Strategic Response				
Program	Funder	Amount	Description	Deadline
COVID-19, Smoking, and Nicotine Research	Foundation for a Smoke-free World	\$500,000	<p>For research at the nexus of COVID-19, smoking, and nicotine that will require significant collaboration and research efforts with outside experts and organizations. The selected organization(s) will implement a range of projects relevant to the global pandemic, including well-designed and comprehensive pre-clinical, clinical, and epidemiological studies, to better understand the associations between smoking and / or nicotine use, and COVID-19 infection and outcomes.</p> <ul style="list-style-type: none"> - Scoping/pre-clinical studies: up to \$150,000 - Epidemiological studies: up to \$250,000 - Clinical studies: up to \$500,000 	12/15/20

Limited Application				
Program	Funder	Amount	Description	Deadlines
Moore Inventor Fellows	Gordon and Betty Moore Foundation	\$675,000	<p>To support inventions at an early stage that could lead to proof-of-concept work on an invention or advance an existing prototype that tackles an important problem. Invention should advance scientific research, environmental conservation, or patient care. Solicited fields include, but are not limited to: environmental science and conservation, remote sensing, artificial intelligence, big data, climatology, emerging infectious diseases, oceanography, biology, engineering, physics, chemistry, materials science, neuroscience, and public health.</p> <p>Must be faculty, research scientist, postdoc or other full-time staff who can receive funding through Dartmouth. Must be no more than ten years past receiving the terminal advanced degree in their field (M.S., Ph.D. or M.D.).</p> <p>LIMITED SUBMISSION -- INTERNAL APPLICATION REQUIRED. Dartmouth may submit two nominations. To apply for this opportunity, email the following to limitedfunding@dartmouth.edu: one-page description of your project idea; total amount of your funding request; current CV. Use "Moore Inventors" as the email subject line.</p> <p>DEADLINES November 2: Internal submission by prospective nominees November 16: External submission of basic information on selected nominees December 14: External submission of final applications</p>	<p>Internal deadline: 11/02/20</p> <p>External deadline: 11/16/20</p>

Cross-cutting/Multi-disciplinary				
Program	Funder	Amount	Description	Deadline
Good Neighbor Citizenship Company Grants	State Farm	not specified	Funding areas: - Safety (auto and roadway safety, home safety and fire prevention, disaster preparedness, disaster recovery); - Community Development (affordable housing, first time homeowners, neighborhood revitalization, financial literacy, job training, and small business development); - Education (workforce skills training, service-learning for students, teacher development).	10/31/20
Science of Purpose Funding Initiative	John Templeton Foundation	not specified	To identify and fund the development of novel theoretical, philosophical, or scientific concepts useful for advancing the study of goal-directed, goal-seeking, or goal-suited phenomena in nature.	10/31/20
Grand Challenges for Human Flourishing	Templeton World Charity Foundation	not specified	Call for ideas for scientific research on human flourishing and to translate related discoveries into practical tools. Over the next five years, the Foundation will spend \$40,000,000 on a range of projects across three distinct stages: discovery, development, and launch. Priority will go to interdisciplinary scientific research on humanity's cognitive, affective, social, and spiritual well-being.	11/11/20
Friedrich Wilhelm Bessel Research Award	Alexander von Humboldt Foundation	\$52,500	For research collaboration with specialist colleagues in Germany. Must be nominated by a German academic. Must have received doctoral degree within the past 18 years. Nominees may be from any discipline. Priority for female researchers. Applications accepted on a rolling basis.	rolling

