| Limited Application   |                                     |               |   |   |
|---|-------------------------------------|---------------|---|---|
| Program   | Funder                              | Amount        | Description   | Deadlines   |
| <a href="#">Biomedical grants</a>                               | Edward Mallinckrodt, Jr. Foundation | \$180,000     | <p>For early-career investigators doing basic biomedical research that has the potential to significantly advance the understanding, diagnosis or treatment of disease. Current R01 recipients not eligible. Requires endorsement of Geisel dean or other senior faculty member(s). Must be in first to fourth year of a tenure-track position.</p> <p>LIMITED APPLICATION -- INTERNAL SUBMISSION REQUIRED<br/> Dartmouth may nominate one candidate. To apply for this opportunity, email the following to limitedfunding@dartmouth.edu: one-page description of your project idea; total amount of your funding request; current CV. Use "Mallinckrodt grant" as the email subject line.</p>  | <p>Internal deadline 07/09/21</p> <p>External deadline 08/01/21</p> |
| <a href="#">Greenwall Faculty Scholars Program in Bioethics</a> | Greenwall Foundation                | not specified | <p>Career development award for innovative bioethics research by junior faculty. Priority for applicants who have not yet been considered for tenure; who have not received a comparable career development award; and whose work will have an impact on public policy, biomedical research, or clinical practice. Fifty percent of salary plus benefits for three years, up to the NIH salary cap, with 10 percent institutional costs for the salary and benefits. \$5,000 per year for project support and travel. September 20 deadline is for a letter of intent.</p> <p>LIMITED APPLICATION -- INTERNAL SUBMISSION REQUIRED<br/> Dartmouth may submit one application. To apply for this opportunity, email the following to limitedfunding@dartmouth.edu: one-page description of your project idea; total amount of your funding request; current CV. Use "Greenwall Faculty Scholars" as the email subject line.</p> | <p>Internal deadline 08/02/21</p> <p>External deadline 09/20/21</p> |

| Limited Application                     |   |             |   |   |
|---|---|-------------|---|---|
| Program                                 | Funder  | Amount      | Description   | Deadlines   |
| <a href="#">Medical Research</a>        | Robert J. Kleberg Jr. and Helen C. Kleberg Foundation | \$3,000,000 | <p>For innovative medical research proposals in both basic biological and applied research that will have the greatest impact on scientific knowledge and human health. Two annual deadlines: March 31 and September 30. Last year's awards ranged from \$400,000 to \$3,000,000.</p> <p>LIMITED SUBMISSION -- INTERNAL APPLICATION REQUIRED<br/>Dartmouth may submit one application per cycle. To apply for this opportunity, email the following to <a href="mailto:limitedfunding@dartmouth.edu">limitedfunding@dartmouth.edu</a>: one-page description of your project idea; total amount of your funding request; current CV. Use "Kleberg Foundation — Medical Research" as the email subject line.</p>  | <p>Internal deadline<br/>08/02/21</p> <p>External deadline<br/>09/30/21</p> |
| <a href="#">Searle Scholars Program</a> | Kinship Foundation                                    | \$300,000   | <p>For independent researchers in biochemistry, cell biology, genetics, immunology, neuroscience, pharmacology, and related areas in chemistry, medicine, and the biological sciences. Both clinical and basic research. Applicants should have begun their appointment as an independent investigator at the assistant professor level on or after July 1, 2020. The appointment must be their first tenure-track position (or its nearest equivalent).</p> <p>LIMITED APPLICATION -- INTERNAL SUBMISSION REQUIRED<br/>Dartmouth may nominate one candidate. To apply for this opportunity, email the following to <a href="mailto:LimitedFunding@Dartmouth.Edu">LimitedFunding@Dartmouth.Edu</a>: one-page description of your project idea; total amount of your funding request; current CV. Use "Searle Scholars" as the email subject line.</p> | <p>Internal deadline<br/>08/02/21</p> <p>External deadline<br/>09/30/21</p> |

