Strategic Response				
Program	Funder	Amount	Description	Deadline
Making a Difference in Real-World Bioethics Dilemmas	Greenwall Foundation	\$230,000	<p>For research to help resolve an important emerging or unanswered bioethics problem in clinical care, biomedical research, public health practice, or public policy. June 24 deadline is for a letter of intent. Another cycle will be funded in the spring of 2021.</p> <p>Priority topics:</p> <ul style="list-style-type: none"> - The COVID-19 pandemic and other public health crises; - Bias and discrimination against patients or clinicians, which may be based on a broad range of characteristics and which may involve health disparities or social determinants of health; - Developments in artificial intelligence; - Responses to the opioid epidemic; - Advances in biomedical and clinical research and their translation into clinical practice; - Healthcare access, costs, and resource allocation. 	6/24/2020
NSCLC – Current Practice Considerations	Pfizer	\$250,000	<p>To address the following medical education needs:</p> <ol style="list-style-type: none"> 1. Reinforce the importance of adopting highly effective testing algorithms ensuring all appropriate patients with advanced non-small-cell lung cancer (NSCLC) are tested for key actionable drivers/mutations (e.g. EGFR, ALK, ROS1 & BRAF) alongside PDL-1 testing. 2. Better leverage technology and utilize telemedicine to ensure the continuity of diagnosis and care of patients with advanced NSCLC who are at higher risk of complications for COVID-19 and potentially future global health crises. 	7/9/2020

Limited Application				
Program	Funder	Amount	Description	Deadlines
Medical Research Awards	Gabrielle's Angel Foundation for Cancer Research	\$225,000	<p>For junior faculty members to conduct research on hematologic malignancies. Requires preliminary results and/or publications from applicant's independent laboratory.</p> <p>Two programs: 1. Conventional research. 2. Integrative medicine research and clinical trials. Evidence-based complementary interventions that optimize mainstream care and improve the lives of patients (e.g., acupuncture, mind-body interventions, manipulative and body-based therapies, nutrition, meditation, music therapy, yoga, physical fitness, use of biologically-based agents).</p> <p>Eligibility: Conventional program is restricted to assistant professors who have held their current position for no more than five years; Integrative is open to both assistant and associate professors with no time limit on current position.</p> <p>LIMITED SUBMISSION -- INTERNAL APPLICATION REQUIRED</p> <p>Dartmouth may nominate one candidate in Conventional and one in Integrative. To apply for this opportunity, email the following to LimitedFunding@Dartmouth.Edu: one-page description of your project idea; total amount of your funding request; current CV. Use "Gabrielle's Angel Foundation" and either "Conventional" or "Integrative" in the email subject line.</p>	<p>Internal deadline: 7/10/20</p> <p>External deadline: 8/21/20</p>

Limited Application				
Program	Funder	Amount	Description	Deadlines
Searle Scholars Program	Kinship Foundation	\$300,000	<p>For independent researchers in biochemistry, cell biology, genetics, immunology, neuroscience, pharmacology, and related areas in chemistry, medicine, and the biological sciences. Both clinical and basic research. Applicants should have begun their appointment as an independent investigator at the assistant professor level on or after July 1, 2019. The appointment must be their first tenure-track position (or its nearest equivalent).</p> <p>LIMITED APPLICATION -- INTERNAL SUBMISSION REQUIRED</p> <p>Dartmouth may nominate one candidate. To apply for this opportunity, email the following to LimitedFunding@Dartmouth.Edu: one-page description of your project idea; total amount of your funding request; current CV. Use "Searle Scholars" as the email subject line.</p>	<p>Internal deadline: 7/15/20</p> <p>External deadline: 9/30/20</p>
Medical Research	Robert J. Kleberg Jr. and Helen C. Kleberg Foundation	\$1,500,000	<p>For innovative medical research proposals in both basic biological and applied research that will have the greatest impact on scientific knowledge and human health. Two annual deadlines: March 31 and September 30. Last year's awards ranged from \$300,000 to \$1,500,000.</p> <p>LIMITED SUBMISSION -- INTERNAL APPLICATION REQUIRED</p> <p>Dartmouth may submit one application per cycle. To apply for this opportunity, email the following to limitedfunding@dartmouth.edu: one-page description of your project idea; total amount of your funding request; current CV. Use "Kleberg Foundation — Medical Research" as the email subject line.</p>	<p>Internal deadline: 8/2/20</p> <p>External deadline: 9/30/20</p>

