

Dear Student:

Your major/minor plan has been submitted to the Department of Physics and Astronomy and is pending approval. Note: your major or minor is NOT yet declared or officially filed.

Your next step is to meet with Professor Kristina Lynch, the Department Major and Minor Advisor. Please contact her promptly [kristina.a.lynch@dartmouth.edu] to arrange a mutually convenient meeting time to review and approve your plan in person. Note: Engineering Physics students fulfilling the culminating experience with an ES course or who are completing an Engineering honors thesis should instead contact Jenna Wheeler at Thayer.

You can find more information on our website - physics.dartmouth.edu/.

We look forward to having you join the Department!