| Limited Application                     |        |               |  |   |
|---|--------|---------------|--|---|
| Program                                 | Funder | Amount        | Description  | Deadlines   |
| <a href="#">Google Ph.D. Fellowship</a> | Google | not specified | <p>For Ph.D. students in computer science and related fields. Areas of interest:</p> <ul style="list-style-type: none"> <li>- Algorithms, Optimizations and Markets</li> <li>- Computational Neuroscience</li> <li>- Health Research</li> <li>- Human-Computer Interaction</li> <li>- Machine Learning</li> <li>- Machine Perception, Speech Technology and Computer Vision</li> <li>- Mobile Computing</li> <li>- Natural Language Processing (including Information Retrieval and Extraction)</li> <li>- Privacy and Security</li> <li>- Programming Languages and Software Engineering</li> <li>- Quantum Computing</li> <li>- Structured Data and Database Management</li> <li>- Systems and Networking</li> </ul> <p>LIMITED SUBMISSION -- INTERNAL APPLICATION REQUIRED</p> <p>Dartmouth may nominate two students without restriction and up to two more who identify as woman, Black/African descent, Indigenous, Hispanic/Latino/Latinx, and/or person with a disability. To apply for this opportunity, email the following to <a href="mailto:limitedfunding@dartmouth.edu">limitedfunding@dartmouth.edu</a>: one-page description of your project and current CV. Use "Google PhD Fellowship" as the email subject line.</p> | <p>Internal deadline<br/>08/02/21</p> <p>External deadline<br/>09/30/21</p> |

| Cross-cutting/Multi-disciplinary   |                                   |               |  |          |
|--|-----------------------------------|---------------|--|----------|
| Program  | Funder                            | Amount        | Description  | Deadline |
| <a href="#">Foundational Integrity Research: Misinformation and Polarization</a> | Facebook                          | not specified | <p>For researchers interested in exploring the societal issues of misinformation and polarization related to social communication technologies. The award is restricted to social science research that contributes to generalized scientific knowledge and its application.</p> <p>Areas of interest:</p> <ul style="list-style-type: none"> <li>- Affective polarization and online conflict</li> <li>- Misinformation versus authoritative content</li> <li>- Climate change on social media</li> <li>- Information processing around sensational, hateful, divisive, or provocative problematic content</li> <li>- Dangerous speech, conflict, and violence</li> <li>- Misinformation across formats</li> <li>- News, trust, and information quality</li> <li>- Cross-platform information ecosystem understanding</li> <li>- Digital literacy, demographics, and misinformation</li> <li>- Restrictions on online expression</li> </ul> | 07/14/21 |
| <a href="#">Harry Frank Guggenheim Distinguished Scholars</a>                    | Harry Frank Guggenheim Foundation | \$45,000      | <p>For proposals from any of the natural and social sciences and the humanities that promise to increase understanding of the causes, manifestations, and control of violence and aggression. Highest priority is given to research that can increase understanding and amelioration of urgent problems of violence and aggression in the modern world.</p>  | 08/01/21 |

| Cross-cutting/Multi-disciplinary  |                                     |               |  |          |
|---|-------------------------------------|---------------|--|----------|
| Program   | Funder                              | Amount        | Description  | Deadline |
| <a href="#">Beckman Young Investigators Program</a>                                     | Arnold and Mabel Beckman Foundation | \$600,000     | For early-career faculty in chemistry and life sciences who have not received a major award from another funder. Particular focus on the invention of methods, instruments and materials that will open up new avenues of research. Projects should represent departures from current research directions rather than extensions or expansions of existing programs. Proposals that cut across traditional boundaries of scientific disciplines are encouraged. Tenure-track or equivalent independent researcher; appointed after January 1, 2017 and before August 2, 2021. U.S. citizen or permanent resident. Deadline is for a letter of intent.  | 08/02/21 |
| <a href="#">Digital tools for collecting, transmitting and analyzing agronomic data</a> | Bayer Crop Science                  | not specified | <p>To develop digital tools for collecting, transmitting and analyzing data, and data platforms for measuring and predicting agronomic performance. Areas of interest include:</p> <ul style="list-style-type: none"> <li>- Phenotyping and modeling tools for early detection and quantification of insects, nematodes and diseases or modeling tools for plant growth and development in response to abiotic stresses.</li> <li>- Machine learning and data modeling tools that provide actionable insights and recommendations for efficient use of crop inputs, e.g. for soil application scripting.</li> <li>- Precision technologies to ensure compliance with regulatory requirements, such as in-field chemical residue measurement.</li> <li>- Artificial intelligence applications in active ingredient discovery and optimization processes.</li> <li>- Yield estimation.</li> <li>- Root phenotyping, esp. non-destructive methodologies.</li> </ul> | 08/31/21 |

