

Fall 2010

<i>Date</i>	<i>Time</i>	<i>Speaker's Name</i>	<i>Seminar Topic</i>	<i>Host(s)</i>
09/24/10	4PM	Andy Meharg, University of Aberdeen	Exposure to Arsenic Species From Rice - From Paddy Soils to Urine	Tracy Punshon
10/01/10	4PM	Cornelis Murre, UC- San Diego	Global Networks that Orchestrate Lymphocyte Development	Albert Erives
10/08/10	4PM	Craig Williamson, Miami University	Ultraviolet Radiation: Beneficial and Detrimental Effects in Lakes	Sam Fey
10/15/10	4PM			
10/22/10	4PM	Elizabeth Dahlhoff, Santa Clara University	Physiological Consequences of Adaptive Genetic Variation May be Buffered by Heat Shock Protein Expression	Lauren Culler
10/29/10	4PM			
11/05/10	4PM	Frank Harmon, USDA/ARS Plant Gene Expression Center, Albany, CA	Plants are Sensitive Too: Interaction Between Temperature Signaling and the Circadian Clock	Rob McClung
11/11/10	4:30PM** Special Seminar in 041 Haldeman	Kirsten Christoffersen, Univ. of Copenhagen	Aquatic Ecology in Greenland	Lauren Culler/Dickey Center's Inst. of Arctic Studies

11/12/10

4PM

Deane
Bowers, Univ.
of Colorado-
Boulder

Eating and
Being Eaten:
Multitrophic
Effects of
Plant
Chemical
Variation

Jessamyn
Manson

11/19/10

4PM

Albert Erives,
Dartmouth
College

Deciphering
the Molecular
and
Evolutionary
Nature of
Gene
Regulation

Biology
Department
