</li> <li>- Federated learning</li> <li>- Zero-knowledge proofs</li> <li>- Secure aggregation</li> <li>- Trusted execution environments</li> </ul>	2/20/2020
<a href="#">Neutron Scattering Science</a>	Oak Ridge National Laboratory	not specified	For beam time on the Spallation Neutron Source and the High Flux Isotope Reactor at Oak Ridge National Laboratory. Two deadlines in 2020: February 26 and September 16.	2/26/2020
<a href="#">Rail Safety IDEA Program</a>	Transportation Research Board	\$100,000	For projects that promote innovative approaches to improve railroad safety or performance. Such proposals can apply to any type of railroad, including high-speed railroads, intercity passenger rail, or freight railroads. Funding can support initial testing of unproven concepts. Proposals reviewed twice a year: March 1 and September 1.	3/1/2020
<a href="#">Highway IDEA Program</a>	Transportation Research Board	\$150,000	For proposals with potential to advance the construction, safety, maintenance, and management of highway systems. Proposals reviewed twice a year: March 1 and September 1.	3/1/2020

Physical Sciences, Mathematics & Engineering				
Program	Funder	Amount	Description	Deadline
<a href="#">Transit IDEA Program</a>	Transportation Research Board	\$100,000	For concepts that have the potential to enhance security, increase ridership, improve efficiency for transit agencies, and protect the environment. Funding can support initial testing of unproven concepts. Proposals reviewed twice a year: March 1 and September 1.	3/1/2020
<a href="#">Probability and Programming</a>	Facebook	\$50,000	For faculty and graduate students to address fundamental problems at the intersection of machine learning, programming languages, statistics and software engineering, including: <ul style="list-style-type: none"> <li>- differentiable programming; probabilistic programming;</li> <li>- programming tools built using “big code”;</li> <li>- applications of machine learning to optimize systems and human workflows;</li> <li>- robustness and uncertainty management for ML models.</li> </ul>	3/4/2020
<a href="#">Unsolicited proposals</a>	Rita Allen Foundation	not specified	For highly innovative work related to the field of civic science, which seeks to promote broad engagement with science and evidence to help inform solutions to society’s most pressing problems. Submissions might draw on the fields of science communication, public support for science, effective science policy, misinformation, institutional trust, deliberative democracy, and related fields.	3/6/2020
<a href="#">Measuring Economic Impact in the Digital Economy</a>	Facebook	\$100,000	For measuring the value of economic impact in the digital economy. Topics of interest include, but are not limited to the following: <ul style="list-style-type: none"> <li>- A taxonomy of the digital economy, including sub-sectors within the digital economy;</li> <li>- Theoretical models of economic impact of the digital economy;</li> <li>- Empirical application of theoretical models of causal economic impact.</li> </ul>	3/9/2020

Physical Sciences, Mathematics & Engineering				
Program	Funder	Amount	Description	Deadline
<a href="#">Career Guidance for Trainees</a>	Burroughs Wellcome Fund	\$50,000	For practical approaches to readying scientists for career transitions: e.g., enhancing trainees' understanding of jobs beyond the academy; or of career trajectories within academe; or of the flexibility of scientists' intellectual skill set. Requires substantial partnership between considerably separate groups, e.g., professional societies serving different fields; or different units or schools of an institution. Not for biomedical research projects proposed by individual investigators.	3/13/2020
<a href="#">The Gordon and Betty Moore Foundation Fundamental Physics Innovation Awards</a>	American Physical Society	\$75,000	To stimulate ideas on innovative ways in which emerging technologies can be used to address pressing problems in the physics of fundamental particles and interactions. Three programs: Lectureship Awards (\$2,000); Visitor Awards (\$5,000–\$10,000); Convening Awards (\$25,000–\$75,000). Applications are reviewed three times a year: March 15, July 15 and November 15.	3/15/2020
<a href="#">NSF-Simons Research Collaborations on the Mathematical and Scientific Foundations of Deep Learning</a>	Simons Foundation National Science Foundation	\$10,000,000	For research collaborations consisting of mathematicians, statisticians, electrical engineers and theoretical computer scientists (participation of all four disciplines required). Research activities will be focused on explicit topics involving some of the most challenging questions in the general area of Mathematical and Scientific Foundations of Deep Learning. Each collaboration will conduct training through research involvement of recent doctoral degree recipients, graduate students, and/or undergraduate students from across this multi-disciplinary spectrum. Individuals may be PI, co-PI or other senior personnel on two separate applications. Deadline is for letter of intent.	3/20/2020