Limited Application				
Program	Funder	Amount	Description	Deadlines
Sloan Research Fellowships	Alfred P. Sloan Foundation	\$75,000	<p>For early-career scientists and scholars in these or related fields:</p> <ul style="list-style-type: none"> - chemistry - computer science - economics - mathematics - molecular biology - neuroscience - ocean sciences - physics. <p>Must be tenure-track but untenured as of 9/15/20. Faculty position must carry a regular teaching obligation.</p> <p>LIMITED SUBMISSION -- INTERNAL APPLICATION REQUIRED.</p> <p>Each department may nominate up to three candidates.</p> <p>To apply for this opportunity, email the following to limitedfunding@dartmouth.edu: one-page description of your project idea; total amount of your funding request; current CV. Use "Sloan Fellowships" as the email subject line.</p>	<p>Internal deadline: 7/15/20</p> <p>External deadline: 9/15/20</p>

Limited Application				
Program	Funder	Amount	Description	Deadlines
Major Grants Initiative to Advance Child Health	Charles H. Hood Foundation	\$450,000	<p>For translational or clinical research in the area of Child and Adolescent Mental Health, including research into autism, attention deficit disorder, eating disorders, affective disorders including depression and anxiety, substance use disorder, and other mental illnesses that cause suffering and dysfunction for children and adolescents, up to the age of 21.</p> <p>The Foundation will consider proposals across the translational research spectrum, including:</p> <ul style="list-style-type: none"> - Basis science and laboratory investigations that focus on brain mechanisms involved in complex behaviors and child development; - Clinical research directed at better understanding the trajectory of mental illness through childhood and adolescence; - Research directed at discovering and evaluating treatments and cures for child and adolescent mental illness; - Research directed at discovering and evaluating approaches to the prevention of child and adolescent mental illness; and/or - Healthcare systems and public health research focused on reducing the burden of mental illness among children and adolescents. <p>LIMITED SUBMISSION -- INTERNAL APPLICATION REQUIRED</p> <p>Dartmouth may submit one proposal. To apply for this opportunity, email the following to limitedfunding@dartmouth.edu: one-page description of your project; total amount of your funding request; current CV. Use "Hood Foundation - Major Grants" as the email subject line.</p>	<p>Internal deadline: 6/30/20</p> <p>External deadline: 7/31/20</p>

Cross-cutting/Multi-disciplinary				
Program	Funder	Amount	Description	Deadline
Tackling Senior Food Insecurity	AARP Foundation	not specified	For evidence-based, innovative solutions positioned for exponential growth to bring to scale proven approaches that increase food security among hundreds of thousands of low-income older adults. Note: the request for proposals posted online has not been updated for two years, but AARP has continued to make grants under this program.	rolling
Increasing Social Connectedness for Older Adults	AARP Foundation	not specified	For creating and advancing effective solutions to help people 50 and older build economic opportunity and social connectedness. Funder seeks to identify new interventions it can implement directly or through close collaboration with grantees. Note: the request for proposals posted online has not been updated for two years, but AARP has continued to make grants under this program.	not specified
CZI Imaging Scientists	Chan Zuckerberg Initiative	not specified	Up to five years of salary and benefits for imaging scientists with expertise in hardware or software to collaborate with experimental biologists at imaging core facilities across the world. May be engineers, physicists, mathematicians, computer scientists, or biologists who have focused on technology development in either light or electron microscopy, medical imaging, or data analysis fields.	7/30/2020
Emergent Researcher Award	Conference on College Composition and Communication	\$10,000	For projects that can contribute to or affect discussions about literacy and writing instruction in and out of formal education. The initiative also asks recipients to clearly address the impact their research might have on these conversations, conveying the implications of their work in at least two final products: one that is addressed to a scholarly audience of researchers and teachers in the field, and one that is addressed to a specifically identified more public audience.	9/1/2020