Cross-cutting/Multi-disciplinary				
Program	Funder	Amount	Description	Deadline
Travel Subsidies and Stipends	Fritz Thyssen Foundation	not specified	<p>To defray travel expenses that are directly related to a project in the humanities, social science or biomedical fields. Areas of interest:</p> <ul style="list-style-type: none"> - History, Language & Culture - The interdisciplinary field "Image-Sound-Language" - State, Economy and Society - Medicine and the Natural Sciences <p>Projects must have a clear connection to the German research system--either at a personal level through German scientists working on the project, at an institutional level through non-German scientists being affiliated to German research institutes or through studies on topics related thematically to German research interests.</p>	rolling
Humboldt Research Fellowship for Experienced Researchers	Alexander von Humboldt Foundation	not specified	<p>For junior faculty to conduct hosted research at a German institution. Stipend is \$3,700 per month. Must have received doctorate within the last twelve years; have own research profile; and be at least assistant professor or junior research group leader, or have a record of several years of independent academic work. All disciplines eligible. Applications accepted on a rolling basis.</p>	rolling

Arts & Humanities				
Program	Funder	Amount	Description	Deadline
New England States Touring Grant	New England Foundation for the Arts	\$10,000	NEST (New England States Touring) funds New England-based presenters to bring in performing artists from other New England, the United States, or abroad.	11/16/20
Cornerstone: Learning for Living	The Teagle Foundation National Endowment for the Humanities	\$350,000	To reinvigorate the role of the humanities in general education, and in doing so, expose a broad array of students to the power of the humanities; help students of all backgrounds build a sense of belonging and community; strengthen the coherence and cohesiveness of general education; and increase teaching opportunities for humanities faculty. Grant awards up to \$25,000 over 6-12 months for planning and up to \$350,000 over 24 months for implementation. Deadline is for concept papers.	12/01/20
Mellon Emerging Faculty Leaders Award	Andrew W. Mellon Foundation Woodrow Wilson National Fellowship Foundation	\$17,500	For pre-tenure faculty whose service and leadership activities address and ameliorate underrepresentation on campus and in their field. Must have passed midpoint tenure review but not have submitted the dossier or be within an academic year of tenure review. Eligible disciplines: any field of the humanities or social sciences related to the study of culture, equity, inclusion, civil rights and education in the Americas.	12/02/20
Grants	Metropolitan Center for Far Eastern Art Studies	not specified	For advanced scholars of Japanese studies. Grant programs include: - Library Grants (purchase of materials); - Institutional Projects (exhibitions, publications, symposia, etc.); - Advanced Research and Publication by Individual Scholars (travel costs, acquisition of photographs and other materials).	12/31/20

Arts & Humanities

Program	Funder	Amount	Description	Deadline
Responsive Grants in American Art	Henry Luce Foundation	not specified	For collection-based projects that advance the understanding and presentation of art of the United States. Eligible collection areas include paintings, sculpture, prints, drawings, photographs, decorative arts, naïve and outsider art, traditional and studio crafts, architecture, design, and all aspects of Native American arts. Interested in digitization projects in tandem with efforts to place works of art on view.	rolling
Research Grant	International Association of Sound and Audiovisual Archives	\$2,330	For research and publication on audiovisual archiving. Eligibility: IASA members. Applications accepted on a rolling basis.	rolling

Social Sciences & Business/Entrepreneurship

Program	Funder	Amount	Description	Deadline
Conference Grants	Spencer Foundation	\$50,000	For small research conferences, focused symposia, or other forms of convenings around important issues in education. Applicants encouraged to think expansively about how convenings can expand the substantive work and impact of educational research on advancing racial equity.	10/23/20
Native Voices Endowment Grants	Endangered Language Fund	\$30,000	For study, documentation and revitalization of the languages of the Native American tribes that came in contact with the Lewis and Clark Expedition between 1803-1806. Applicants must belong to one of those tribes (see web site for list). Scholarships for academic work in linguistics or a Native language, or for Master/Apprentice programs are also available for tribal members. Up to \$10,000 a year for up to three years.	11/06/20
Leadership in Government Fellowship	Open Society Foundations	\$130,000	For former senior-level government staff in the United States who have recently left public service, to undertake projects that advance policy ideas and insert their unique perspectives about making change from within government into the public dialogue. Projects must relate to one or more these areas: <ul style="list-style-type: none"> - Democratic Practice - Early Childhood and Education - Economic Equity and Justice - Equality and Antidiscrimination - Health and Rights - Higher Education - Human Rights Movements and Institutions - Information and Digital Rights - Journalism - Justice Reform and the Rule of Law 	11/23/20