Biological Sciences, Medicine & Engineering				
Program	Funder	Amount	Description	Deadline
<a href="#">Solution Grants</a>	LIVESTRONG Foundation	\$100,000	For cutting-edge, inventive and sustainable solutions to overlooked cancer problems. Funding priorities: - Post-treatment care; - Patient and caregiver education; - Comprehensive quality of life services; - Streamlining systems and care.	2/21/2020
<a href="#">Addressing Antibiotic Stewardship in Animal Agriculture</a>	Foundation for Food and Agriculture Research	\$250,000	For the development, improvement and/or validation of animal-health monitoring or rapid in-field, pen-side or animal-side diagnostic tools. These technologies can be early-stage or close-to-market and must have potential for implementation by commercial livestock producers. Deadline is for a letter of intent.	2/26/2020
<a href="#">Grants</a>	Mohamed bin Zayed Species Conservation Fund	\$25,000	For individual species conservation initiatives; to recognize leaders in the field; and to elevate the importance of species in the broader conservation debate. All plant, animal and fungi species eligible.	2/29/2020
<a href="#">Mission Boost Grant</a>	American Cancer Society	\$600,000	For current and past American Cancer Society grantees specifically for the translation of their research to human testing.	3/1/2020
<a href="#">MTF Research Support Grant</a>	Massage Therapy Foundation	\$30,000	For research which contributes significantly and directly to the knowledge of massage therapy and/or its application. Basic, applied, and translational research studies which investigate massage therapy as a wellness, medical, or health/mental health treatment and/or prevention intervention are supported.	3/2/2020
<a href="#">Cerebrovascular Research Grant Award</a>	Aneurysm and AVM Foundation	\$25,000	For scientific research projects that will significantly move the field forward toward effective understanding of the mechanisms of cerebrovascular disease as they relate to aneurysms, AVMs and complex vascular malformations.	3/2/2020

Biological Sciences, Medicine & Engineering				
Program	Funder	Amount	Description	Deadline
<a href="#">Unsolicited proposals</a>	Rita Allen Foundation	not specified	For highly innovative work related to the field of civic science, which seeks to promote broad engagement with science and evidence to help inform solutions to society's most pressing problems. Submissions might draw on the fields of science communication, public support for science, effective science policy, misinformation, institutional trust, deliberative democracy, and related fields.	3/6/2020
<a href="#">Neuroendocrine research grants</a>	Neuroendocrine Tumor Research Foundation	\$1,200,000	For neuroendocrine research. Four programs: <ul style="list-style-type: none"> <li>- Accelerator awards (\$1,200,000 over four years)</li> <li>- Investigator awards (\$300,000 over two years)</li> <li>- Mentored award (\$120,000 over two years, postdoctoral)</li> <li>- Pilot awards (\$100,000 for one year)</li> </ul>	3/9/2020
<a href="#">2020 Request for Proposals</a>	JRS Biodiversity Foundation	\$250,000	For projects in sub-Saharan Africa focused on biodiversity data, knowledge and information services related to (1) freshwater biodiversity, (2) pollinator biodiversity, or (3) biodiversity informatics capacity development. Pollinators- and freshwater-related grants are focused on Botswana, Kenya, Malawi, Rwanda, South Africa, Tanzania and Uganda, but location exceptions may be made for projects with exceptional potential. Proposals may be for multi-year projects or for co-funding of biodiversity information components of existing projects.	3/10/2020
<a href="#">Interdisciplinary Research Leaders</a>	Robert Wood Johnson Foundation	\$350,000	For three-member teams of interdisciplinary leaders to conduct and apply high-quality, community-engaged, action-oriented, equity-focused health research in order to drive improvements in the health of communities. Fellows will receive leadership training; opportunities to learn and apply cutting-edge research methods; expert mentoring; networking opportunities; and both fellowship and research funds.	3/11/2020

