Strategic Response				
Program	Funder	Amount	Description	Deadline
Pandemic Response Challenge	XPRIZE Foundation	\$250,000	For the development of data-driven AI systems to predict COVID-19 infection rates and prescribe Intervention Plans that regional governments, communities, and organizations can implement to minimize harm when reopening their economies. Registration deadline is December 8. Teams have until December 22 to upload and refine their predictor models before the competition begins.	12/08/20
Future of Work	Cisco	not specified	For research proposals to participate in shaping the workplace structure needed to reduce human-to-human contact while remaining--or being more--productive. Topics of interest include: <ul style="list-style-type: none"> - Seamless integration of access devices (e.g., laptops, smartphones) - Use of new technologies (e.g., Virtual Reality) in improving human-to-human interaction - Protecting confidentiality of data across many devices - Home office technology to help easily connect and manage resources - Technologies and tools for improving online discussions and meetings - Virtual counterparts for physical interactions (e.g., hallway conversations, ad hoc meetings) 	rolling

Cross-cutting/Multi-disciplinary

Program	Funder	Amount	Description	Deadline
Technology Awards	McKnight Endowment Fund for Neuroscience	\$200,000	For research on how a new technology may be used to monitor, manipulate, analyze, or model brain function at any level, from the molecular to the entire organism. Technology may take any form, from biochemical tools to instruments to software and mathematical approaches. Not for research based primarily on existing techniques.	12/07/20
Hillman Prizes	Sidney Hillman Foundation	\$5,000	For journalists, writers and public figures who pursue investigative journalism and public policy in service of the common good. Work must have been intended for and be widely accessible to a U.S. audience. Categories: - Book - Newspaper Journalism - Magazine Journalism - Broadcast Journalism - Web Journalism - Opinion & Analysis Journalism	01/30/21
Grawemeyer Award for Ideas Improving World Order	University of Louisville	\$100,000	For views published during 2016-2020 on issues of world importance that could lead to a more just and peaceful world. Submissions will be judged according to originality, feasibility and potential impact, not by the cumulative record of the nominee. For a wide range of global concerns, including: foreign policy and its formation; the conduct of international relations or world politics; global economic issues, such as world trade and investment; resolution of regional, ethnic or racial conflicts; the proliferation of destructive technologies; global cooperation on environmental protection or other important issues; international law and organization; any combination or particular aspects of these, or any other suitable idea which could at least incrementally lead to a more just and peaceful world order.	01/31/21

Cross-cutting/Multi-disciplinary

Program	Funder	Amount	Description	Deadline
Tech for Healthcare	Cisco	not specified	For building the next-generation edge computing platforms. Topics of interest include: <ul style="list-style-type: none"> - Techniques for early detection of several acute or chronic diseases (e.g., Alzheimer's), including mental and psychological disorders (e.g., bipolar) - Sensor technologies for continuous monitoring of vitals or other bio-markers for early detection and diagnosis of diseases and issues - Privacy-preserving techniques for monitoring and prioritizing patient healthcare in hospitals and public health environments - Applications of AI/ML techniques for improving healthcare - Novel applications of smartphone sensors towards healthcare - Systems for minimizing errors and dangerous mistakes in healthcare processes - Scalable monitoring of public health protocols (e.g., mask wearing) across large campuses, cities, companies, and other settings - Systems for scalable contact tracing and other mechanisms for targeted alerts around critical health warnings and exposure notices - Protection of patient privacy especially when actively using always-on and always-connected technology - Smart and seamless healthcare facilities where information flows in a contact-less manner minimizing risks to doctors and patients - Tech for empowering people to manage their conditions through chronic care management and remote patient monitoring 	rolling