Social Sciences & Business/Entrepreneurship

Program	Funder	Amount	Description	Deadline
Mellon Emerging Faculty Leaders Award	Andrew W. Mellon Foundation Woodrow Wilson National Fellowship Foundation	\$17,500	For pre-tenure faculty whose service and leadership activities address and ameliorate underrepresentation on campus and in their field. Must have passed midpoint tenure review but not have submitted the dossier or be within an academic year of tenure review. Eligible disciplines: any field of the humanities or social sciences related to the study of culture, equity, inclusion, civil rights and education in the Americas.	12/02/20
Neuroscience Prize	Gruber Foundation	\$500,000	For distinguished research in the field of the brain, spinal cord, or peripheral nervous system. Nominations invited from anyone who has conducted highly distinguished research in the field of the brain, spinal cord, or peripheral nervous system. No self-nominations.	12/15/20

Physical Sciences, Mathematics & Engineering				
Program	Funder	Amount	Description	Deadline
IDEA Scholar Program	Simons Foundation	not specified	The Inclusion, Diversity, Equity & Advocacy (IDEA) Scholar program invites scientists interested in increasing diversity and improving equity and inclusion in the sciences for extended visits at the Foundation's intramural computational research division, the Flatiron Institute. Activities may include working on scientific projects, starting new scientific collaborations, mentoring junior scientists, interacting with Flatiron scientific staff, giving talks and seminars, and organizing or participating in workshops and career development events. Travel and local expenses are covered. A supplement for caregiving responsibilities may be requested. Must be assistant professor or higher; need not be a computational scientist. The foundation regards diversity as having many dimensions, including but not limited to gender and gender identity, sexual orientation, race, faith, ethnicity, cultural heritage, disability and socioeconomic background. Visiting scholars can engage with any of these dimensions or suggest others.	10/15/20
Centennial Fellowships	American Mathematical Society	\$50,000	For outstanding mathematicians to help further their careers in research. Preference for candidates without extensive past fellowship support. Doctoral degree must have been received between September 1, 2009 and September 1, 2018. Exceptions considered.	12/01/20
Cosmology Prize	Gruber Foundation	\$500,000	To a leading cosmologist, astronomer, astrophysicist or scientific philosopher for theoretical, analytical, conceptual or observational discoveries leading to fundamental advances in understanding of the universe. Nominations invited from the fields of astronomy, cosmology, mathematics, and the philosophy of science. No self-nominations.	12/15/20

Physical Sciences, Mathematics & Engineering				
Program	Funder	Amount	Description	Deadline
Useful Things	Comcast	\$150,000	<p>For work that contributes to the Internet in novel and useful ways, helping advance the growth of the Internet and the Internet Community. Ideas, technologies or approaches that are useful and valuable to the Internet (e.g., a conference or a hardware invention).</p> <p>Funds are allocated at the beginning of the calendar year and are available until the money runs out. Applications accepted on a rolling basis.</p>	rolling
Open Source Development Grants	Comcast	\$150,000	<p>For new or continued development of open-source software in areas of interest to Comcast or of benefit to the Internet and broadband industries. This can fund a range of development, from adding specific features to an existing open source project, to general support of an open source project in which Comcast is interested. Funds are allocated at the beginning of the calendar year and are available until the money runs out. Applications accepted on a rolling basis.</p>	rolling

