

Request to submit a transfer term application after the deadline date

Name:		
Net ID:	Class Year:	Hinman Box:

Important information: Only students with significant extenuating circumstances out of their control may submit a transfer term application after the deadline date as established by the Committee on Instruction (COI). A change of plans related to employment or internship, failure to attend to degree progress, or inattention to deadlines do *not* qualify. Note that faculty committees, which include the COI, meet fall, winter and spring terms only when classes are in session. Therefore other institutions' applications or payments may not line up with a late transfer term application review timeline.

Guidelines: Obtain and attach the documentation listed below and submit it with this form to the Registrar's Office, or email it to the COI at Committee.on.Instruction@dartmouth.edu . Incomplete requests will not be reviewed.

You will be notified if the COI approves this request. **If you receive notification that your request has been approved you may then submit a completed Transfer Term Application** subject to standards established by the COI for review and approval. Note that approval of your request to submit a late application does not constitute approval of the transfer term.

Attachments:

- Your typed explanation of the significant extenuating circumstances for your request to apply for a transfer term after the deadline date. Include: (a) why you missed the deadline (b) why you cannot attend a future term and apply within the upcoming deadline date (c) what institution/program you would like to attend and (d) for which term.**
- Support from a College faculty/staff member familiar with your situation.** (Note: Do not ask the COI or Registrar to contact them on your behalf.)

I have read the important information and attached the appropriate documentation.
