If you are getting a window that looks like this:

1. Navigate to Internet Options within the Control Panel
2. Click the Security tab
3. Click Local intranet
4. Click the Sites button
5. Click on the Advanced button

8. In the Local intranet in the Add this website to the zone: enter `https://*.dartmouth.edu`
9. Click Add
10. When done, click Close, OK, and OK.
11. Proceed to OnBase.
   Note you may need to authenticate with the Windows Security one additional time.