Cross-cutting/Multi-disciplinary				
Program	Funder	Amount	Description	Deadline
Research Initiative	Conference on College Composition and Communication	\$10,000	For proposals to investigate key challenges faced by literacy, communication, rhetoric and writing instructors and administrators in their classrooms and programs. Proposals should directly address the impact that their research might have on disciplinary and public conversations about these topics. They must also convey results in at least two final products: one that is addressed to a scholarly audience of researchers and teachers in the field and one for a clearly specified audience beyond those in the field.	9/1/2020
Cullman Center Fellowships	New York Public Library	not specified	Nine-month residential fellowship program for scholars whose work will benefit directly from access to the collections at the Stephen A. Schwarzman Building (formerly the Humanities and Social Sciences Library), including academics, independent scholars, and creative writers (novelists, playwrights, poets).	9/25/2020
Faculty Fellowships	Notre Dame Institute for Advanced Study	\$75,000	<p>For integrative scholarship addressing ultimate questions at the intersection of the arts, engineering, the humanities, law, and the formal, natural, and social sciences—especially those that transcend disciplinary boundaries. All disciplines eligible.</p> <p>This year's research focus is Resilience. Potential topics include but are not limited to:</p> <ul style="list-style-type: none"> - Law and policy-focused issues; - The downsides of resilience; - Philosophical and theological investigations; - Health, psychology, disability studies, and individual resilience; - Engineering and design; - Theoretical analyses; - Creative projects and research into the fine arts. 	10/5/2020

Cross-cutting/Multi-disciplinary

Program	Funder	Amount	Description	Deadline
Science & Technology Policy Fellowships	American Association for the Advancement of Science	\$100,000	For scientists and engineers to learn first-hand about policy-making while contributing their knowledge and analytical skills to the federal policy-making process. Fellows serve year-long assignments in the executive, legislative and judicial branches of the federal government in Washington, D.C. Must be U.S. citizen. Doctoral-level science degree or master's in engineering.	11/1/2020

Arts & Humanities				
Program	Funder	Amount	Description	Deadline
Past/Present: An Exhibition Initiative for US Museums	Terra Foundation for American Art	not specified	For museum exhibitions that address all of the following: 1) Focus on an issue of current relevance; 2) Offer probing scholarship, with new insights that are addressed within both the exhibition and the catalogue; 3) Demonstrate originality in approach and presentation, as well as meaningful engagement with intended audiences during exhibition development; 4) Include a significant portion of pre-1980 American art.	8/3/2020
Wyeth Foundation for American Art Publication Grant	College Art Association	not specified	To support the publication of books on American art (United States, Canada, and Mexico). For book-length scholarly manuscripts in the history of American art, visual studies, and related subjects that have been accepted by a publisher on their merits but cannot be published in the most desirable form without a subsidy.	9/15/2020
Terra Foundation for American Art International Publication Grant	College Art Association	\$15,000	For book-length scholarly manuscripts in the history of American art, visual studies, and related subjects that are under contract with a nonprofit or commercial publisher. "American art" is defined as art (circa 1500–1980) of what is now the geographic United States. Three grant programs: - Grants to US publishers for manuscripts considering American art in an international context; - Grants to non-US publishers for manuscripts on topics in American art; - Grants for the translation of books on topics in American art to or from English.	9/18/2020
Edilia and François-Auguste De Montéquin Fellowship - Post-Ph.D.	Society of Architectural Historians	\$6,000	For travel related to research on Spanish, Portuguese, or Ibero-American architecture, including colonial architecture produced by the Spaniards in the Philippines and what is today the United States. Must be a Society member. For senior or emerging scholars who have completed their Ph.D. or equivalent terminal degree.	9/30/2020