| Cross-cutting/Multi-disciplinary |                   |           |  |          |
|----------------------------------|-------------------|-----------|--|----------|
| Program                          | Funder            | Amount    | Description  | Deadline |
| <a href="#">Grants</a>           | Ploughshares Fund | \$300,000 | For organizations and people working to eliminate nuclear weapons, prevent the emergence of new nuclear states, and build regional peace. The program supports research on cybersecurity and policy in the context of arms control and diplomacy. There are two annual application cycles, with deadlines in March and August. Grants of up to \$25,000 for urgent projects are considered three times a year. | 08/31/21 |

| Arts & Humanities   |                           |               |  |          |
|---|---------------------------|---------------|--|----------|
| Program   | Funder                    | Amount        | Description  | Deadline |
| <a href="#">Psychological Science Cross-training for Christian Theology</a> | John Templeton Foundation | not specified | For theologians, philosophers of religion and scholars in religious studies who work in Christian theology (broadly construed) to cross-train in psychological sciences (including cognitive, social, personality, moral, developmental, evolutionary, and cultural psychology; cognitive anthropology; behavioral economics; cognitive science; and cognitive and social neuroscience). | 08/20/21 |

| Social Sciences & Business/Entrepreneurship            |                             |               |  |          |
|--|-----------------------------|---------------|--|----------|
| Program  | Funder                      | Amount        | Description  | Deadline |
| <a href="#">Research Grants</a>                        | Russell Sage Foundation     | \$175,000     | For social-science research in these program areas:<br>- Race, Ethnicity and Immigration<br>- Immigration and Immigrant Integration<br>- Social, Political and Economic Inequality<br>Also, other core programs are accepting letters of inquiry on this deadline which address one of the following:<br>- COVID-19 pandemic and resulting recession in the U.S.<br>- Systemic racial inequality and/or recent mass protests in the U.S.<br>Early-career scholars are particularly encouraged to apply.  | 07/28/21 |
| <a href="#">Research Grants on Reducing Inequality</a> | William T. Grant Foundation | \$1,000,000   | For research on programs, policies, and practices that reduce inequality in youth outcomes; and research that identifies, builds, and tests strategies to improve the use of research evidence in ways that benefit youth. Major grants are up to \$1 million. Officer's grants are up to \$50,000.  | 08/04/21 |
| <a href="#">CoPro2.0</a>                               | Kresge Foundation           | not specified | For research and programming innovations that help to scale and improve the next generations of equitable, financially sustainable College Promise programs, or “free college” programs, working with community colleges across the United States.<br>Areas of interest:<br>- Program Innovations to facilitate partnerships that enhance or expand services, reimagine eligibility criteria, and catalyzed expansion of college-level reforms;<br>- Research on Financial Sustainability to investigate public-private financing partnerships and innovative financial models that foreground program viability; and<br>- Strategic, Local Implementation Guidance to support President Biden’s proposed national tuition-free community college program. | 08/09/21 |