Arts & Humanities

Program	Funder	Amount	Description	Deadline
History of Art Grants Program	Samuel H. Kress Foundation	not specified	For projects that will enhance the understanding and appreciation of European art and architecture. Funded activities include: archival projects; development and dissemination of scholarly databases; documentation projects; museum exhibitions and publications; photographic campaigns; scholarly catalogues and publications; technical and scientific studies; international exchanges; professional meetings; conferences; symposia; consultations; the presentation of research; and other professional events.	12/15/20
Conservation Grants Program	Samuel H. Kress Foundation	not specified	Support for supports the professional practice of art conservation, especially as it relates to European art of the pre-modern era. For projects that create and disseminate specialized knowledge, including archival projects, development and dissemination of scholarly databases, documentation projects, exhibitions and publications focusing on art conservation, scholarly publications, and technical and scientific studies. Also funds activities that permit conservators and conservation scientists to share their expertise.	12/15/20
Grawemeyer Award in Religion	University of Louisville	\$100,000	For contributions to religious and spiritual understanding. Any work (book, address, essay, etc.) presented or published in 2015 or later. Nominations are invited from religious organizations, appropriate academic associations, religious leaders and scholars, presidents of universities or schools of religion, publishers and editors of scholarly journals. No self-nominations.	01/15/21
First Book Grant for Minority Scholars	Louisville Institute	\$40,000	For junior, non-tenured religion scholars of color to enable them to spend an entire academic year completing a major research project on an issue in North American Christianity. Eligibility: pre-tenured faculty member in a full-time, tenure-track position.	01/15/21
Translation Prize	French-American Foundation	\$10,000	For English translations of prose originally written in French; one award in fiction, one in nonfiction.	01/15/21

Arts & Humanities

Program	Funder	Amount	Description	Deadline
Summer Residency Fellowships in Giverny, France	Terra Foundation for American Art	\$6,200	Nine-week summer residency for scholars of American Art and emerging artists. Must be either: 1) visual artist with a master's degree within last five years; or 2) doctoral candidate researching American art and visual culture or its role in a context of international artistic exchange prior to 1980.	01/15/21
Native American Artist Fellowships	School for Advanced Research (SAR)	not specified	Artist-in-residence fellowships at SAR's Indian Arts Research Center for established and emerging Native American artists; Ron and Susan Dubin Native Artist Fellowship (Jun. 15–Aug. 15); Rollin and Mary Ella King Native Artist Fellowship (Sept. 1–Dec. 1); Eric and Barbara Dobkin Native Artist Fellowship for Women (Mar. 1–May 31)	01/15/21
Tyson Scholars of American Art Program	Crystal Bridges Museum of American Art	\$60,000	Residential fellowships from six weeks to nine months at the Crystal Bridges Museum of American Art in Arkansas. For scholarship that seeks to expand boundaries or traditional categories of investigation into American art and visual and material culture from the colonial period to the present. Areas of interest include art history, architecture, visual and material culture, Indigenous art, Latin American art, American studies, and contemporary art. For PhD candidates, postdocs and senior scholars from any field who are researching American art. Stipend ranges from \$15,000 to \$30,000 per semester. Applications encouraged from persons of color; Indigenous; disabled; LGBTQ; first-generation college graduates; low-income; and veterans.	01/15/21
Artist in Residence Program	Bernheim Arboretum and Research Forest	\$2,500	Residency in a rustic, natural environment for visual artists of all mediums. Residents create a site-inspired artwork, temporary installation or project as a donation to the Bernheim Foundation. Recipients are also asked to engage the public with their work and/or process. Past awardees have included sculptors, photographers, painters, printmakers, installation artists, videographers, and sound artists, as well as contemporary explorations of nature through science, sense and digital mediums.	01/18/21

Arts & Humanities

Program	Funder	Amount	Description	Deadline
Jazz Road Tours	Mid Atlantic Arts Foundation	\$15,000	For emerging and mid-career jazz artists to conduct three- to six-site tours at an array of venue types, often in rural communities and other areas traditionally underserved by the genre. Applications accepted on a rolling basis through 2022.	rolling