Social Sciences & Business/Entrepreneurship				
Program	Funder	Amount	Description	Deadline
Exploratory Research Grants	Center for Economic Policy Research	\$51,000	<p>To explore new approaches to the study of private enterprises of all sizes in low-income-countries (LICs); and to develop new (or build on) existing sources of data on firms in LICs.</p> <p>Areas of focus:</p> <ul style="list-style-type: none"> - Market frictions, management and organizations; - Trade and macro models—agglomeration and spatial location of firms; - High growth entrepreneurship; - Social compliance and the environment. <p>Proposals that address the following issues are encouraged:</p> <ul style="list-style-type: none"> - Fragile and conflict-affected states; - Gender; - Unlocking data for understanding markets and firms. 	6/30/2020
Grants	Caplan Foundation for Early Childhood	not specified	For research and development projects that may ultimately enhance the development, health, safety, education or quality of life of children from infancy through seven years of age across the country. Programs: Early Childhood Welfare; Early Childhood Education and Play; Parenting Education.	9/30/2020

Physical Sciences, Mathematics & Engineering				
Program	Funder	Amount	Description	Deadline
International Research Travel Award Program	American Physical Society	\$2,000	For international research collaborations between physicists in developed and developing countries.	not specified
Artificial Intelligence Hardware	Semiconductor Research Corporation	\$100,000	To create new highly-efficient AI platforms to enable neuro-inspired, cognitive, and learning abilities which will be required to address the vast range of future data types and workloads as intelligence is enabled from edge devices to the cloud.	6/17/2020
Analog/Mixed-Signal Circuits, Systems, and Devices	Semiconductor Research Corporation	\$100,000	To create fundamental innovations in analog/mixed-signal integrated circuits and systems across a broad range of applications, including traditional information processing as well as newer areas of emphasis—such as automotive, industrial, and medical.	6/24/2020
Logic & Memory Devices	Semiconductor Research Corporation	\$100,000	To explore augmenting the advanced CMOS technology with emerging alternative concepts such as multiferroics, spintronics, photonics, and their 3D monolithic integration.	6/24/2020
Nanomanufacturing Materials and Processes	Semiconductor Research Corporation	\$100,000	To explore new materials and processes for scaled digital and analog device fabrication.	6/24/2020
Environment, Safety, and Health	Semiconductor Research Corporation	\$100,000	To enable sustainable and environmentally benign processing in integrated-circuit manufacturing.	6/24/2020
Liquid Crystal Research Awards	Facebook	\$5,000	To develop advanced liquid-crystal optics and display technologies and to integrate them with existing and emerging AR/VR optical and display solutions. The aim is to provide better user experience, enable breakthroughs in the AR/VR optical design space, and help pave the way to AR glasses and next-generation VR headsets.	7/1/2020
Agent-based user interaction simulation to find and fix integrity and privacy issues	Facebook	\$50,000	For research and development on a Web Enabled Simulation (WES) system called WW. WW is a multi-agent simulation that trains agents (bots) using automated learning and optimization to simulate the social behavior of a range of good and bad actors. The simulation aims to automatically find and fix integrity and privacy issues.	7/15/2020

Physical Sciences, Mathematics & Engineering				
Program	Funder	Amount	Description	Deadline
Rail Safety IDEA Program	Transportation Research Board	\$100,000	For promising but unproven innovative concepts or methods that address safety and performance in railroad systems in the following areas: Security; Environmental impact; Human factors; Rolling stock and components; Track and structures; Track/train interaction; Grade crossings; Hazardous materials transportation; Train occupant protection; Trespass prevention; Signaling and train control systems; Employee safety.	9/15/2020

