How to Change Your Investments

The instructions below detail how to make changes to your investment elections if you have chosen Fidelity Investments as your retirement provider. If you chose to direct any of your deferrals to TIAA and you have a TIAA user ID and password visit [www.tiaa.org/dartmouth](http://www.tiaa.org/dartmouth) to make changes to your investments on your TIAA account. If you have chosen TIAA and you do not have a TIAA user ID and password, skip to page 10 for further instructions on how to set up your TIAA user ID and password.

- From the home page, click the **Quick Links** drop-down menu next to the plan name you want to change your investments.

- Decide if you would like to make changes to future investments, exchange one investment, or rebalance your entire portfolio. For this example, we’ll choose changes to future investments. Click **Change Investment Elections**.

You can select from one of two options:

**Do it for me:** Choose a Target Retirement Fund based on your projected retirement date. The fund will become more conservative as the fund approaches its target retirement date and beyond.

**Do it myself:** Choose your own investments from a list of available plan options.

- Select the approach that best meets your goals.
• With “Do it for me” investment approach, select your retirement age and then click **Continue**.

• You will then have the option to review the prospectus or request to receive a prospectus, click **Continue**.

• With “Do it myself” investment approach, select your desired investment options totaling 100%, click **Continue**.

  Note, you can click on a fund name to view the prospectus, performance, details and more.

• Review and **Submit** your elections.
• A confirmation page and number will appear and your changes to your investment options at Fidelity are complete. Select Continue to view optional next steps.

• You’re almost done! If you chose to direct any of your deferrals to TIAA, follow these additional steps:

• Click on Select investments with TIAA in the blue box and you will be directed to the TIAA website.

You will need to enter your TIAA user ID and password to login to your TIAA account. If you do not have a TIAA user ID and password, go to next page and follow the steps to establish them.

Follow the instructions from TIAA to select your investments. If this step is skipped, your deferral will still be directed to TIAA; however, it will be invested in a Target Retirement Fund with a target date closest to the year in which you will reach age 65.
