Fall 2006

Date	Time	Speaker's Name	Seminar Topic	Host
9/22/06	4PM			
9/29/06	4PM			
10/6/06	4PM	David Strayer, Institute of Ecosystem Studies	Effects of the zebra mussel invasion on aquatic ecosystems	Brad Taylor
10/13/06	4PM	Tom Torgersen, UConn	The Dynamics of Shallow Aquatic Systems and the Global Carbon Cycle: CO ₂ /O ₂ Process Vectors and Microbial Productivity	Kathy Cottingham
10/20/06	4PM	Stefan Bengtson, Swedish Museum of Natural History	Synchrotron X-ray tomography of early animal fossils	Kevin Peterson
10/27/06	4PM	David Salt, Purdue U.	Gutathione Acts At the Crossroads Between Metal Tolerance and Pathogen Sensitivity in <i>Thlaspi</i> Metal Hyperaccumulators	Mary Lou Guerinot
11/3/06	4PM	Jonathan Waage, Brown U.	Damsely Sperm Competition: the dynamics of male-male competition within female	John Gilbert/Mark McPeck
11/10/06	4PM	Jennifer Gerton, Stowers Institute for Medical Research	Establishment and maintenance of functional kinetochores in <i>S. cerevisiae</i>	Sharon Bickel
11/17/06	4PM	Simon Gilroy, Penn State	Ionic Signaling in Arabidopsis	Mary Lou Guerinot

12/01/06	Can	Allan Carroll, Canadian Forest Service	When forest management and climate change collide: the eruption and spread of mountain pine beetle populations in western North America	Sharon Martinson