Physical Sciences, Mathematics & Engineering				
Program	Funder	Amount	Description	Deadline
General and Targeted Research Grants	Comcast	\$150,000	<p>For research on things that make the Internet run or that run on the Internet. Areas of interest include, but are not limited to:</p> <ul style="list-style-type: none"> - Network and User Security; - IoT; - All things Video including Caching, Transport, Encoding, Distribution and Production; - Content Delivery Networks; - User Authentication; - SPAM Protection; - DNS Operations and Management; - Broadband; - Routing; - Home Security; - Network Optimization and Measurement. <p>Applicants are encouraged to consider grants that may have a cooperative focus, whereby researchers can be matched with a Comcast engineering liaison who will be involved with the research.</p> <p>Funds are allocated at the beginning of the calendar year and are available until the money runs out. Applications accepted on a rolling basis.</p>	rolling

Biological Sciences, Medicine & Engineering				
Program	Funder	Amount	Description	Deadline
Innovator Awards	Kenneth Rainin Foundation	\$200,000	For research that is potentially transformative to diagnosing, treating and curing inflammatory bowel disease. Deadline is for a letter of inquiry.	10/19/20
Skincare of the Future QuickFire Challenge	Johnson & Johnson	\$50,000	For pore minimizing and anti-aging potential solutions in consumer health, specifically: <ul style="list-style-type: none"> - Newly formulated products - Consumer devices - Skin health diagnostics - Novel skincare solutions (i.e., non-topical, ingestibles) Awardees will receive up to \$50,000 in grant funding, one year of residency at JLABS @ Shanghai, mentorship from the Johnson & Johnson Family of Companies, and the chance to launch their product through Alibaba's Tmall e-commerce platform in China. Ideas must be on the path to commercialization by June 2021. Must demonstrate the ability and/or intention to operate within China and sell through TMALL channels.	10/23/20
Identifying and Diagnosing polyarticular Juvenile Idiopathic Arthritis (pJIA)	Pfizer	\$200,000	To educate health care providers who may encounter and/or diagnose, refer, or treat pJIA. Not for clinical research projects or projects evaluating the efficacy of therapeutic or diagnostic agents.	10/23/20
NSCLC Oncogene Driver Considerations in Testing & Treatment	Pfizer	\$250,000	For projects that focus on increasing understanding within the oncology community of biomarker testing and treatment decision-making in advanced or metastatic non-small cell lung cancer.	10/29/20
Needs Assessment – Early Therapy Management with CDK 4/6 Inhibitors in Metastatic Breast Cancer	Pfizer	\$200,000	For understanding optimal ways to manage side effect profiles in the first 90 days of CDK 4/6i treatment that help patients appropriately stay on treatment and obtain maximum therapeutic benefit.	10/29/20

Biological Sciences, Medicine & Engineering				
Program	Funder	Amount	Description	Deadline
Early Career Investigator in Marine Microbial Ecology and Evolution Awards	Simons Foundation	\$666,000	For understanding marine microbial ecology and evolution through experiments, modeling or theory (excluding microbiomes of animals or plants). Must have carried out research in a tenure-track position for at least one year and no more than eight years; and must currently hold a tenure-track or tenured position. Must be the principal investigator or co-PI currently or within the past year on a research grant on microbial ecology and/or microbial evolution from a national governmental agency or major foundation. Letters of reference are due October 30. Letters of intent are due November 5.	10/30/20
Collaborative Initiative for Paediatric HIV Education and Research (CIPHER)	International AIDS Society	\$150,000	For research projects with the potential to address unanswered critical research questions in order to inform policy change and ensure better outcomes in infants, children and adolescents living with and affected by HIV in resource-limited settings. Must be less than 10 years from terminal degree. Must be first time as primary PI, and not have received a non-training research grant exceeding \$30,000.	10/30/20
NIH K-Unfunded Award	Cystic Fibrosis Foundation	not specified	To support excellent cystic fibrosis-related research projects--by applicants who intend to pursue a career in CF-related research--that have been submitted to and approved by the NIH but cannot be supported by available funds.	10/31/20
Aquatic Symbiosis Genomics Project	Wellcome Sanger Institute Gordon and Betty Moore Foundation	not specified	Invitation to propose additional organisms for genomic sequencing in the ongoing Aquatic Symbiosis Genomics project, which aims to generate high quality genome sequences for symbiotic organisms in marine and freshwater environments, where at least one partner is a microbe. The project is seeking new collaborators who will lead themed research hubs.	11/01/20