Social Sciences & Business/Entrepreneurship

Program	Funder	Amount	Description	Deadline
Racial Equity Special Research Grants	Spencer Foundation	\$75,000	For education research projects that will contribute to understanding and ameliorating racial inequality in education. Interest in research projects that are working to reimagine educational opportunities in a multiplicity of education systems, levels, settings, and developmental ranges and that reach beyond documenting conditions and paradigms that contribute to persistent racial inequalities.	12/15/20
Scholar Awards (neuroscience)	McKnight Endowment Fund for Neuroscience	\$225,000	For emerging neuroscientists to focus on disorders of learning and memory. Must demonstrate interest in solving important problems in relevant areas of neuroscience, including translation of basic research to clinical neuroscience. Must be in the early stages of establishing an independent laboratory and research career. Typical awardees have held faculty positions for at least one year. Eligibility: assistant professor for less than four years (exceptions considered for parental leave).	01/04/21
Research Grants	Leakey Foundation	\$25,000	For advanced doctoral students and established scientists conducting research related specifically to human origins, including paleoanthropology, genetics, primate behavior and the behavioral ecology of contemporary hunter-gatherers. Priority to exploratory phases of promising new research projects.	01/10/21
Research Grants on Reducing Inequality	William T. Grant Foundation	\$600,000	For research on programs, policies, and practices that reduce inequality in youth outcomes; and research that identifies, builds, and tests strategies to improve the use of research evidence in ways that benefit youth.	01/13/21
Improving the Use of Research Evidence	William T. Grant Foundation	\$1,000,000	For research to identify, build, and test strategies to ensure that research evidence is used in ways that benefit youth in the United States. Preference for research on improving the use of research evidence by state and local decision makers, mid-level managers, and intermediaries.	01/13/21
APN Individual Research Grants	Social Science Research Council	\$15,000	For researchers, policy analysts, and practitioners conducting field-based research on conflict and peacebuilding issues in Africa. Women strongly encouraged to apply.	02/01/21

Physical Sciences, Mathematics & Engineering

Program	Funder	Amount	Description	Deadline
Grants	PADI Foundation	\$12,000	Areas of interest: understanding aquatic environments and protection of ecosystems; sport-diving physics and physiology; hazards to humans and ecosystems related to climate change in coastal and ocean environments	01/15/21
Ethics in AI	Cisco	not specified	<p>For research surrounding ethics in AI, including but not limited to the following:</p> <ul style="list-style-type: none"> - Ensuring AI applications preserve privacy of individuals and their civil rights - Preventing AI systems from exhibiting and amplifying systemic biases - Providing a rational framework for reviewing how and why decisions are made - Ensuring AI systems (e.g., robots) maintain a healthy respect for humans - Providing guard-rails around Autonomous AI systems (e.g., self-driving cars) - Other potential ethical and societal concerns not covered by the above topics 	rolling

Physical Sciences, Mathematics & Engineering

Program	Funder	Amount	Description	Deadline
Edge Computing	Cisco	not specified	For building the next-generation edge computing platforms. Topics of interest include: <ul style="list-style-type: none"> - Managing large scale and diversity of devices - Security (e.g., ensuring tamper proof software on devices, data protection in motion and rest) - Domain-specific architectures and applications - Autonomous driving (Augmented driving, connected cars) - Manufacturing environments - Brick-and-mortar retail shopping - Other domains - Impact of 5G on edge computing - Data protection and backup - Data privacy/compliance - Performance and data management (between edge, public/private cloud instances) - Resource and Capacity planning to optimize for workloads (Continuous optimization) - High Availability support for stateful applications running in a serverless framework - Intent based workload placement in a serverless framework - Distributed storage/database for serverless stateful application 	rolling

