

Cramer Seminar Series Schedule - Fall 2008

Date	Time	Speaker's Name	Seminar Topic	Host
09/26/08	4PM	Suzanne Alonzo , Yale University	The coevolution of mating behaviour and paternal investment: when theory meets data	Ryan Calsbeek
10/03/08	4PM	Stephen M. King , University of Connecticut Health Center	Dissecting Dynein: The Molecular Anatomy of a Microtubule Motor	Elizabeth F. Smith
10/10/08	4PM	Dan Gruner , University of Maryland	Dirty Little Secret: the underappreciated role of entomopathogenic nematodes in soil food webs and plant community dynamics	Kathy Cottingham, Lizzie Wolkovich
10/17/08	4PM		cancelled	
10/24/08	4PM	D. Scott Mackay , SUNY Buffalo	Scaling in Ecology and Hydrology: Moving Beyond Unexplained Space-Time Variability to Process Explanations	Elizabeth Traver, Becky Ball

10/31/08	4PM	Shin-Han Shiu, Michigan State University	Regulatory Evolution of Stress Responses in Plants: From a Gene Duplication Perspective	Eric Schaller
11/07/08	4PM	David Fay, University of Wyoming	Developmental functions of the LIN-35/pRb tumor suppressor during development: From the department of redundancy department	Eric Lambie
11/14/08	4PM	Alex Badyaev, University of Arizona	The origin of the fittest: Investigating the link between adaptation and evolutionary change	Laurel Symes
11/21/08	4PM	Ethan Temeles, Amherst College	Sexual dimorphism and floral polymorphism across an island archipelago: hummingbirds and heliconias of the Lesser Antilles	Becky Irwin
12/05/08	4PM	Rebecca Irwin, Dartmouth College	The role of floral traits in pollination and plant defense	Department of Biological Sciences