Biological Sciences, Medicine & Engineering				
Program	Funder	Amount	Description	Deadline
Metastatic Breast Cancer Patient Education: Navigating Treatment & Decision Making	Pfizer	\$100,000	For educating patients with HR+/HER2- metastatic breast cancer and their caregivers on how to: <ul style="list-style-type: none"> - access up-to-date, accurate and credible information related to their diagnosis and treatment options (including clinical trials) from trusted resources such as American Cancer Society, National Cancer Institute, National Comprehensive Cancer Network Patient Guidelines, Patient Advocacy Groups, etc. - optimize interactions with their healthcare team - plan for and engage in shared decision making with their healthcare providers, to ensure inclusion of the patient's own goals 	11/02/20
Biosimilars in Hematologic Malignancies & Supportive Care	Pfizer	\$200,000	To support the safe and effective use of biologic drugs in patients with hematologic malignancies.	11/02/20
Cancers of the Esophagus and Stomach	DeGregorio Family Foundation	\$250,000	For collaborative research on the pathogenesis, early diagnosis, and treatment of upper gastrointestinal malignancies. Translational and bench research; identification of potential novel therapeutic targets; development and evaluation of novel biomarkers for early diagnosis and treatment. Pre-clinical research, basic mechanistic studies, genomic/epigenomic studies, as well as epidemiologic studies.	11/03/20

Biological Sciences, Medicine & Engineering				
Program	Funder	Amount	Description	Deadline
Kornfeld Scholars Program	National Palliative Care Research Center	\$198,000	Career-development awards to allow junior faculty to have the protected time required to develop and conduct the pilot research necessary to be competitive for larger, extramurally funded awards. Proposed research must focus on improving care for patients with serious illness and their families in one of these areas: - pain and symptom management; - communication; - models of care for palliative care delivery. No more than five years beyond post-doctoral or post-graduate fellowship training (exceptions allowed).	11/06/20
Health Policy Fellows	Robert Wood Johnson Foundation	\$165,000	Full-time, one-year health policy fellowships with government agencies in Washington, D.C. For midcareer health professionals, behavioral/social scientists, and others who have a record of exceptional professional accomplishment and are recognized experts within their profession, community, institution, or organization.	11/06/20
Research Scholar Award	American Gastroenterological Association	\$300,000	For early-career faculty (investigator, instructor, research associate or equivalent) working toward an independent career in digestive disease research. Basic, translational, or clinical projects. Eligibility: Ph.D. awarded or clinical training completed within last seven years. Exceptions considered.	11/09/20
Climate Resilience	Foundation for Food and Agriculture Research	\$1,000,000	For research that addresses the challenge of rising global temperatures by increasing the basal or acquired thermotolerance of crop plants. Must be applicable to one or more of the following crop species: maize, rice, sorghum, millet, wheat, sweet potato, cassava, banana, yam, common bean, cowpea, chickpea or groundnut. Will consider research in other plants if transferable to the preferred crops.	11/11/20
In-cycle Grant	Alpha-1 Foundation	\$200,000	For Alpha-1 Antitrypsin Deficiency research involving basic science; translational and clinical research; and ethical, legal and social issues. Grant programs: bridge, pilot and feasibility, postdoctoral, research, meeting sponsorship, travel.	11/13/20