Biological Sciences, Medicine & Engineering				
Program	Funder	Amount	Description	Deadline
<a href="#">Research Grants</a>	Morris Animal Foundation	\$150,000	For research projects related to canine or feline health. Programs: <ul style="list-style-type: none"> <li>- Established Investigator (up to \$150,000 over three years);</li> <li>- First Award (up to \$108,000 over two years);</li> <li>- Pilot Study (\$10,800) preliminary data not required;</li> <li>- Fellowship Training (up to \$100,000 over two years). Salary support for grad students or postdocs in a mentoring environment.</li> </ul>	3/11/2020
<a href="#">Clinical Scholars</a>	Robert Wood Johnson Foundation	\$525,000	For interdisciplinary teams of 3–5 health professionals to build and develop unique skills to lead teams, working with and across communities and organizations to tackle health problems that emerge from complex systems.	3/11/2020
<a href="#">Cotzias Memorial Fellowships</a>	American Parkinson Disease Association	\$300,000	To assist promising young neurologists in establishing careers in research, teaching and clinical services relevant to the problems, causes, prevention, diagnosis and treatment of Parkinson’s disease and related neurological movement disorders. Eligibility: instructor or assistant professor who is no more than ten years beyond completion of clinical training.	3/12/2020
<a href="#">Research Grants</a>	American Parkinson Disease Association	\$75,000	For basic or applied research aimed at reducing the burden of Parkinson’s disease. Eligibility: all research scientists in the field of Parkinson’s research can apply, but those new to the field will be more favorably considered.	3/12/2020

Biological Sciences, Medicine & Engineering				
Program	Funder	Amount	Description	Deadline
<a href="#">APDA Research for All Grant</a>	American Parkinson's Disease Association	\$75,000	To study the health disparities and/or biological differences among under-represented Parkinson Disease communities. Projects should address one of these issues: <ul style="list-style-type: none"> <li>- Diagnosis of PD among some under-represented communities is delayed as compared to Caucasian patients.</li> <li>- Some under-represented communities are less likely to receive quality PD care.</li> <li>- Clinical trial enrollment among certain under-represented communities is lower than in Caucasian patients.</li> <li>- Biologic differences (clinical features, response to treatment, co-morbidities, prevalence, natural history, genetics, biomarkers) between racial or ethnic communities have not been fully explored.</li> </ul>	3/12/2020
<a href="#">Career Guidance for Trainees</a>	Burroughs Wellcome Fund	\$50,000	For practical approaches to readying scientists for career transitions: e.g., enhancing trainees' understanding of jobs beyond the academy; or of career trajectories within academe; or of the flexibility of scientists' intellectual skill set. Requires substantial partnership between considerably separate groups, e.g., professional societies serving different fields; or different units or schools of an institution. Not for biomedical research projects proposed by individual investigators.	3/13/2020
<a href="#">Distinguished Scientist Award</a>	Sontag Foundation	\$600,000	Proposed project must demonstrate potential to generate new knowledge relating to causes, cure, or treatment of primary brain tumors/brain cancer. Eligibility: must have received first independent faculty appointment no earlier than March 1, 2015 and no later than January 1, 2020.	3/16/2020

Biological Sciences, Medicine & Engineering				
Program	Funder	Amount	Description	Deadline
<a href="#">Young-Onset Colorectal Cancer Research Grant</a>	Colorectal Cancer Alliance	\$300,000	For young-onset colorectal cancer research: basic, translational, clinical or epidemiological. Areas of interest include: <ul style="list-style-type: none"> <li>- The risk factors and causes associated with the rise in young-onset colorectal cancer including but not limited to changes in the microbiome and its impact on young-onset colorectal cancer.</li> <li>- Cellular, genomic, and epigenomic mechanisms in young-onset colorectal cancer for improving early detection and improving treatments.</li> <li>- Better mechanisms for increasing the long-term survival rates of those with young-onset colorectal cancer.</li> <li>- The psychosocial impacts of young-onset colorectal cancer and the overall social influence on daily survivorship.</li> </ul>	3/16/2020
<a href="#">Distinguished Scientist Award</a>	Sontag Foundation	\$600,000	For early-career scientists who demonstrate outstanding promise for making scientific and medical breakthroughs in the field of brain cancer research. For tenure-track faculty who received their first independent appointment no earlier than March 1, 2015 and no later than January 1, 2020.	3/16/2020

