Go Paperless:

With current and historical access to employee payslips and annual W-2 tax forms, employees are strongly encouraged to ‘Go Paperless.’ You will no longer receive paper copies of these documents, instead choosing to access the information via the internet 24/7. Employees will receive an email when their payslip is available online. To select this sustainable option, follow these instructions:

- From the main menu, select “Go Paperless”.
- In the “Go Paperless” Screen, you will need to actively update each of the document types that you no longer wish to receive in printed form. The annual Federal W-2 Tax form has two selections that must be updated, the W-2 and the W-2C (which is only issued if a correction is made). The Employee Payslip has one selection.
- Select one line at a time and click **Update**.
- Select “No” in the Paper dropdown field if you wish to select the paperless option. Be sure that “Yes” is selected in the Online dropdown field. Then click **Apply**.
- Repeat this process for each document type that you no longer wish to receive in paper form.