Biological Sciences, Medicine & Engineering				
Program	Funder	Amount	Description	Deadline
Clinical Scientist Development Award	Doris Duke Charitable Foundation	\$495,000	For physician scientists at the Instructor or assistant professor rank to: 1) conduct an outstanding clinical research project with high significance to improve human health, 2) enable research time protection to ease the tension between research and clinical responsibilities, and 3) facilitate development of strong mentorship relations in a supportive institutional environment. Must have been appointed to first post-training, full-time Instructor or assistant professor faculty position between December 1, 2016, and December 1, 2019. Exceptions considered.	11/13/20
Clinical Oncology Research (CORE) Training Fellowships	American Association for Cancer Research	\$100,000	To provide an effective industry-academic clinical practicum with a unique training opportunity to develop academic clinicians in drug development. Fellow to work on site at the facility of one of AACR's pharmaceutical industry partners. Time to be spent at the industry site over this one-year period can be flexible.	11/30/20
Dan David Prize	Dan David Foundation	\$1,000,000	For a singular achievement or a series of achievements that make a unique, profound contribution to humanity, on a global scale, in one of these fields: - History of Health and Medicine - Public Health - Molecular Medicine No self-nominations.	11/30/20

Biological Sciences, Medicine & Engineering				
Program	Funder	Amount	Description	Deadline
Faculty Research Fellowships	American College of Surgeons	\$80,000	For surgeons entering academic careers in surgery or a surgical specialty. The fellowship is to assist a surgeon in the establishment of their research program under mentorship with the goal of transitioning to becoming an independent investigator. The fellowship is open to Fellows or Associate Fellows of the American College of Surgeons who have: (1) completed the chief residency year or accredited fellowship training within the preceding five years, not including time off for maternity leave, military deployment, or medical leave; and (2) received a full-time faculty appointment in a department of surgery or a surgical specialty at a medical school accredited by the Liaison Committee on Medical Education in the United States. Preference to applicants who directly enter academic surgery following residency or fellowship.	11/30/20
Scientific Scholar Awards	Rivkin Center for Ovarian Cancer	\$120,000	Potential candidates will have an MD, PhD, or equivalent degree with career goals focused on ovarian cancer. Clinicians will have completed their residency. Candidates should be at the post-doc/fellow, instructor, research assistant, or assistant professor level with no more than 3-4 years in any of these positions. Established, outstanding scientists without prior focus in ovarian cancer but looking to focus in this disease area are also encouraged to apply.	12/01/20
Myocarditis, Heart Failure and Sudden Death Research Grant Program	Myocarditis Foundation	\$40,000	For innovative basic, clinical or translational research relevant to the cause or treatment of myocarditis. Must be within 10 years of doctoral degree. Eligibility: no more than 10 years beyond M.D. or Ph.D.	12/01/20
Pilot Study Awards	Rivkin Center for Ovarian Cancer	\$75,000	For new avenues of ovarian cancer research	12/01/20

Biological Sciences, Medicine & Engineering				
Program	Funder	Amount	Description	Deadline
Research Career Development Awards	Triological Society	\$40,000	Research training support for any research questions relevant to the specialty of otolaryngology, head and neck surgery. For surgeons who are medical school faculty at the Assistant or Associate Professor level. Must have completed all training (primary residency and/or fellowship) within the past seven years. No previous NIH K or R award or equivalent. Must be sponsored by chair of division or department.	12/01/20
Genetics Prize	Gruber Foundation	\$500,000	For original discoveries in the fields of genetic function, regulation, transmission, or variation or in genomic organization. Nominations may be submitted by individuals, organizations, and institutions that are active in or have an appreciation for contemporary genetic research or problems. No self-nominations.	12/15/20
RUNX1 Early Career Investigator Grant	Alex's Lemonade Stand Foundation	\$180,000	For research in strategies leading to the development of therapies to prevent the transition from pre-leukemia to leukemia for patients with RUNX1-FPD. Must be within five years of first faculty appointment as an Assistant Professor or equivalent.	12/16/20
NIH K-Boost Award	Cystic Fibrosis Foundation	not specified	To provide supplemental funding to qualified and promising scientists early in their faculty careers who have obtained K funding from the National Institutes of Health in areas that reflect the Cystic Fibrosis Foundation's research priorities.	12/31/20
Cancer Research	Rising Tide Foundation for Clinical Cancer Research	not specified	For truly innovative, unique, patient-centered research that has the potential to positively impact the lives of cancer patients at the earliest opportunity. Letters of inquiry accepted on a rolling basis.	rolling