Biological Sciences, Medicine & Engineering				
Program	Funder	Amount	Description	Deadline
<a href="#">Health Disparities Research Grant</a>	Colorectal Cancer Alliance	\$200,000	For research on incidence disparity in colorectal cancer (CRC): basic, translational or epidemiological. Areas of interest include: <ul style="list-style-type: none"> <li>- Influence of biological risk factors (genetic, epigenetic, microbiome, metabolome) and gene/environment interactions that may contribute to higher burden or poorer outcome of colorectal cancer in different populations.</li> <li>- Differences in CRC biological sub-types and underlying mechanisms that contribute to aggressive forms of CRC in certain populations such as African Americans and American Indians/Alaskan Natives or protective factors in other populations.</li> <li>- Differences in metabolism and clearance of carcinogens that may explain the CRC disparities among various health disparity populations.</li> </ul> Risk factors such as social stressors, that could influence the disease burden and outcomes.	3/16/2020
<a href="#">Investigators</a>	Howard Hughes Medical Institute	not specified	For research in basic and biomedical sciences, plant biology, evolutionary biology, biophysics, chemical biology, biomedical engineering, and computational biology. Seven-year renewable term. Tenured or tenure-track Assistant Professor or higher, with 5-15 years of post-training professional experience. Must be PI on one or more active, national peer-reviewed research grants with an initial duration of at least three years as of April 1, 2020.	3/18/2020
<a href="#">Berman/Topper HD Career Development Fellowship</a>	Huntington's Disease Society of America	\$240,000	For young scientists/clinicians who are interested in a career in Huntington's disease research or care to work collaboratively with their mentors and other committed HD health professionals. Eligibility: no more than five years removed from PhD or completion of residency/fellowship; cannot have own laboratory.	3/20/2020

Biological Sciences, Medicine & Engineering				
Program	Funder	Amount	Description	Deadline
<a href="#">Young Investigator Awards</a>	Prostate Cancer Foundation	\$225,000	For high-impact proposals related to ending prostate cancer. Applications are encouraged from early-career basic scientists, medical oncologists, pathologists, urologists, radiologists, radiation oncologists, public health experts, bioinformaticians, bioengineers, or professionals from any other field. Applicants with appointments in VA hospitals are especially desired. Applicants may be working in basic, translational, computational or clinical research and need not be trained specifically in prostate cancer research. Access to and real-time interaction with a clinical environment and translational prostate cancer physician-scientists is highly desired. Eligibility: should be no more than six years beyond completion of a professional degree or subsequent mentored academic or clinical training program; must hold the title of Postdoctoral Fellow, Instructor, Research Associate, Assistant Professor or equivalent.	3/23/2020
<a href="#">Seed Grant Program</a>	American Epilepsy Society	\$20,000	For established investigators to pursue new and innovative directions in epilepsy research, bring new research methods to their research programs, or begin new collaborations with other investigators in epilepsy or in different, complementary disciplines.	3/23/2020
<a href="#">Walter A. Rosenblith New Investigator Award</a>	Health Effects Institute	\$500,000	For junior investigators to conduct research on the health effects of air pollution. Eligibility: assistant professor (or equivalent) with 2–7 years of research experience since doctoral degree.	3/24/2020
<a href="#">Strengthening the Ecosystem-based Management Approach (to a sustainable krill fishery)</a>	Antarctic Wildlife Research Fund	\$100,000	For work that will increase understanding about how the Antarctic marine ecosystem operates and how it might be characterized as a set of indicators for use by krill fishery managers. Such work might involve desk or field studies to fill critical knowledge gaps or provide early warning signals about future ecological change.	3/27/2020