Biological Sciences, Medicine & Engineering				
Program	Funder	Amount	Description	Deadline
Clinical Cancer Research	Rising Tide Foundation for Clinical Cancer Research	not specified	For clinical cancer research. Two areas of focus: - Improved Patient Outcomes - Science of Prevention and Detection Applications accepted on a rolling basis.	rolling
Diagnostics Accelerator: Peripheral Biomarkers Program	Alzheimer's Drug Discovery Foundation	\$500,000	For developing biomarkers for Alzheimer's disease and related dementias accessible from the periphery. Proposals addressing a range of potential clinical uses are of interest, especially tests for early screening and diagnosis, clinical trial enrichment, quantification of patient responses to therapeutics, or prediction of conversion from mild cognitive impairment to Alzheimer's disease.	rolling
Open Access Studies	International Nut and Dried Fruit Congress	\$20,000	To facilitate the transfer of knowledge and to promote the dissemination of the health benefits of nut and dried fruit consumption as widely as possible, through the payment of the Open Access charges of those articles already accepted for publication in a Scientific Journal or those articles that have been already published.	not specified
Advances in Moderate-to-Severe Atopic Dermatitis for Dermatologists	Pfizer	\$300,000	To support programs for dermatologists on new and emerging therapies for moderate-to-severe atopic dermatitis. All educational formats can be included in this RFP, but there is a particular interest in programs held in conjunction with dermatology-focused conferences such as the AAD Annual Meeting.	7/6/2020
Incorporating Biosimilar Treatment Options in Solid Tumor Education Programs	Pfizer	\$250,000	To support education programs that advance the integration of biosimilars as standard of care in certain cancer types.	7/7/2020

Biological Sciences, Medicine & Engineering				
Program	Funder	Amount	Description	Deadline
Science of the Patient Grants	American Association for Cancer Research Mark Foundation for Cancer Research	\$750,000	For novel research aimed at understanding the influence of the biology of the host (i.e., patient) on the genesis, development, treatment, and survivorship of cancer. Successful projects should emphasize the interplay of host physiological systems with the tumor and/or tumor microenvironment.	7/13/2020
Enduring SpA Education	Pfizer	\$150,000	To support enduring online educational programs designed to enhance healthcare practitioner knowledge and understanding of the etiology, diagnosis, treatment, and management of patients with axial spondyloarthritis and/or psoriatic arthritis in clinical practice.	7/13/2020
Addressing Health Disparities in Inflammatory Bowel Disease	Pfizer	\$350,000	To support quality/process improvement projects and/or educational interventions into multi-disciplinary health services approaches for the improved management of health maintenance and vaccine administration in IBD patients who are part of a medically underserved population (patients who have experienced health and/or system disparities secondary to social determinants of health).	7/13/2020

Biological Sciences, Medicine & Engineering				
Program	Funder	Amount	Description	Deadline
Farmers Advocating For Organic	Organic Valley	\$50,000	For research, education and advocacy projects that advance FAFO's mission: to protect and promote the organic industry and the livelihood of organic farmers. Currently prioritizing projects that focus on: <ul style="list-style-type: none"> - Projects that benefit family farmers who produce organic dairy, eggs, meat, produce, and grain/forage; - Projects that focus on organic soil health and biology; - Projects that strengthen CROPP Cooperative. 	8/1/2020
Career Development Award in Breast Cancer	Conquer Cancer Foundation	\$200,000	For clinical investigators, who have received their initial faculty appointment, as they work to establish an independent clinical breast cancer research program. This research must have a patient-oriented focus, including a clinical research study and/or translational research involving human subjects. Must be in the first to third year of a full-time primary faculty appointment in a clinical department.	8/5/2020
Health Effects of Air Pollution	Health Effects Institute	\$800,000	DEADLINE EXTENDED For research on novel and important aspects of the health effects of air pollutants outside HEI's major RFAs. Particular interest in the following topics: <ul style="list-style-type: none"> - Accountability or effectiveness of air quality regulations; - Strengthening causal interpretation of evidence from existing cohorts; and - Contributions of wildland and agricultural burning to air quality and health. Preliminary applications are due April 21, 2020. Invited full applications are due September 9, 2020.	8/19/2020
Alliance Scholar Awards	Alliance for Clinical Trials in Oncology Foundation	\$80,000	Cancer research. Exclusively for oncology junior faculty at Alliance institutions within five (5) years of training (rank below Associate Professor).	8/31/2020