Biological Sciences, Medicine & Engineering				
Program	Funder	Amount	Description	Deadline
General Research	Pfizer	not specified	For research that does not include the study of a Pfizer asset, including health services research unrelated to a Pfizer asset, registry development and/or queries unrelated to a Pfizer asset, and outcomes research unrelated to a Pfizer asset. This includes observational studies, such as epidemiology studies and certain outcomes research studies where the primary focus is the scientific understanding of disease as well as other types of independent research on disease states. Applications accepted on a rolling basis.	rolling
Investigator Sponsored Research	Pfizer	not specified	For pre-clinical and clinical studies (including interventional and non-interventional), that involve a Pfizer asset (e.g., commercial drug, investigational drug, pure compound). Applications accepted on a rolling basis.	rolling
IBD Ventures	Crohn's & Colitis Foundation	\$500,000	To accelerate the development of products that aim to improve the quality of life of patients with inflammatory bowel disease. Supports product-oriented research and development. Companies and academic investigators can apply. Funding up to \$500,000 per project per year. Funded programs will also be offered accelerator resources and advising. Letters of intent accepted on a rolling basis.	rolling
Research Design & Statistical Support Grants	National Palliative Care Research Center	not specified	For investigators to employ as consultants experts in instrument design, research design, and analytic techniques specific to palliative care. Awarded applicants have the option to employ consultants who are at their own designated institution or they can utilize the services of consultants associated with the National Center for Palliative Care who are available to, and shared by, Center investigators across the country. Applications accepted on a rolling basis.	rolling

Biological Sciences, Medicine & Engineering				
Program	Funder	Amount	Description	Deadline
Infrastructure Support for Collaborative Studies	National Palliative Care Research Center	not specified	Funding to support infrastructure for collaborative palliative-care studies requiring a large number of sites. Applications accepted on a rolling basis.	rolling
Early Stage Investigator Seed Grants	Antibacterial Resistance Leadership Group	\$50,000	For research in areas related to antibacterial resistance, to allow researchers to generate preliminary data leading to additional external funding. Must be in the first five years of career. Funds can be used for access to strains contained in the ARLG Virtual Biorepository Strain Catalogue. Up to five awards will be made. Proposals considered in the order submitted.	rolling
Neuroscience Prize	Gruber Foundation	\$500,000	For distinguished research in the field of the brain, spinal cord, or peripheral nervous system. Nominations invited from anyone who has conducted highly distinguished research in the field of the brain, spinal cord, or peripheral nervous system. No self-nominations.	12/15/20

Graduate/Postdoctoral				
Program	Funder	Amount	Description	Deadline
Moore Inventor Fellows	Gordon and Betty Moore Foundation	\$675,000	<p>To support inventions at an early stage that could lead to proof-of-concept work on an invention or advance an existing prototype that tackles an important problem. Invention should advance scientific research, environmental conservation, or patient care. Solicited fields include, but are not limited to: environmental science and conservation, remote sensing, artificial intelligence, big data, climatology, emerging infectious diseases, oceanography, biology, engineering, physics, chemistry, materials science, neuroscience, and public health.</p> <p>Must be faculty, research scientist, postdoc or other full-time staff who can receive funding through Dartmouth. Must be no more than ten years past receiving the terminal advanced degree in their field (M.S., Ph.D. or M.D.).</p> <p>LIMITED SUBMISSION -- INTERNAL APPLICATION REQUIRED. Dartmouth may submit two nominations. To apply for this opportunity, email the following to limitedfunding@dartmouth.edu: one-page description of your project idea; total amount of your funding request; current CV. Use "Moore Inventors" as the email subject line.</p> <p>DEADLINES November 2: Internal submission by prospective nominees November 16: External submission of basic information on selected nominees December 14: External submission of final applications</p>	<p>Internal deadline: 11/02/20</p> <p>External deadline: 11/16/20</p>
Leonard Family Foundation Basic Cancer Research Fellowship	American Association for Cancer Research	\$120,000	For postdoctoral or clinical research fellows to establish a successful career path in cancer research. Research proposed for funding may be in any area of basic cancer research.	10/30/20

