Winter 2009

Date	Time	Speaker's Name	Seminar Topic	Host
1/09/09	4PM	<a href="#">Martina Brueckner</a> , Yale University	Cilia, multifunctional organelles at the center of left right asymmetry	Christen DiPetrillo
1/16/09	4PM	<a href="#">Gunter Wagner</a> , Yale University	The molecular basis of evolutionary innovations: transposable elements and evolving transcription factors	Alysha Heimberg
1/23/09	4PM	<a href="#">James Anderson</a> , University of Toronto	Incipient speciation in experimental yeast populations; whole-genome sequencing and genetic determinants of adaptation and reproductive isolation.	Amy Gladfelter
1/30/09	4PM	<a href="#">Harmit Malik</a> , Fred Hutchinson Cancer Research Center	Genetic conflict: the usual suspects and beyond	Sharon Bickel
2/06/09	4PM	<a href="#">Nat Holland</a> , Rice University	Consumer-Resource Mutualisms: Case Studies of Interactions between Ants and Extrafloral Nectar Plants in the Sonoran Desert	Becky Irwin
2/13/09	4PM	<a href="#">Kevin Foster</a> , Harvard University	Social Evolution in Microbes	Mary Lou Guerinot, George O'Toole
2/20/09	4PM	<a href="#">John McKay</a> , Colorado State University	Drought Acclimation and Adaptation	Andy Kern
2/27/09	4PM			
3/06/09	4PM	<a href="#">Joel Kingsolver</a> , UNC	CANCELLED	Ryan Calsbeek