Biological Sciences, Medicine & Engineering				
Program	Funder	Amount	Description	Deadline
Catalyst Research Grant		\$50,000	Seed grants to help establish a novel and promising line of eczema research, and gather a preliminary, yet meaningful body of data to carry this area of study forward. Proposals should address at least one of the following research priorities: <ul style="list-style-type: none"> - Cutting Edge Basic & Translational Science; - Eczema Heterogeneity: Novel Insights; - Innovations in Clinical Practice & Care; - Understanding & Alleviating Disease Burden; - Eczema Prevention. Assistant Professors (or equivalent) without current or previous NIH R funding as a Senior or Co-PI, Post-doctoral fellows, Medical Residents or Fellows, Research Associates, and Nurse Practitioners.	8/31/2020
Eczema Champion Research Grant	National Eczema Association	\$75,000	For highly innovative, cutting-edge investigations related to eczema.	8/31/2020
Smith Conservation Research Fellowship	Society for Conservation Biology Cedar Tree Foundation	\$99,000	For early-career scientists to improve and expand their research skills while directing their efforts towards problems of pressing conservation concern for the United States. Individuals who want to better link conservation science and theory with policy and management are encouraged to apply. Must have completed doctorate within the past five years or by the time the award is made.	9/4/2020
Clinical Investigator Career Development Award	Lymphoma Research Foundation	\$225,000	For hypothesis-driven clinical research in lymphoma. Must be clinical physicians in an ACGME-accredited specialty (e.g., hematology/oncology, pediatrics, pathology, dermatology, radiation oncology). Must be advanced fellow or junior faculty member with at least 2 years of fellowship or postdoctoral training and no greater than 5 years of experience beyond completion of fellowship or post doctoral training (the five year limit may be non-sequential) at the start of the award period (March 1, 2021). Persons with non-traditional career tracks are encouraged to apply. They should have participated in developing new therapeutics and/or diagnostic tools for lymphoma.	9/9/2020

Biological Sciences, Medicine & Engineering				
Program	Funder	Amount	Description	Deadline
Phased Large Awards for Comparative Effectiveness Research - Cycle 3	Patient-Centered Outcomes Research Institute (PCORI)	\$22,000,000	For high-quality comparative effectiveness research projects that will examine a critical patient-centered research question that is also relevant to decision makers and other stakeholders. Investigators should propose an individual-level or cluster randomized controlled trial of significant scale and scope, requiring funding in excess of \$10 million in direct costs. The proposed trials should address important decisional dilemmas that require important new evidence about the comparative effectiveness of available interventions. Proposed studies should compare interventions that already have established evidence of efficacy or are in widespread use. Clinical interventions (such as medications, diagnostic tests, or procedures) and delivery system interventions are appropriate for study.	9/9/2020
Lawrence M. Brass, MD Stroke Research Award	American Heart Association	\$150,000	To support a training award for an early-career investigator interested in embarking on a career in stroke research related to vascular neurology, stroke and neurocritical care. For introductory pilot studies that will guide future strategies for reducing cardiovascular and/or cerebrovascular disease. The science focus includes all population research broadly related to cardiovascular and/or cerebrovascular disease.	9/10/2020
New Investigator Grant	Scleroderma Foundation	\$150,000	The Scleroderma Foundation seeks applications from promising new investigators who hold faculty or equivalent positions and who wish to pursue a career in research related to scleroderma. Applicants must have a doctoral degree in Medicine, Osteopathy, Veterinary Medicine or one of the sciences; and must have completed a postdoctoral fellowship by the grant award date. Applicants who have been a principal investigator on grants from the Scleroderma Foundation or other national, private or government agencies other than fellowship grants are not eligible for this award.	9/15/2020
Lung Cancer Research Award	American Lung Association	not specified	For cardiothoracic surgeons, pulmonologists, or research or physician scientists who are seeking initial support and recognition for their original research project.	9/15/2020

