Spring 2009

Date	Time	Speaker's Name	Seminar Topic	Host
4/03/09	4PM	<a href="#">Gilbert Cabana</a> , Université du Québec à Trois-Rivières	Back to Earth: Tracing fluxes of contaminants and nutrients between aquatic and terrestrial ecosystems.	Brad Taylor
4/10/09	4PM	<a href="#">Eric Post</a> , University of Pennsylvania	Paradise lost: surprisingly rapid changes in Arctic communities	Tom Morrison
4/17/09	4PM	<a href="#">Deborah Goldberg</a> , University of Michigan	Community ecology of clonal plants	Mark McPeck
4/24/09	4PM	<a href="#">Sam Hazen</a> , UMass Amherst	Transcriptional Landscape of Plant Circadian Rhythms	Rob McClung
5/01/09	4PM	<a href="#">Daniel Colon-Ramos</a> , Yale University	Building a brain: molecular mechanisms of circuit assembly in the nematode nerve ring	Amy Gladfelter
5/08/09	4PM	<a href="#">Michael Koelle</a> , Yale University	Two chloride transporters that coordinate inhibitory neurotransmission and synapse development in <i>C. elegans</i>	Eric Lambie
5/15/09	4PM	<a href="#">Peter Thrall</a> , CSIRO	Coevolutionary interactions in the <i>Linum-Melampsora</i> plant-pathogen system	Jeff Garnas
5/22/09	4PM	<a href="#">Ilya Ruvinsky</a> , University of Chicago	A nematode perspective on the evolution of gene regulation	Albert Erives
5/29/09	4PM	<a href="#">Caren Chang</a> , University of Maryland	Uncovering a regulator of ethylene receptor signaling in <i>Arabidopsis</i> specific to ETR1	Tom Jack