| Social Sciences & Business/Entrepreneurship  |                                     |          |   |          |
|--|-------------------------------------|----------|---|----------|
| Program  | Funder                              | Amount   | Description   | Deadline |
| <a href="#">Community-Based Participatory Research Projects</a>                          | Sociological Initiatives Foundation | \$20,000 | <p>For projects that link an explicit research design to a concrete social action strategy. Projects should also have clear social change goals. SIF has funded projects in the areas of civic participation, community organizing, crime and law, education, health, housing, immigration, labor organizing, and language/literacy.</p> <p>Some examples of desired applicants are:</p> <ul style="list-style-type: none"> <li>- community-led academic partnerships;</li> <li>- advocacy or community groups that conduct research that can withstand challenge in academic and policy arenas;</li> <li>- grassroots organizations that organize or link to a constituency through their research.</li> </ul> | 08/16/21 |
| <a href="#">Kempf Fund Award for Research Development in Psychobiological Psychiatry</a> | American Psychiatric Association    | \$21,500 | Award of \$1,500 for a senior researcher who has made a significant contribution to research on the causes and treatment of schizophrenia as both a researcher and a mentor. A \$20,000 award is also made to support the career development of a young research psychiatrist working in a mentor-trainee relationship with the award winner.   | 09/30/21 |

| Physical Sciences, Mathematics & Engineering                                  |          |           |  |          |
|---|----------|-----------|--|----------|
| Program   | Funder   | Amount    | Description  | Deadline |
| <a href="#">Towards Trustworthy Products in AR, VR, and Smart Devices</a>     | Facebook | \$75,000  | <p>For research on trust and trustworthiness in the areas of AR, VR, and smart devices. Areas of interest include:</p> <ul style="list-style-type: none"> <li>- Novel proposals in silicon, hardware, OS/platform, supply-chain, or anti-tamper in this space—whether they are threats, attacks, or mitigations</li> <li>- User-verifiable privacy controls or privacy-preserving techniques in the context of unique sensors, data, and use cases</li> <li>- Advancements in terms of identity, authentication, authorization, abuse-prevention, or biometrics, as they pertain to said devices and technologies</li> <li>- Security and privacy advancements in voice assistants, smart devices, smart home cameras</li> <li>- Novel security and privacy techniques for spatial mapping and localization, such as local attestation or point cloud geometry hashing</li> <li>- Any novel or new concepts in trust as applied to the AR/VR and smart devices space that warrant further exploration</li> </ul> | 07/14/21 |
| <a href="#">Engineering approaches to responsible neural interface design</a> | Facebook | \$150,000 | <p>For proposals that leverage engineering to address the principles of considering everyone, putting people first by treating data with care, and providing controls that matter by developing tools and methods for data management and privacy.</p> <p>Areas of interest:</p> <ul style="list-style-type: none"> <li>- Inclusive optical neurotechnologies</li> <li>- Inclusive surface EMG wristband technology</li> <li>- Privacy-preserving methods for handling neural data</li> </ul>  | 07/14/21 |

| Physical Sciences, Mathematics & Engineering  |   |           |   |          |
|---|---|-----------|---|----------|
| Program   | Funder  | Amount    | Description   | Deadline |
| <a href="#">Strengthening Partnerships and Engaging Networks: Leveraging Communities of Practice to Build Equity into Local Efforts</a> | National Academies of Sciences Engineering and Medicine | \$300,000 | For capacity-building efforts of Communities of Practice that work in the area of climate adaptation or disaster resilience. Communities of Practice will build the knowledge base and capacity of their members to apply an equity lens to their activities in order to address the needs and challenges of communities that are disproportionately at risk from climate hazards or other disasters. | 07/20/21 |
| <a href="#">Next Generation Search and Discovery</a>  | NLnet Foundation  | \$59,000  | To help create an open, trustworthy and reliable internet for all by improving search and discovery. Looking for new ideas and core technologies that help society tackle questions with significant social and economic consequences.  | 08/01/21 |