Biological Sciences, Medicine & Engineering				
Program	Funder	Amount	Description	Deadline
Established Investigator Grant	Scleroderma Foundation	\$150,000	For pilot studies to obtain preliminary data dealing with a highly innovative and/or highly relevant theme related to scleroderma. Must have completed a postdoctoral fellowship; and have been principal investigator on grants from the Scleroderma Foundation or other national, private or government agencies.	9/15/2020
Daland Fellowships in Clinical Investigation	American Philosophical Society	\$80,000	For full-time, patient-oriented research in internal medicine, neurology, pediatrics, psychiatry, and surgery. For people who have held an M.D. or M.D./Ph.D. for less than eight years.	9/16/2020
Research Grants	Amyloidosis Foundation	\$50,000	For junior research scientists whose research targets the challenges in the field of amyloidosis. Must be within 10 years of completion of post-doctoral studies or clinical fellowship.	9/21/2020
Wiley Prize in Biomedical Sciences	Wiley Foundation	\$50,000	Recognizes breakthrough research in pure or applied life-science research that is distinguished by its excellence, originality, and impact on our understanding of biological systems and processes. For a specific contribution or series of contributions that demonstrate the nominee's significant leadership in the development of research concepts or their clinical application. Particular emphasis will be placed on research which champions novel approaches and challenges accepted thinking in the biomedical sciences.	9/30/2020

Graduate/Postdoctoral				
Program	Funder	Amount	Description	Deadline
Liquid Crystal Research Awards	Facebook	\$5,000	To develop advanced liquid-crystal optics and display technologies and to integrate them with existing and emerging AR/VR optical and display solutions. The aim is to provide better user experience, enable breakthroughs in the AR/VR optical design space, and help pave the way to AR glasses and next-generation VR headsets.	7/1/2020
Civil Society Scholar Awards	Open Society Foundations	\$15,000	<p>For non-U.S. doctoral students studying abroad and non-U.S. university faculty teaching at home to undertake academic projects that will enrich socially-engaged research and critical scholarship in their home country or region. Must be citizens of specific countries.</p> <p>Any field of the social sciences and humanities, but will prioritize research which specifically addresses pressing societal issues within the following themes, broadly defined:</p> <ul style="list-style-type: none"> - defense against rising authoritarianism; - sustainable development, climate action, and mitigating the effects of climate change; - economic justice and worker rights; - information democracy; - addressing the impact of the COVID-19 pandemic on an applicant's home country or region. 	7/22/2020