Biological Sciences, Medicine & Engineering

Program	Funder	Amount	Description	Deadline
Public Policy Research Award	American Lung Association	\$100,000	For research on and evaluation of existing public policy and programs, as well as pilot and demonstration projects that inject innovative ideas and provide evidence for the development of new public policies impacting lung health.	12/10/20
Dalsemer Award	American Lung Association	\$100,000	Mentored award providing seed monies to junior investigators on the path to independence for researching the mechanisms and biology of interstitial lung disease. Applicants should be on-track to pursue a career in lung disease research with a mentor who has a demonstrated history of research experience and mentorship. Requires faculty appointment. Fellows and Ph.D. post-docs are eligible only if department chair assures promotion to faculty status by start of award. M.D. applicants must have completed two years of post-doctoral research training by the start of the award.	12/10/20
Allergic Respiratory Diseases Research Award	American Lung Association	\$150,000	To encourage and support applicants holding a primary faculty appointment in an allergy/immunology division conducting research into advancing the understanding of allergic respiratory disease. Applicants may be at any level of research experience but priority will be given to applicants below the rank of associate professor who have not received more than one R award.	12/10/20
Catalyst Award	American Lung Association	\$100,000	Mentored award to support investigators on the path to independence for research into the mechanisms of lung disease and general lung biology. For projects that are novel; innovative in design/approach; utilize modern technologies and incorporate a multidisciplinary collaborative training plan. Applicants should not have received career-development awards like K08, K23 or K99. Fellows and Ph.D. post-docs are eligible only if department chair assures promotion to faculty status by start of award. M.D. applicants must have completed two years of post-doctoral research training by the start of the award.	12/10/20

Biological Sciences, Medicine & Engineering

Program	Funder	Amount	Description	Deadline
Grants for Junior Faculty	American Federation for Aging Research	\$100,000	For research that will serve as the basis for longer term research efforts on the biology of aging. Eligibility: No more than ten years beyond start of postdoctoral research training as of July 1, 2021. Exceptions considered. Areas of interest include: - Aging and immune function - Stem cell aging - Inflammation - Genetic control of longevity - Neurobiology and neuropathology of aging - Invertebrate or vertebrate animal models - Cardiovascular aging - Aging and cellular stress response - Metabolic and endocrine changes	12/15/20
Breakthroughs in Gerontology Award	American Federation for Aging Research	\$300,000	For research projects that are relatively high risk but which offer significant promise of yielding transforming discoveries in the fundamental biology of aging. Projects which build on early discoveries that show translational potential for clinically-relevant strategies, treatments and therapeutics, addressing human aging and health span are also considered. Full-time faculty, Assistant Professor or higher.	12/15/20
Research Grants	American Rhinologic Society	\$150,000	Rhinology research. Grant programs: - New Investigator (\$40,000) - Resident (\$10,000) - Consortium (\$150,000) - Friends in Research (\$25,000) - Women in Rhinology (\$25,000)	12/15/20

Biological Sciences, Medicine & Engineering

Program	Funder	Amount	Description	Deadline
Health Data for Action	Robert Wood Johnson Foundation	\$100,000	For research studies using data from one of the following providers: athenahealth; CareJourney VRDC T-MSIS Research Collaborative; the Center for Improving Value in Health Care (CIVHC); Geisinger; the Health Care Cost Institute (HCCI); HealthShare Exchange (HSX); OCHIN ADVANCE Collaborative; and TransUnion. Eligible projects can focus on a variety of topics, including health care utilization and spending; benefit design; quality of care; prescribing patterns and medication adherence; chronic disease; maternal and child care; complex conditions; employer-sponsored insurance; public and private insurance; consolidation; integration, and market competition; social determinants of health and disparities; COVID-19 patient characteristics and outcomes; financial distress; mental health; housing instability; opioid use and treatment; and geographic variation in health.	12/17/20
APSF/FAER Mentored Research Training Grant	Anesthesia Patient Safety Foundation	\$300,000	For anesthesiologists develop the skills and preliminary data they need to become independent investigators in the field of anesthesia patient safety. Must be within 10 years of first faculty appointment.	01/01/21
Scholar Awards (neuroscience)	McKnight Endowment Fund for Neuroscience	\$225,000	For emerging neuroscientists to focus on disorders of learning and memory. Must demonstrate interest in solving important problems in relevant areas of neuroscience, including translation of basic research to clinical neuroscience. Must be in the early stages of establishing an independent laboratory and research career. Typical awardees have held faculty positions for at least one year. Eligibility: assistant professor for less than four years (exceptions considered for parental leave).	01/04/21