| Biological Sciences, Medicine & Engineering                 |                               |               |  |          |
|---|-------------------------------|---------------|--|----------|
| Program   | Funder                        | Amount        | Description  | Deadline |
| <a href="#">Translational Research Acceleration Program</a> | Foundation Fighting Blindness | \$1,500,000   | <p>For preclinical research toward an Investigational New Drug filing and into clinical trials to provide a robust and diverse pipeline of potential therapies to fight inherited retinal degenerations and dry age-related macular degeneration. Up to \$1,500,000, depending on stage. July 22 deadline is for a letter of intent.</p> <p>Priority areas:</p> <ul style="list-style-type: none"> <li>- Novel Medical Therapies</li> <li>- Genetic Technologies</li> <li>- Regenerative Medicine</li> </ul> | 07/22/21 |
| <a href="#">Plant growth regulators and pest management</a> | Valent Biosciences            | not specified | <p>To develop novel compounds and delivery systems to enhance plant growth and pest management. Organic compounds are preferred.</p> <p>Solutions of interest include:</p> <ul style="list-style-type: none"> <li>- Plant Growth Regulator activity</li> <li>- Pest management activity</li> <li>- Delivery systems</li> </ul>   | 07/23/21 |

| Biological Sciences, Medicine & Engineering                     |                            |               |  |          |
|---|----------------------------|---------------|--|----------|
| Program   | Funder                     | Amount        | Description  | Deadline |
| <a href="#">Mycorrhizal fungi colonization and ion leaching</a> | Valent Biosciences         | not specified | <p>To advance the science of detecting and quantifying the movement of nitrates through soil, comparing AMF colonized versus non-colonized crops. Potential study sites can include field, greenhouse, and/or laboratory. Solutions of interest include:</p> <ul style="list-style-type: none"> <li>- Quantification of AMF colonization's effect on nitrate leaching</li> <li>- Influence of conservation tillage practices on nitrate leaching comparing well-colonized to non-colonized crops</li> <li>- Modelling long-term impact of root colonization on nitrate leaching</li> <li>- Determine possible mitigation offered by AMF colonization on water quality and watershed management</li> <li>- Innovative techniques, including remote sensing, for sampling and quantifying nitrate movement in soils</li> <li>- Innovative delivery systems to stabilize or enhance performance of AMF and other biologicals</li> <li>- Technologies that work in tandem with the soil biome to reduce input loss and enhance biological accessibility</li> </ul> | 07/23/21 |
| <a href="#">Carbon sequestration in agricultural soils</a>      | Valent Biosciences         | not specified | <p>To advance the science of detecting, quantifying, predicting, and enhancing soil organic carbon sequestration. Solutions of interest include:</p> <ul style="list-style-type: none"> <li>- Novel microbial strains or consortia that promote soil health factors, including the development of stable soil aggregates and the potential to reduce the use of synthetic fertilizers</li> <li>- Formulation, production, and scale-up technologies for novel microbial strains</li> <li>- Modelling the long-term impact of the soil microbiome in cycling and storage of soil organic carbon</li> <li>- Innovative techniques, including remote sensing, for sampling and quantifying soil carbon</li> </ul>   | 07/23/21 |
| <a href="#">napari Plugin Accelerator Grants</a>                | Chan Zuckerberg Initiative | \$50,000      | For developers to convert an existing image analysis tool to a napari plugin; continue development of an existing napari plugin; or build foundational infrastructure for other plugin developers.   | 07/29/21 |

