HOW TO PREPARE FOR COURSE ELECTION

- If you haven't done so already, read EXPLORE, ENGAGE, EXCEL especially the section titled Recommended Courses for First-Year Students which begins on page 8: wwww.dartmouth.edu/~upperde/pdfs/explore_engage_excel.pdf.
 Be sure to identify 7 10 courses that are interesting to you, or that allow you to explore an academic interest.
- Review the course descriptions by selecting the ORC/Catalog (Organizations, Regulations, Courses) tab on the Registrar website: http://dartmouth.smartcatalogiq.com/en/current/orc/Departments-Programs-Undergraduate.
 Read the course description in its entirety not just the course title!
- Review the Timetable of Class Meetings, available as a QUICKLINK on the Registrar's web site, to see which courses are being offered Fall term 2016: http://oracle-www.dartmouth.edu/dart/groucho/timetable.main.
- Pay attention to the size of the courses and the current number of students enrolled. Lim = total number allowed to enroll in a course. Enrl = number of students currently enrolled.
- Review the online Course Registration Quick Reference Guide which provides instructions for using Dartmouth's registration system: www.dartmouth.edu/~reg/docs/qrg_entering_201609_new.pdf.
- Attend as many academic department and program open houses as possible: see the schedule below and online at www.dartmouth.edu/~orientation/schedule (select only the Academic Open Houses box to see only Open Houses).
- Attend Wednesday's Getting Started in Math and Science and/or Friday's Getting Started on the Path to Health Professions to learn about course sequencing in math, sciences, and pre-health.
- Complete your **Advising Questionnaire** on BannerStudent *before* you meet with your Faculty Advisor.
- Select at least one small class with fewer than twenty students.

Department or Program

• Meet with your Faculty Advisor (see information on the inside of this brochure). Bring your copy of **EXPLORE, ENGAGE, EXCEL** with you to this meeting!

Welcome New Students!

We're thrilled that you are finally here. The entire campus community is ready to introduce you to Dartmouth and prepare you to navigate, explore, and experience all that the College has to offer. Over the next week, we will help you make informed choices for your fall term courses, share the expectations and responsibilities of membership in our community, provide a range of opportunities for meaningful engagement with faculty, students and staff, and enable you to explore the many ways you can become involved in campus and community activities.

Please review the schedule carefully, and be sure to attend all required events.

As your transition to Dartmouth unfolds, don't be afraid to ask questions when you're not sure what to do or where to go. Faculty members, undergraduate deans, academic support services, residential communities, and other campus resources are here to support you throughout your Dartmouth career. We also want to be sure that you are taking care of yourselves. Your general health and well-being will be critical to your success at Dartmouth. Begin taking advantage of all the resources available to you now, to be sure you're off to a good start.

Orientation does not end when classes begin. The FYRE program in the residence halls and the Campus Connections program of events and activities in September and October will help you continue to build community and explore campus opportunities and resources. You can visit the New Student Orientation and Collis Center websites for the ongoing calendar of events.

Your time at Dartmouth will be what you make it. Engage, get out of your comfort zone, and take care of each other. We look forward to getting to know you!

Inge-Lise Ameer
Vice Provost for Student Affairs

Shared Academic Experience Stories and Selves: Making Meaning, Cultivating Curiosity, and Becoming Citizens of the World

Join your classmates and Anthropology Professor Sienna Craig for your first official lecture at Dartmouth.

Spaulding Auditorium, Hopkins Center

How do we make sense of our lives, and the diverse experiences that shape us as human beings? What stories do we tell, about ourselves and about each other? How do such stories help us cultivate a sense of belonging and to navigate social difference? What do we risk losing when we see each other as "single stories" instead of multifaceted people, making our way through a complex world? Using the writing of Nigerian novelist Chimamanda Ngozi Adichie as inspiration and the discipline of anthropology as our guide, this year's Shared Academic Experience culminating lecture

House Professor Home Visits and Residential Community Mash Up Residence Halls

invites us all to take up these questions.