Biological Sciences, Medicine & Engineering

Program	Funder	Amount	Description	Deadline
Access to Care	Klingenstein Third Generation Foundation	\$100,000	For improving access to mental health care for child and adolescent ADHD and depression. Novel models or approaches, including but not limited to digital technology (e.g., Internet, cellphone apps), expanding the number of professional and paraprofessional treatment personnel who are trained to deliver mental health services, and delivering care in non-psychiatric settings (e.g., primary care, schools, home, or other novel settings). Particular interest in building on promising pilot work and developing larger demonstration projects.	01/10/21
Research Grants	Leakey Foundation	\$25,000	For advanced doctoral students and established scientists conducting research related specifically to human origins, including paleoanthropology, genetics, primate behavior and the behavioral ecology of contemporary hunter-gatherers. Priority to exploratory phases of promising new research projects.	01/10/21
More than Skin Deep: Mental Health Grant	National Psoriasis Foundation	\$100,000	For projects focused on mental health in psoriatic disease.	01/13/21
Discovery Grants	National Psoriasis Foundation	\$75,000	For innovative research into psoriasis, psoriatic arthritis, and related comorbidities. Discovery Grants fund preliminary ideas and proof-of-concept experiments. The goal is to stimulate new research programs capable of competing for long-term funding.	01/13/21
Translational Research Grants	National Psoriasis Foundation	\$200,000	For research initiatives that focus on the rapid translation of basic scientific discoveries into clinical applications with a clear benefit for patients with psoriatic disease.	01/13/21
Early Career Research Grants	National Psoriasis Foundation	\$50,000	For graduate students, postdoctoral researchers, and researchers at similar trainee-level positions interested in conducting projects focused on psoriatic disease. All aspects of psoriatic disease are strongly encouraged, including basic science, translational research, technology, epidemiology, health services, and clinical research.	01/13/21

Biological Sciences, Medicine & Engineering

Program	Funder	Amount	Description	Deadline
NIH-NPF Translational Medicine Fellowship	National Psoriasis Foundation	\$100,000	Fellowship at the National Heart Lung and Blood Institute in Bethesda, Maryland. The goal of this fellowship is to train the next generation of clinical and translational scientists who will focus on research and patient care in psoriasis and psoriatic arthritis.	01/13/21
Psoriatic Disease Research Fellowships	National Psoriasis Foundation	\$50,000	For eligible institutions to develop and enhance the opportunities for physicians training for research careers in academic dermatology, rheumatology, pediatric dermatology, and pediatric rheumatology. Priority consideration will be given to applications that advance psoriatic disease research.	01/13/21
Grants	Allen Foundation	not specified	For research on human nutrition; nutrition education and training for pregnant mothers; training of educators and demonstrators of good nutritional practices; and dissemination of information regarding healthful nutritional habits and practices.	01/15/21
Grants	PADI Foundation	\$12,000	Areas of interest: understanding aquatic environments and protection of ecosystems; sport-diving physics and physiology; hazards to humans and ecosystems related to climate change in coastal and ocean environments	01/15/21
Community Grants	Parkinson's Foundation	\$25,000	For health care facilities to carry out community-based education and outreach programs that address unmet needs in the Parkinson's community.	01/29/21
Next in Naturals QuickFire Challenge: Children's Wellness	Johnson & Johnson Innovation - JLABS	\$50,000	For potential new-form ingestible innovations and/or vehicles of delivery for children's wellness products that utilize ingredients inspired by nature. Awardees will receive up to \$50,000 in grant funding, one year of residency at an available JLABS, and mentorship from the Johnson & Johnson Family of Companies.	02/05/21