| Biological Sciences, Medicine & Engineering                                     |                                     |               |   |          |
|---|-------------------------------------|---------------|---|----------|
| Program   | Funder                              | Amount        | Description   | Deadline |
| <a href="#">Equitable Care of Metastatic Breast Cancer Patients</a>             | Conquer Cancer Foundation           | \$150,000     | To identify disparities in delivery of care and treatment outcomes for patients of color with metastatic breast cancer.<br>Areas of interest:<br>- Understanding racial disparities in the access to and delivery of treatment and supportive care, including psychosocial and palliative care, for patients with metastatic breast cancer.<br>- Understanding racial disparities in the outcomes for patients with metastatic breast cancer.<br>- Systematic analyses of disparities within care delivery systems and communities. | 08/04/21 |
| <a href="#">Deep Tissue Imaging</a>   | Chan Zuckerberg Initiative          | \$1,000,000   | For pilot projects focusing on deep tissue imaging: innovative approaches to observing cells and subcellular processes at high resolution in complex tissue and through skin and bone. Awards are \$1 million total costs over 2.5 years for each pilot project, and successful pilots will be eligible to apply for additional four-year follow up grants. Applications from people from underrepresented groups, women, and early-career scientists are encouraged. August 6 deadline is for a letter of intent.                  | 08/06/21 |
| <a href="#">Physical therapy research grants</a>                                | Foundation for Physical Therapy     | \$40,000      | For licensed physical therapists.   | 08/06/21 |
| <a href="#">Mentor-Based Postdoctoral Fellowship In Rehabilitation Research</a> | National Multiple Sclerosis Society | not specified | For a mentor-institution combination responsible for recruitment, selection, and training of postdoctoral fellows to pursue a career in rehabilitation research applied to MS and similar disorders. Mentor should be an established and active researcher in MS or a related field. The mentor and fellow may come from a variety of different fields including medicine, physical, occupational, or speech therapy, psychology, rehabilitation engineering, nursing, or other fields.   | 08/11/21 |
| <a href="#">Harry Weaver Scholar Awards</a>                                     | National Multiple Sclerosis Society | not specified | For candidates who have concluded their research training and begun academic careers as independent investigators in an area related to multiple sclerosis. The awards are designed to provide salary and grant support for a five year period, thus permitting the awardee to establish competence in his/her chosen research area.  | 08/11/21 |

| Biological Sciences, Medicine & Engineering  |   |           |   |          |
|--|---|-----------|---|----------|
| Program  | Funder  | Amount    | Description   | Deadline |
| <a href="#">AHRF Discovery Grants</a>  | American Hearing Research Foundation                              | \$50,000  | Hearing or balance functions of the ear. Basic and clinical studies of the auditory and vestibular systems, including but not limited to: genetics; neurotology; anatomy; auditory processing; molecular and cellular biology; therapeutic studies; and investigations of current or experimental devices (i.e. cochlear implants). | 08/16/21 |
| <a href="#">Advanced Fellowship in Pediatric Endoscopy</a>                           | NASPGHAN Foundation for Children's Digestive Health and Nutrition | \$75,000  | For one year of advanced training in pediatric endoscopy for a member of NASPGHAN. Must identify a mentor and a host endoscopy program. Must include a well-defined clinical experience as well as a focused research and/or quality improvement project.   | 08/23/21 |
| <a href="#">Abbott Nutrition Advanced Fellowship Training in Pediatric Nutrition</a> | NASPGHAN Foundation for Children's Digestive Health and Nutrition | \$75,000  | For one year of advanced training in pediatric nutrition for a NASPGHAN member. Applicants are expected to identify a mentor and a host nutrition research program prior to application for funding.  | 08/23/21 |
| <a href="#">Harrington Prize for Innovation in Medicine</a>                          | Harrington Discovery Institute                                    | \$20,000  | To honor a physician-scientist who has moved science forward with achievements notable for innovation, creativity and potential for clinical application.   | 08/27/21 |
| <a href="#">Microbial Pathogenesis in Alzheimer's Disease</a>                        | IDSA Foundation (Infectious Diseases Society of America)          | \$250,000 | For research narrowly focused on identifying the possible role of an infectious agent or agents in causing Alzheimer's disease. Awards will support innovative research, including basic, clinical and/or non-traditional approaches.   | 08/31/21 |