Graduate/Postdoctoral				
Program	Funder	Amount	Description	Deadline
Collaborative Initiative for Paediatric HIV Education and Research (CIPHER)	International AIDS Society	\$150,000	For research projects with the potential to address unanswered critical research questions in order to inform policy change and ensure better outcomes in infants, children and adolescents living with and affected by HIV in resource-limited settings. Must be less than 10 years from terminal degree. Must be first time as primary PI, and not have received a non-training research grant exceeding \$30,000.	10/30/20
Distinguished Scholar Fellowship	Warren Alpert Foundation	\$400,000	For scientists of exceptional creativity who have an MD or PhD degree (or both) and who have completed a minimum of three years of a post-doctoral fellowship by July 1, 2021 in the field of neurosciences and hold a post-doctoral research position at a United States medical school, research institute or academic hospital. This is a transitional postdoctoral award for recipients to enable their advance to a full-time faculty member at the Assistant Professor level or higher.	11/01/20
In-cycle Grant	Alpha-1 Foundation	\$200,000	For Alpha-1 Antitrypsin Deficiency research involving basic science; translational and clinical research; and ethical, legal and social issues. Grant programs: bridge, pilot and feasibility, postdoctoral, research, meeting sponsorship, travel.	11/13/20
Physician-Scientist Training Award	Damon Runyon Cancer Research Foundation	\$460,000	For physicians who want to pursue cancer research careers. MDs and DOs only—MD/PhDs ineligible. Must have completed residency and clinical training but not yet have an initial assistant professorship appointment. No more than three years postdoctoral laboratory research.	12/01/20
Scientific Scholar Awards	Rivkin Center for Ovarian Cancer	\$120,000	Potential candidates will have an MD, PhD, or equivalent degree with career goals focused on ovarian cancer. Clinicians will have completed their residency. Candidates should be at the post-doc/fellow, instructor, research assistant, or assistant professor level with no more than 3-4 years in any of these positions. Established, outstanding scientists without prior focus in ovarian cancer but looking to focus in this disease area are also encouraged to apply.	12/01/20

Graduate/Postdoctoral				
Program	Funder	Amount	Description	Deadline
Scholars-in-Residence Program Fellowship	New York Public Library	\$35,000	For both long-term and short-term fellowships designed to support research and writing on the history, politics, literature, and culture of the peoples of Africa and the African diaspora, as well as to promote interdisciplinary exchange among scholars and writers in residence at the Schomburg Center. Intended to support research in African diasporic studies undertaken from a humanistic perspective; projects in the social sciences, science and technology, psychology, education, and religion are eligible if they utilize a humanistic approach and contribute to humanistic knowledge.	12/01/20
Dissertation and Postdoctoral Fellowships	Ford Foundation	\$45,000	For people in research-based programs in the arts and humanities, social sciences and sciences; who can and will use diversity as a resource for enriching the education of all students. Being from an underrepresented ethnic or racial group is a positive factor for selection. PhD or ScD awarded within the last seven years. Dissertation stipend is \$28,000. Postdoctoral stipend is \$50,000.	12/10/20
Predoctoral Fellowships	Ford Foundation	\$81,000	For PhD and ScD candidates with at least three years left to complete a research-based program in the arts and humanities, social sciences or sciences.