Biological Sciences, Medicine & Engineering

Program	Funder	Amount	Description	Deadline
NYC Innovation QuickFire Challenge on Neuroscience	Johnson & Johnson Innovation - JLABS	\$25,000	For ideas aimed at reducing the burden and disability caused by serious neuropsychiatric, neurological and neurodegenerative diseases. Awardees will receive up to \$25,000 in grant funding; one year of residency at JLABS in New York City, with the use of a bench, workstation and access to the JLABS community; and mentorship from experts at the Johnson & Johnson Family of Companies.	02/12/21
Career Development Award	American Heart Association	\$231,000	For early-career healthcare and academic professionals to explore innovative questions or pilot studies that will provide preliminary data and training necessary to assure the applicant's future success as a research scientist in the field of cardiovascular and stroke research. No more than five years since first faculty/staff appointment (after receipt of doctoral degree) at the assistant professor level or equivalent (including, but not limited to, instructor, research assistant professor, research scientist, staff scientist, etc.). Time-limit exceptions considered.	02/16/21
Ulcerative Colitis Competitive Grant Program	Pfizer	\$150,000	For clinical and basic science research on the pathogenesis and treatment of Ulcerative Colitis with a specific focus on projects that are most relevant to improving patient care. At least one award will be reserved for a young investigator. Clinical research: \$150,000. Translational research: \$75,000.	02/16/21
Injectable Orthobiologics Knee Osteoarthritis Research Grant	Orthopaedic Research and Education Foundation	\$50,000	For proposals focused on the broad area of injectable orthobiologics for the treatment of knee osteoarthritis, including but not limited to the following areas: <ul style="list-style-type: none"> - Determining clinical efficacy and safety of an injectable orthobiologic treatment(s) to provide decreased pain and improved function. - Assessing the mechanisms of action of an injectable orthobiologic treatment(s) in knee osteoarthritis to reduce pain and improve function or modify the progression of disease. 	02/21/21

Biological Sciences, Medicine & Engineering

Program	Funder	Amount	Description	Deadline
Early Career Professor Award	Agilent Technologies	\$100,000	2021 focus: contributions to the development of breakthrough solutions to understand or manage immunological responses to infection, autoimmunity or cancer. Self-nominations are encouraged. Must have received Ph.D. no earlier than January 2011.	02/26/21

Graduate/Postdoctoral

Program	Funder	Amount	Description	Deadline
Dalsemer Award	American Lung Association	\$100,000	Mentored award providing seed monies to junior investigators on the path to independence for researching the mechanisms and biology of interstitial lung disease. Applicants should be on-track to pursue a career in lung disease research with a mentor who has a demonstrated history of research experience and mentorship. Requires faculty appointment. Fellows and Ph.D. post-docs are eligible only if department chair assures promotion to faculty status by start of award. M.D. applicants must have completed two years of post-doctoral research training by the start of the award.	12/10/20
Catalyst Award	American Lung Association	\$100,000	Mentored award to support investigators on the path to independence for research into the mechanisms of lung disease and general lung biology. For projects that are novel; innovative in design/approach; utilize modern technologies and incorporate a multidisciplinary collaborative training plan. Applicants should not have received career-development awards like K08, K23 or K99. Fellows and Ph.D. post-docs are eligible only if department chair assures promotion to faculty status by start of award. M.D. applicants must have completed two years of post-doctoral research training by the start of the award.	12/10/20
Research Grants	Leakey Foundation	\$25,000	For advanced doctoral students and established scientists conducting research related specifically to human origins, including paleoanthropology, genetics, primate behavior and the behavioral ecology of contemporary hunter-gatherers. Priority to exploratory phases of promising new research projects.	01/10/21
Early Career Research Grants	National Psoriasis Foundation	\$50,000	For graduate students, postdoctoral researchers, and researchers at similar trainee-level positions interested in conducting projects focused on psoriatic disease. All aspects of psoriatic disease are strongly encouraged, including basic science, translational research, technology, epidemiology, health services, and clinical research.	01/13/21