| Biological Sciences, Medicine & Engineering                                    |                             |               |  |          |
|--|-----------------------------|---------------|--|----------|
| Program  | Funder                      | Amount        | Description  | Deadline |
| <a href="#">Catalyst Research Grant</a>  | National Eczema Association | \$50,000      | Seed grants to help establish a novel and promising line of eczema research, and gather a preliminary, yet meaningful body of data to carry this area of study forward. Proposals should address at least one of the following research priorities:<br><ul style="list-style-type: none"> <li>- Cutting Edge Basic &amp; Translational Science;</li> <li>- Eczema Heterogeneity: Novel Insights;</li> <li>- Innovations in Clinical Practice &amp; Care;</li> <li>- Understanding &amp; Alleviating Disease Burden;</li> <li>- Eczema Prevention.</li> </ul> Eligibility: assistant professors (or equivalent) without current or previous NIH R funding as a senior or co-PI; postdoctoral fellows; medical residents or fellows; research associates and nurse practitioners.      | 08/31/21 |
| <a href="#">Eczema Champion Research Grant</a>                                 | National Eczema Association | \$100,000     | For highly innovative, cutting-edge investigations related to eczema.  | 08/31/21 |
| <a href="#">Sustainably protecting crops while preserving natural habitats</a> | Bayer Crop Science          | not specified | Areas of interest:<br><ul style="list-style-type: none"> <li>- Traits that improve nutrient and water use efficiency or increase carbon sequestration in row crops, fruits and vegetables.</li> <li>- Novel approaches to optimize, identify and validate gene or protein expression, activity and regulation.</li> <li>- Novel approaches to discover and optimize native crop genes</li> <li>- Novel approaches to increase genetic diversity/variation in crops</li> <li>- Novel approaches for reducing insect and nematode damage or reducing fungal growth and symptoms</li> <li>- Novel approaches for increasing tolerance to herbicide applications and/or lower weed pressure</li> <li>- Controlled-release technologies for active ingredients and biologicals</li> </ul> | 08/31/21 |

| Biological Sciences, Medicine & Engineering              |                           |           |   |          |
|--|---------------------------|-----------|---|----------|
| Program  | Funder                    | Amount    | Description   | Deadline |
| <a href="#">Innovator Awards</a>                         | Kenneth Rainin Foundation | \$150,000 | For research that is potentially transformative to diagnosing, treating and curing inflammatory bowel disease. Basic, translational and clinical science.   | 09/13/21 |
| <a href="#">Global Oncology Young Investigator Award</a> | Conquer Cancer Foundation | \$50,000  | For early-career investigators in global oncology. The award is intended to support investigators: in low-resource settings working on scientific questions specific to those settings; high-resource settings on issues in resource-limited settings; and collaborative research, such as a cancer that affects a small population in the U.S. but is common in another country. Must be in the last year of training or the first two years of a faculty/staff appointment, and within 10 years of terminal degree. | 09/23/21 |
| <a href="#">Young Investigator Award</a>                 | Conquer Cancer Foundation | \$50,000  | For all areas of cancer research. To fund physicians during the transition from a fellowship program to a faculty appointment. This is a mentored award and the research project is conducted under the guidance of a scientific mentor. Must be in the last two years of final subspecialty training and within 10 years of the medical degree.  | 09/23/21 |

| Graduate/Postdoctoral  |                                     |               |   |          |
|--|-------------------------------------|---------------|---|----------|
| Program  | Funder                              | Amount        | Description   | Deadline |
| <a href="#">Research Grants</a>  | Russell Sage Foundation             | \$175,000     | For social-science research in these program areas:<br>- Race, Ethnicity and Immigration<br>- Immigration and Immigrant Integration<br>- Social, Political and Economic Inequality<br>Also, other core programs are accepting letters of inquiry on this deadline which address one of the following:<br>- COVID-19 pandemic and resulting recession in the U.S.<br>- Systemic racial inequality and/or recent mass protests in the U.S.<br>Early-career scholars are particularly encouraged to apply. | 07/28/21 |
| <a href="#">Kempf Fund Award for Research Development in Psychobiological Psychiatry</a> | American Psychiatric Association    | \$21,500      | Award of \$1,500 for a senior researcher who has made a significant contribution to research on the causes and treatment of schizophrenia as both a researcher and a mentor. A \$20,000 award is also made to support the career development of a young research psychiatrist working in a mentor-trainee relationship with the award winner.   | 09/30/21 |
| <a href="#">Postdoctoral Fellowships</a>   | National Multiple Sclerosis Society | not specified | To support the training of postdoctoral fellows in studies related to multiple sclerosis. For fundamental as well as applied studies, non-clinical or clinical in nature, including projects in patient management, care and rehabilitation. No more than three years of previous postdoctoral training.  | 08/11/21 |
| <a href="#">Sylvia Lawry Physician Fellowships</a>                                       | National Multiple Sclerosis Society | \$150,000     | Support for up to 3 years to train young doctors to conduct MS clinical trials. Residents in the PGY3 or PGY4 stage or beyond.  | 08/11/21 |
| <a href="#">Clinician Scientist Development Awards</a>                                   | National Multiple Sclerosis Society | not specified | Three years of salary support to young physicians to receive training in multiple sclerosis clinical research. For residents in PGY4 or PGY5.   | 08/11/21 |