**Biological Sciences, Medicine & Engineering**

<b>Program</b>	<b>Funder</b>	<b>Amount</b>	<b>Description</b>	<b>Deadline</b>
<a href="#"><u>Institutional Research Grants</u></a>	American Cancer Society	\$360,000	Seed grants to institutions (not individuals) for promising junior investigators to initiate cancer research projects that will enable them to compete successfully for national research grants. Funding is for three years and may be renewed.	4/1/2020
<a href="#"><u>Challenge Awards For Metastatic, Lethal Prostate Cancer</u></a>	Prostate Cancer Foundation	\$1,000,000	Preference for high-risk, currently unfunded projects, and for applications to conduct research in VA hospitals. For teams of at least three investigators to conduct large-scale research projects concerning metastatic, lethal prostate cancer. Team must include a young investigator: within six years of completing professional degree or subsequent mentored academic or clinical training program; and not awarded more than \$200,000 in direct research funding from all sources including institutional funds during the two-year term of this award.	4/17/2020
<a href="#"><u>SFARI Collaboration on Sex Differences in Autism</u></a>	Simons Foundation	\$8,000,000	For multidisciplinary teams to investigate sex differences in autism. Collaborations will be led by a director who oversees interdisciplinary, synergistic research efforts across multiple laboratories. Investigative groups within a Collaboration will focus on the same conceptually unified topic but will incorporate different scientific disciplines, multiple levels of analysis, and will include a robust data-sharing infrastructure.	4/21/2020

Graduate/Postdoctoral				
Program	Funder	Amount	Description	Deadline
<a href="#">Thomas Jefferson Fund</a>	FACE Foundation	\$20,000	For young French and American researchers to collaborate on the most pressing global challenges in the fields of Humanities and Social Sciences; Science, Technology, Engineering and Mathematics; and Science for Society. Eligibility: On the American side, researchers at the post-doctorate level, assistant or associate professors. On the French side, researchers at the post-doctorate level, maîtres de conférences and chargés de recherche. U.S. or French citizenship is not required. Senior researchers may be included as team members but not as project leaders. Ph.D. candidates are not eligible as project leaders.	2/24/2020
<a href="#">Esther Katz Rosen Fund Grants</a>	American Psychological Foundation	\$50,000	For innovative psychological research to advance knowledge about gifted and talented children and adolescents. Graduate students and early career psychologists (10 years or less postdoctoral) are encouraged to apply.	3/1/2020
<a href="#">Phillips Fund for Native American Research</a>	American Philosophical Society	\$3,500	For research in Native American linguistics, ethnohistory, and the history of studies of Native Americans, in the continental United States and Canada. Eligibility: preference for younger scholars who have received the doctorate, and graduate students doing dissertation research.	3/2/2020
<a href="#">Charles A. King Fellowship</a>	Medical Foundation	\$117,760	For postdoctoral fellows in basic science and clinical/health services research.	3/4/2020
<a href="#">Probability and Programming</a>	Facebook	\$50,000	For faculty and graduate students to address fundamental problems at the intersection of machine learning, programming languages, statistics and software engineering, including: <ul style="list-style-type: none"> <li>- differentiable programming; probabilistic programming;</li> <li>- programming tools built using “big code”;</li> <li>- applications of machine learning to optimize systems and human workflows;</li> <li>- robustness and uncertainty management for ML models.</li> </ul>	3/4/2020

Graduate/Postdoctoral				
Program	Funder	Amount	Description	Deadline
<a href="#">Digital Humanities Fellowships</a>	American Philosophical Society	\$3,000	One-month fellowships for scholars at all stages of their careers, including graduate students. Areas of interest: 1) utilizing the APS's Library holdings to advance a digital component of an independent research project, or, 2) applying existing tools and expertise to digital projects developed in collaboration with the Library's Center for Digital Scholarship.	3/6/2020
<a href="#">Neuroendocrine research grants</a>	Neuroendocrine Tumor Research Foundation	\$1,200,000	For neuroendocrine research. Four programs: <ul style="list-style-type: none"> <li>- Accelerator awards (\$1,200,000 over four years)</li> <li>- Investigator awards (\$300,000 over two years)</li> <li>- Mentored award (\$120,000 over two years, postdoctoral)</li> <li>- Pilot awards (\$100,000 for one year)</li> </ul>	3/9/2020
<a href="#">Research Grants</a>	Morris Animal Foundation	\$150,000	For research projects related to canine or feline health. Programs: <ul style="list-style-type: none"> <li>- Established Investigator (up to \$150,000 over three years);</li> <li>- First Award (up to \$108,000 over two years);</li> <li>- Pilot Study (\$10,800) preliminary data not required;</li> <li>- Fellowship Training (up to \$100,000 over two years). Salary support for grad students or postdocs in a mentoring environment.</li> </ul>	3/11/2020
<a href="#">Health Policy Research Scholars</a>	Robert Wood Johnson Foundation	\$120,000	Leadership development opportunity for second-year Ph.D. students from underrepresented populations and/or disadvantaged backgrounds (ethnicity, socioeconomic status, ability, etc.) who want to apply their research to advance health and equity. All disciplines, with preference for students who do not have a policy or public-health background.	3/11/2020
<a href="#">Research Grants</a>	American Parkinson Disease Association	\$75,000	For basic or applied research aimed at reducing the burden of Parkinson's disease. Eligibility: all research scientists in the field of Parkinson's research can apply, but those new to the field will be more favorably considered.	3/12/2020