Graduate/Postdoctoral				
Program	Funder	Amount	Description	Deadline
Catalyst Research Grant	National Eczema Association	\$50,000	Seed grants to help establish a novel and promising line of eczema research, and gather a preliminary, yet meaningful body of data to carry this area of study forward. Proposals should address at least one of the following research priorities: <ul style="list-style-type: none"> - Cutting Edge Basic & Translational Science; - Eczema Heterogeneity: Novel Insights; - Innovations in Clinical Practice & Care; - Understanding & Alleviating Disease Burden; - Eczema Prevention. Assistant Professors (or equivalent) without current or previous NIH R funding as a Senior or Co-PI, Post-doctoral fellows, Medical Residents or Fellows, Research Associates, and Nurse Practitioners.	8/31/2020
Smith Conservation Research Fellowship	Society for Conservation Biology Cedar Tree Foundation	\$99,000	For early-career scientists to improve and expand their research skills while directing their efforts towards problems of pressing conservation concern for the United States. Individuals who want to better link conservation science and theory with policy and management are encouraged to apply. Must have completed doctorate within the past five years or by the time the award is made.	9/4/2020
Christine Mirzayan Science & Technology Policy Graduate Fellowship	National Academies of Sciences Engineering and Medicine	\$9,250	For early-career individuals to spend 12 weeks at the Academies in Washington, D.C., learning about science and technology policy and the role that scientists and engineers play in advising the nation. Areas of study may include social/behavioral sciences, health and medicine, physical or biological sciences, engineering, law/business/public administration, or relevant interdisciplinary fields. Graduate and professional school students and those who have completed graduate studies within the last five years.	9/4/2020

Graduate/Postdoctoral				
Program	Funder	Amount	Description	Deadline
Arnold O. Beckman Postdoctoral Fellowship	Arnold and Mabel Beckman Foundation	\$180,000	For advanced research within the core areas of fundamental chemistry or the development and build of chemical instrumentation. Research must be innovative in method, speed or process, or represent new instrument technology. Graduate student scheduled to receive PhD in the chemical sciences by May 1, 2020; or current PhD with no more than 12 months cumulative postdoctoral research experience. Two tracks: 1) Chemical Sciences: chemical physics, chemical engineering, and chemistry of materials research; 2) Chemical Instrumentation: to conceptualize, develop and build instrumentation suitable to advanced research in chemistry, chemical physics, chemical engineering, and chemistry of materials science.	9/4/2020
Clinical Investigator Career Development Award	Lymphoma Research Foundation	\$225,000	For hypothesis-driven clinical research in lymphoma. Must be clinical physicians in an ACGME-accredited specialty (e.g., hematology/oncology, pediatrics, pathology, dermatology, radiation oncology). Must be advanced fellow or junior faculty member with at least 2 years of fellowship or postdoctoral training and no greater than 5 years of experience beyond completion of fellowship or postdoctoral training (the five year limit may be non-sequential) at the start of the award period (March 1, 2021). Persons with non-traditional career tracks are encouraged to apply. They should have participated in developing new therapeutics and/or diagnostic tools for lymphoma.	9/9/2020

Graduate/Postdoctoral				
Program	Funder	Amount	Description	Deadline
AHA Predoctoral Fellowship	American Heart Association	\$63,040	To enhance the integrated research and clinical training of promising students who are matriculated in pre-doctoral or clinical health professional degree training programs and who intend careers as scientists, physician-scientists or other clinician-scientists, or related careers aimed at improving global cardiovascular health. Basic, clinical, behavioral, translational and population research; bioengineering/biotechnology and public health problems. All academic disciplines and all health-related professions. Clinical, translational, population, behavioral, and basic scientists are encouraged to apply. Women, underrepresented groups in the sciences, and those who have experienced varied and non-traditional career trajectories are especially encouraged to apply.	9/9/2020
Postdoctoral Fellowship	Lymphoma Research Foundation	\$105,000	For advanced fellows or postdoctoral researchers in laboratory or clinic- based research with results and conclusions relevant to the treatment, diagnosis or prevention of Hodgkin and/or non-Hodgkin lymphoma, including chronic lymphocytic leukemia. Areas of research may include, but are not limited to: etiology, immunology, genetics, therapies and transplantation. Must hold an MD, PhD, or equivalent degree. MD Applicants must have completed at least two years of fellowship work by start of the award. Must not have completed more than five years of fellowship or postdoctoral work. Must not be appointed to faculty position prior to March 1, 2021.	9/9/2020
Lawrence M. Brass, MD Stroke Research Award	American Heart Association	\$150,000	To support a training award for an early-career investigator interested in embarking on a career in stroke research related to vascular neurology, stroke and neurocritical care.