| Graduate/Postdoctoral  |   |           |   |          |
|--|---|-----------|---|----------|
| Program  | Funder  | Amount    | Description   | Deadline |
| <a href="#">Damon Runyon Fellowship Award</a>  | Damon Runyon Cancer Research Foundation                           | \$234,000 | <p>For postdoctoral theoretical or experimental research relevant to the study of cancer and the search for cancer causes, mechanisms, therapies and prevention.</p> <p>Level 1: Basic and physician-scientists must have received their degrees no more than 18 months prior to the application deadline and must not have been in their Sponsors' labs for more than one year.</p> <p>Level 2: Physician-scientist applicants (MD, MD/PhD, DDS, DVM, DO or the equivalent) must have completed their residencies and clinical training and must be board eligible at the start date.</p> <p>Applicants may apply at any time prior to their initial assistant professorship appointment (or equivalent). Postdoctoral fellows, clinical fellows and clinical instructors are eligible to apply. There are two annual deadlines: March and August.</p> | 08/16/21 |
| <a href="#">George H. A. Clowes, Jr., MD, FACS, Memorial Research Career Development Award</a> | American College of Surgeons                                      | \$225,000 | To provide support for the research of a promising young surgical investigator. Must be Fellow or Associate Fellow of the College who has completed an accredited residency in general surgery within the preceding seven years, not including time off for maternity leave, military deployment, or medical leave.   | 08/16/21 |
| <a href="#">Advanced Fellowship in Pediatric Endoscopy</a>                                     | NASPGHAN Foundation for Children's Digestive Health and Nutrition | \$75,000  | For one year of advanced training in pediatric endoscopy for a member of NASPGHAN. Must identify a mentor and a host endoscopy program. Must include a well-defined clinical experience as well as a focused research and/or quality improvement project.   | 08/23/21 |
| <a href="#">Abbott Nutrition Advanced Fellowship Training in Pediatric Nutrition</a>           | NASPGHAN Foundation for Children's Digestive Health and Nutrition | \$75,000  | For one year of advanced training in pediatric nutrition for a NASPGHAN member. Applicants are expected to identify a mentor and a host nutrition research program prior to application for funding.  | 08/23/21 |

| Graduate/Postdoctoral   |  |           |   |          |
|---|--|-----------|---|----------|
| Program   | Funder                                   | Amount    | Description   | Deadline |
| <a href="#">AACR Clinical Oncology Research (CORE) Training Fellowships</a> | American Association for Cancer Research | \$100,000 | Industry-academic clinical practicum in drug development for early-career scientists. Fellows work on site at AstraZeneca or Bayer Healthcare. Must have a medical degree and have enrolled in an accredited hematology/oncology or radiation oncology fellowship program in the United States. Cannot be employee or subcontractor of a U.S. government entity or for-profit private industry or be clinical fellows applying from a U.S. government laboratory.   | 08/31/21 |
| <a href="#">Catalyst Research Grant</a>                                     | National Eczema Association              | \$50,000  | Seed grants to help establish a novel and promising line of eczema research, and gather a preliminary, yet meaningful body of data to carry this area of study forward.