<b>Graduate/Postdoctoral</b>				
<b>Program</b>	<b>Funder</b>	<b>Amount</b>	<b>Description</b>	<b>Deadline</b>
<a href="#">Postdoctoral fellowships</a>	American Parkinson Disease Association	\$50,000	To support post-doctoral trainees whose research training focusses on new insights into the pathophysiology, etiology, and/or treatment of Parkinson's disease. Eligibility: must have completed MD, PhD, MD/PhD or clinical residency program within two years of the onset of the award.	3/12/2020
<a href="#">John and Polly Sparks Early Career Grant Program</a>	American Psychological Foundation	\$20,000	For research in the area of early intervention and treatment for serious emotional disturbance in children. Eligibility: early career psychologist (no more than 10 years post-doctoral).	3/15/2020
<a href="#">Sohn Pediatric Fellowship Award</a>	Damon Runyon Cancer Research Foundation	\$231,000	For basic scientists and clinicians who conduct research with the potential to significantly impact the prevention, diagnosis or treatment of one or more pediatric cancers. Eligibility: must have degree no more than 18 months prior to the application deadline. Must not have been in sponsor's lab for more than 18 months. Must devote 100% of time and effort to Damon Runyon-supported research activities.	3/16/2020
<a href="#">Berman/Topper HD Career Development Fellowship</a>	Huntington's Disease Society of America	\$240,000	For young scientists/clinicians who are interested in a career in Huntington's disease research or care to work collaboratively with their mentors and other committed HD health professionals. Eligibility: no more than five years removed from PhD or completion of residency/fellowship; cannot have own laboratory.	3/20/2020

Graduate/Postdoctoral				
Program	Funder	Amount	Description	Deadline
<a href="#">Young Investigator Awards</a>	Prostate Cancer Foundation	\$225,000	For high-impact proposals related to ending prostate cancer. Applications are encouraged from early-career basic scientists, medical oncologists, pathologists, urologists, radiologists, radiation oncologists, public health experts, bioinformaticians, bioengineers, or professionals from any other field. Applicants with appointments in VA hospitals are especially desired. Applicants may be working in basic, translational, computational or clinical research and need not be trained specifically in prostate cancer research. Access to and real-time interaction with a clinical environment and translational prostate cancer physician-scientists is highly desired. Eligibility: should be no more than six years beyond completion of a professional degree or subsequent mentored academic or clinical training program; must hold the title of Postdoctoral Fellow, Instructor, Research Associate, Assistant Professor or equivalent.	3/23/2020
<a href="#">TGF Fellowship Programme</a>	Gruber Foundation	\$50,000	Postdoctoral fellowship for a young astrophysicist, working in any field of astrophysics, either theoretical, observational or experimental. Eligibility: applicants in the last months of their Ph.D.; or post-docs in their first year of appointment. Must have Ph.D. by October 1 of the award year. Applicants for a fellowship at Dartmouth must have received their degree in another country. All nationalities may apply, but preference will be given to applicants from countries in difficult economic conditions.	3/31/2020
<a href="#">Challenge Awards For Metastatic, Lethal Prostate Cancer</a>	Prostate Cancer Foundation	\$1,000,000	Preference for high-risk, currently unfunded projects, and for applications to conduct research in VA hospitals. For teams of at least three investigators, including one young investigator to conduct large-scale research projects concerning metastatic, lethal prostate cancer. Team must include a young investigator: within six years of completing professional degree or subsequent mentored academic or clinical training program; and not awarded more than \$200,000 in direct research funding from all sources including institutional funds during the two-year term of this award.	4/17/2020