Graduate/Postdoctoral

Program	Funder	Amount	Description	Deadline
Milestones to a Cure Research Grant	National Psoriasis Foundation	\$100,000	For postdoctoral researchers interested in conducting projects focused on psoriatic disease.	01/13/21
Netchin Medical Student Summer Fellowships	American Brain Tumor Association	\$3,000	For medical students who intend to spend a summer conducting brain tumor research.	01/14/21
Advanced/Transplant Hepatology Award	American Association for the Study of Liver Diseases	\$5,000	Travel funds for fourth-year Transplant Hepatology fellows or third-year GI/Hepatology pilot program fellows.	01/15/21
The Branco Weiss Fellowship – Society in Science	Swiss Federal Institute of Technology	\$550,000	Postdoctoral fellowship for unconventional projects in new areas of science, engineering and social sciences. Ph.D. awarded within last five years, with no faculty appointment yet.	01/15/21
Summer Residency Fellowships in Giverny, France	Terra Foundation for American Art	\$6,200	Nine-week summer residency for scholars of American Art and emerging artists. Must be either: 1) visual artist with a master's degree within last five years; or 2) doctoral candidate researching American art and visual culture or its role in a context of international artistic exchange prior to 1980.	01/15/21

Graduate/Postdoctoral				
Program	Funder	Amount	Description	Deadline
Postdoctoral Fellowships	Lalor Foundation	\$52,000	For early-career researchers in the field of mammalian reproductive biology as related to the regulation of fertility. Limit of one application per lab. Eligibility: should be less than two years post-Ph.D., with no faculty appointment	01/15/21
Tyson Scholars of American Art Program	Crystal Bridges Museum of American Art	\$60,000	Residential fellowships from six weeks to nine months at the Crystal Bridges Museum of American Art in Arkansas. For scholarship that seeks to expand boundaries or traditional categories of investigation into American art and visual and material culture from the colonial period to the present. Areas of interest include art history, architecture, visual and material culture, Indigenous art, Latin American art, American studies, and contemporary art. For PhD candidates, postdocs and senior scholars from any field who are researching American art. Stipend ranges from \$15,000 to \$30,000 per semester. Applications encouraged from persons of color; Indigenous; disabled; LGBTQ; first-generation college graduates; low-income; and veterans.	01/15/21
Postdoctoral Fellowships	Autism Speaks	\$140,000	For postdoctoral scientists pursuing training in autism spectrum disorder. May be engaged in preclinical or clinical research. Areas of interest:; Epigenetics; Pre-clinical intervention studies, including gene and RNA editing; Immunology/inflammation; Medical Comorbidities (particularly seizures and GI problems/microbiome) with an emphasis on interventions; Biomarkers and objective measurement of autism and related domains; Adult transition and lifespan development; Challenging behavior; Cognitively disabled/non- or minimally verbal; Inclusion of individuals from low-resource communities. Eligibility: M.D., Ph.D. or equivalent terminal degree; no more than five years of postdoctoral experience at the commencement of the award. May not simultaneously serve in an internship or residency, hold a tenure-track faculty appointment or hold another named fellowship award.	01/19/21
Predoctoral Fellowship	Autism Speaks	\$74,000	Understanding, evaluating and/or treating individuals with central auditory processing disorder (CAPD), particularly as it relates to co-occurring autism spectrum disorder. Doctoral student with two or more years remaining. Must have a fellowship mentor.	01/19/21

Graduate/Postdoctoral

Program	Funder	Amount	Description	Deadline
Postdoctoral Fellowships in Aging Research	American Federation for Aging Research	\$60,000	For postdoctoral fellows conducting research in the basic biology of aging, as well as translating advances in basic research from the laboratory to the clinic.	01/25/21
Institutional Movement Disorders Fellowship	Parkinson's Foundation	\$207,500	Provides an institution with the funds to support the two-year long training of an incoming movement disorders fellow, covering their salary and associated costs. The institution is responsible for recruiting and selecting the fellow to receive training – this is not an award to an individual. Must have completed a residency in neurology.	02/08/21
Berman/Topper Family HD Career Development Fellowship	Huntington's Disease Society of America	\$240,000	Support for young scientists to work collaboratively with their mentors and other committed Huntington's Disease health professionals to help develop the fellow into an independent leader. No more than five years from PhD or completion of residency/fellowship.	03/19/21
